The Get Set for School program employs a unique, multisensory approach which prepares children to write. Children will play, build, sing, color and learn while developing important skills. Readiness & Writing Pre-K Teacher's Guide, now in its 8th edition, provides everything you need to understand the program and developmental stages to effectively teach the lessons. Topically, children learn the alphabet, letter and number recognition and formation, counting, shapes, colors and drawing. The writing focus is on uppercase letters, while lowercase letters are taught toward the end of the year. Complete explanations are given on how to use the suggested manipulatives. Lessons are easy to use and there is a suggested 36 week schedule found in the front of the book. Crayon skills are developed while using special pages for scribbling and coloring.
