Meet Mariella Mystery - no mystery too mysterious, no problem too perplexing. Second title in this debut series perfect for 7+ girls and fans of Clarice Bean.

Hit and Run tells the improbable and often hilarious story of how two Hollywood film packagers went on a campaign to reinvent themselves as studio executives -- at Sony's expense. Veteran reporters Nancy Griffin and Kim Masters chronicle the rise of Jon Peters, a former hairdresser, seventh-grade dropout, and juvenile delinquent, and his soulless soul mate, Peter Guber -- and all the sex, drugs, and fistfights along the way. It is the story of the ultimate Hollywood con job and the standard by which every subsequent business blunder has been measured. Hit and Run delivers rock-solid business reporting liberally laced with inside gossip and outrageous scandal -- plus a new afterword bringing us up to date on the latest fallout from the Guber-Peters legacy.

Poetry. Bilingual Edition. Translated from the Italian by Riccardo Duranti, Anamaria Crowe Serrano, and Anthony Molino. Edited by Anthony Molino. In his introduction, "On Reading Valerio Magrelli," Oxford Professor Peter Hainsworth describes the title work as "a striking, ambitious and indeed ingenious creation, evidence of a poetic strategy that daringly spearheads and remains at the forefront of Italian poetry today." Valerio Magrelli is recognized in Italy as one of the country's most imaginative, innovative and vision-altering poets yet still remains insufficiently known to the English-speaking world. The present bilingual collection, combining selections from two works of the 1980s under the title Nearsights, together with the complete composition of 1999, "Instructions on How to Read a Newspaper," strives to rectify this situation.

A shake of the dark head, a shudder in the shoulders. Another tiny splash on the linoleum floor. Husband murdered, and now her daughter too. The Inuit, it is said, have forty different words for snow. Never mind about snow, Cardinal mused, what people really need is forty words for sorrow. Grief. Heartbreak. Desolation. There were not enough, not for this childless mother in her empty house. [Forty Words for Sorrow, page 42] The mutilated body of a young girl has been discovered in an abandoned mine shaft on the desolate Lake Nipissing island of Windigo.

Missing since September, Katie Pine has finally been found, encased in a block of ice as if preserved in amber. The intense police investigation when she first disappeared had gone nowhere, and Detective John Cardinal went from solving murders to investigating burglaries and petty crimes. But now all bets are off. Cardinal is back on the case; this time with a new partner. Lise Delorme, a sexy and passionate former internal

investigator, makes Cardinal uneasy. With a guilty conscience to fuel his suspicion, Cardinal wonders if Delorme isn't there to investigate him. And his suspicions are well founded. Delmore has made a deal with the devil: in order to leave SIU for good, she must gain Cardinal's trust and then betray it. There are allegations of corruption on the force, and Cardinal's "extracurricular" activities during a counterfeiting investigation are being called into question. Delorme is convinced that Cardinal is innocent of any wrongdoing and even when her investigation calls his integrity into question, she is reluctant to believe it. When Cardinal makes the gruesome discovery of the bodies of two more missing teenagers, he doesn't spend time worrying about his suspicions concerning Delorme. His focus is on a more sinister concern—a serial killer hiding somewhere in this quiet northern town. That concern becomes laced with urgency when Karen Steen, a young woman from Guelph, arrives to speak to Cardinal about her missing boyfriend, Keith London. Cardinal begins to believe that Keith is the fourth young person to disappear in Algonquin Bay. But unlike the other victims, he believes that Keith may still be alive. The question now becomes, what is the connection between the three dead and one missing teenager? Can Cardinal and Delorme find Keith London before it's too late?

A collection of charming holiday tales, by the author of Mary Poppins - a timeless gift for all ages. Each of the stories in this book was written by P.L. Travers as a holiday gift, sent to her friends and family and never published. Now millions of readers and generations of film-goers will get a peek behind the curtain and see how she used her life story to inform her fiction. Whether it is Aunt Sass herself - who is partly her inspiration for Mary Poppins - or the crass ex-jockey whose life work is not at all what it appears, the characters are unforgettable. P.L. Travers wrote with a signature blend of sugar and spice; her characters, including Mary Poppins, are endearing, oversized, and cozy. The Aunt Sass Christmas Stories will delight any child - naughty or nice.

In this wide-ranging meditation on the meaning of time, Agacinski weaves together discussions of Aristotle,

Kant, Hegel, Freud, Heidegger, Baudelaire, Barthes, and especially Walter Benjamin -- her model for the modern "passer of time" -- as she traces a time-line of the philosophy of time.

Based on an analysis of data from the U.S. National Crime Study, the authors conclude that the personal characteristics associated with risks of victimization were rather stable across the cities surveyed, although levels of victimization showed considerable variation. For example, younger persons had greater rates of personal victimization than did older persons, males than females, etc. The book discusses the patterns of risk factors associated with criminal victimization, and the correlates of characteristics of criminal incidents. "Reyner Banham's special skill was to take objects that we otherwise might take for granted and to open our eyes and minds to their visual and cultural associates. Unlike many historians he had an 'eye' and this came through in his writings. He was also a popularizer—ahead of his time. These perspectives are every bit as relevant now as they were in the past."—Sir Norman Foster, Foster Associates "Banham's stubborn insistence on the proper terms by which to measure the contemporary predicament reveals the depth and the breadth of his contribution to architectural history and theory. The modern, for Banham and for us, simply refuses to go away."—Anthony Vidler, author of The Architectural Uncanny

Long ago, a little girl named Laura Ingalls lived in a little house in the Big Woods of Wisconsin with her Pa, her Ma, her sisters, Mary and Carrie, and their good old bulldog, Jack. Winter was just around the corner, and Laura worked hard to help make the little house ready for the cold days ahead. Soon there was frost on the windows and snow on the ground, but Laura and her folks were warm and cozy in their snug little house in the Big Woods. Laura Ingalls Wilder's Little House books have been cherished by generations of readers. Now for the first time, the youngest readers can share her adventures in these very special picture books adapted from Laura Ingalls Wilder's beloved storybooks. Renée Graef's warm paintings, inspired by Garth Williams' classic Little House illustrations, bring Laura and her family lovingly to life.

ENGAGING STUDENTS In Phillip Schlechty's best-selling book Working on the Work, he outlined a motivational framework for improving student performance by improving the quality of schools designed for students. Engaging Students offers a next-step resource in which Schlechty incorporates what he's learned from the field and from the hundreds of workshops he and the Schlechty Center staff have conducted since Working on the Work was first published. This innovative and practical book is focused on helping teachers become increasingly successful in designing engaging work for their students. Schlechty contends that rather than viewing schools as teaching platforms, schools must be viewed as learning platforms. Rather than seeing schools as knowledge distribution systems, schools must be seen as knowledge work systems. Rather than defining teachers as instructors, teachers must be defined as designers, leaders, and guides to instruction. Engaging Students also includes useful questionnaires that will facilitate discussion, analysis, and action planning at both school and classroom levels. Praise for Engaging Students "In Engaging Students, Schlechty boldly delineates why the focus on engaging students overrides the focus on test scores. Every teacher and administrator in my district will use this guide to transform our entire organization into one that is truly focused on student engagement." —KIM REDMOND, superintendent, Canton Local Schools, Canton, Ohio "This insightful book reminds us that every decision made in schools should ultimately benefit students. You will find yourself referring to this book again and again as a guide to support you in your role as an educator." —ALLENE MAGILL, executive director, Professional Association of Georgia Educators, Atlanta, Georgia "Here is a much-enriched framework for everything Dr. Schlechty advocates: well articulated curriculum standards, schools as a platform for learning, teachers as leaders and designers of engaging and meaningful work, and students becoming responsible for their learning." —NYANA SIMS, K-12 literacy and induction facilitator, Goshen School District, Torrington, Wyoming "By understanding and implementing the principles so thoughtfully articulated in this book, schools can become centers of highly engaged learners—and in that endeavor find again the joy of teaching and learning." —JOHNNY VESELKA, executive director, Texas Association of School Administrators, Austin, Texas

"Giroux refuses to give in or give up. The Violence of Organized Forgetting is a clarion call to imagine a

different America--just, fair, and caring--and then to struggle for it."--Bill Moyers "Henry Giroux has accomplished an exciting, brilliant intellectual dissection of America's somnambulant voyage into anti-democratic political depravity. His analysis of the plight of America's youth is particularly heartbreaking. If we have a shred of moral fibre left in our beings, Henry Giroux sounds the trumpet to awaken it to action to restore to the nation a civic soul."--Dennis J. Kucinich, former US Congressman and Presidential candidate "Giroux lays out a blistering critique of an America governed by the tenets of a market economy. . . . He cites French philosopher Georges Didi-Huberman's concept of the 'disimagination machine' to describe a culture and pedagogical philosophy that short-circuits citizens' ability to think critically, leaving the generation now reaching adulthood unprepared for an 'inhospitable' world. Picking apart the current malaise of 21st-century digital disorder, Giroux describes a world in which citizenship is replaced by consumerism and the functions of engaged governance are explicitly beholden to corporations."--Publishers Weekly In a series of essays that explore the intersections of politics, popular culture, and new forms of social control in American society, Henry A. Giroux explores how state and corporate interests have coalesced to restrict civil rights, privatize what's left of public institutions, and diminish our collective capacity to participate as engaged citizens of a democracy. From the normalization of mass surveillance, lockdown drills, and a state of constant war, to corporate bailouts paired with public austerity programs that further impoverish struggling families and communities, Giroux looks to flashpoints in current events to reveal how the forces of government and business are at work to generate a culture of mass forgetfulness, obedience and conformity. In *The Violence of Organized Forgetting*, Giroux deconstructs the stories created to control us while championing the indomitable power of education, democracy, and hope. Henry A. Giroux is a world-renowned educator, author and public intellectual. He currently holds the Global TV Network Chair Professorship at McMaster University in the English and Cultural Studies Department and a Distinguished Visiting Professorship at Ryerson University. The Toronto Star has named Henry Giroux "one of the twelve Canadians changing the way we think." More Praise for Henry A. Giroux's *The Violence of Organized Forgetting*: "I can think of no book in the last ten years as essential as this. I can think of no other writer who has so clinically dissected the crisis of modern life and so courageously offered a possibility for real material change."--John Stepling, playwright, and author of *The Shaper*, *Dogmouth*, and *Sea of Cortez* "A timely study if there ever was one, *The Violence of Organized*

Forgetting is a milestone in the struggle to repossess the common sense expropriated by the American power elite to be redeployed in its plot to foil the popular resistance against rising social injustice and decay of political democracy."--Zygmunt Bauman, author of *Does the Richness of the Few Benefit Us All?* among other works
Prophetic and eloquent, Giroux gives us, in this hard-hitting and compelling book, the dark scenario of Western crisis where ignorance has become a virtue and wealth and power the means of ruthless abuse of workers, of the minorities and of immigrants. However, he remains optimistic in his affirmation of radical humanity, determined as he is to relate himself to a fair and caring world unblemished by anti-democratic political depravity."--Shelley Wafia, *Frontline*

A thrilling journey through China's dark criminal underworld, from a celebrated voice in Chinese literature
When Hongyang is found dead after a night of debauched drinking, it looks as if his reign of terror has finally come to an end. Few in this insular community have much reason to mourn his passing: Hongyang is an infamous mob boss, a man with plenty of enemies. But now it seems that his years of crime have also earned him some very dangerous friends. As his funeral draws near, those who knew him come together to look back on a life characterised by corruption, deceit and a flair for violence. Their recollections will keep Hongyang's legacy alive, with terrifying consequences. From the master of Chinese noir fiction comes this explosive new novel about the power of one man, unravelled by a tangled web of secrets.

Spooky or funny, surprising or frightening, *Shock Shop* is a collection of seven brand-new novels by some of the greatest names in children's writing. One morning, the Matheson family come downstairs to find that their living room is unnaturally, indeed frighteningly tidy. At first they assume it's a break-in (obsessively tidy thieves?) - but soon the truth becomes clear. It's Hairy Bill - a brownie or bogle, the Matheson family's very own house spirit. He used to do chores on the family farm. In the city, he decorates and cleans. Soon the whole house is redecorated in Scottish Baronial style - deer's heads, tartan aplenty, Scottish landscapes on the wall... But the Mathesons don't want to live with a demonic antidote to Carole Smillie. How can they get rid of the sinister spirit of cleaning?

The Theatre of Societas Raffaello Sanzio chronicles four years in the life of an extraordinary Italian theatre company whose work is widely recognized as some of the most exciting theatre currently being made in Europe. In the first English-language book to document their work, company founders, Claudia Castellucci, Romeo Castellucci and Chiara Guidi, discuss their approach to theatre making with Joe Kelleher and Nicholas Ridout. At the centre of the book is a detailed exploration of the company's eleven episode cycle of tragic theatre, Tragedia Endogonida (2002–2004,) including: production notes and extensive correspondence giving insights into the creative process essays by and conversations with company members alongside critical responses by their two co-authors seventy-two photographs of the company's work. This is a significant collection of theoretical and practical reflections on the subject of theatre in the twenty-first century, and an indispensable written and visual document of the company's work.

A darkly humorous exploration of the human body and its various functions in poetic prose, Valerio Magrelli's The Condominium of the Flesh, a personal chronicle of his clinical experience, catalogues a life history of ailments without ever being pathological.

Violence is all around us; yet, despite its widespread prevalence, we remain unclear about its causes. In this book Felicity de Zulueta - begins by defining "violence" as distinct from "aggression", and then attempts to trace its origins, highlighting the polarization between those who believe mankind to be innately violent and those who see violence as the outcome of man's life experiences. As a result of her investigations, the author suggests that the current high level of violence may well be linked to the effects of childhood and adult trauma which appear to be far more widespread than has hitherto been acknowledged. These findings are relevant to understanding why "normal" people can become violent in certain conditions. This is a second edition and has been fully updated. A new chapter on terrorism has been added.

Unmaking the Public University

Resident Foreigners

An essential American dream—equal access to higher education—was becoming a reality with the GI Bill and civil rights movements after World War II. But this vital American promise has been broken. Christopher Newfield argues that the financial and political crises of public universities are not the result of economic downturns or of ultimately valuable restructuring, but of a conservative campaign to end public education's democratizing influence on American society. *Unmaking the Public University* is the story of how conservatives have maligned and restructured public universities, deceiving the public to serve their own ends. It is a deep and revealing analysis that is long overdue. Newfield carefully describes how this campaign operated, using extensive research into public university archives. He launches the story with the expansive vision of an equitable and creative America that emerged from the post-war boom in college access, and traces the gradual emergence of the anti-egalitarian "corporate university," practices that ranged from racial policies to research budgeting. Newfield shows that the culture wars have actually been an economic war that a conservative coalition in business, government, and academia have waged on that economically necessary but often independent group, the college-educated middle class. Newfield's research exposes the crucial fact that the culture wars have functioned as a kind of neutron bomb, one that pulverizes the social and culture claims of college grads while leaving their technical expertise untouched. *Unmaking the Public University* incisively sets the record straight, describing a forty-year economic war waged on the college-educated public, and awakening us to a vision of social development shared by scientists and humanists alike.

This is the first full-length biography of the visionary Hollywood filmmaker Tim Burton, director of *Batman*, *Batman Returns*, *Beetlejuice*, *Edward Scissorhands*, *Peewee's Big Adventure*, *Tim Burton's The Nightmare before Christmas*, *Ed Wood*, *Mars Attacks!*, and *Sleepy Hollow*. More than an examination of his body of work, this book takes an in-depth look at Tim Burton's personal life, which until now the reclusive director has managed to keep under wraps. Author Ken Hanke examines the frail, wild-haired fellow whose unique, introverted feature films are passionately admired by many and dismissed by others. How does he command the respect of so many big names in a creative industry not much known for good judgment? How has he managed to carve out an impossibly personal and quirky body of work within the confines of the most mainstream venues of establishment Hollywood? You'll learn about: * Tim Burton's unhappy childhood; to this day he has no relationship with his family * the real reason why Tim Burton left Disney after *Ed Wood* * his collaborations with talent such as Johnny Depp, Winona Ryder, Vincent Price (his idol), and Danny Elfman * the autobiographical elements in *Edward Scissorhands* * Tim Burton's often disastrous involvement with other people's projects * the ramifications of excessive power-- the *Batman Returns* debacle * the collapse of the *Superman Reborn* project

From the shores of Europe to the Mexican-US border, mass migration is one of the most pressing issues we face today. Yet at the same time, calls to defend national sovereignty are becoming ever more vitriolic, with those fleeing war, persecution, and famine vilified as a threat to our security as well as our social and economic order. In this book, written amidst the dark resurgence of appeals to defend 'blood and soil', Donatella Di Cesare challenges the idea of the exclusionary state, arguing that migration is a fundamental human right. She develops an original philosophy of migration that places the migrants themselves, rather than states and their borders, at the centre. Through an analysis of three historic cities, Athens, Rome and Jerusalem, Di Cesare shows how we should conceive of migrants not as an other but rather as resident foreigners. This means recognising that citizenship cannot be based on any supposed connection to the land or an exclusive claim to ownership that would deny the rights of those who arrive as migrants. Instead, citizenship must be disconnected from the possession of territory altogether and founded on the principle of cohabitation – and on the ultimate reality that we are all temporary guests and tenants of the earth. Di Cesare's argument for a new ethics of hospitality will be of great interest to all those concerned with the challenges posed by migration and with the increasingly hostile attitudes towards migrants, as well as students and scholars of

philosophy and political theory.
