## Online Library Handbook Of Restorative Justice

Handbook is an essential tool for every serious student of criminal, social and restorative justice. Restorative justice aims to address the consequences of crime by encouraging victims and offenders to communicate

## Online Library Handbook Of Restorative Justice

and discuss the harm caused by the crime that has been committed. In the majority of cases, restorative justice is facilitated by direct and indirect dialogue between victims and offenders, but it also includes

## Online Library Handbook Of Restorative Justice

support networks and sometimes involves professionals such as police, lawyers, social workers or prosecutors and judges. In theory, the victim is a core participant in restorative justice and the restoration of the harm is

## Online Library Handbook Of Restorative Justice

a first concern. In practice, questions arise as to whether the victim is actively involved in the process, what restoration may entail, whether there is a risk of secondary victimisation and whether the victim is truly at the

## Online Library Handbook Of Restorative Justice

heart of the restorative response, or whether the offender remains the focal point of attention. Using a combination of victimological literature and empirical data from a European research project, this book considers the role and the

## Online Library Handbook Of Restorative Justice

position of the victim in restorative justice practices, focusing on legislative, organisational and institutional frameworks of victim-offender mediation and conferencing programmes at a national and
