A Defense of Truth

*Never before published, an extraordinarily inspiring and radical conversation between Howard Zinn and PBS/NPR journalist Ray Suarez, wherein American history is turned upside down—published to coincide with the tenth anniversary of Zinn's death Truth Has a Power of Its Own is an engrossing collection of never-before-published conversations with Howard Zinn, conducted by the distinguished broadcast journalist Ray Suarez in 2007, that covers the course of American history from Columbus to the War on Terror from the perspective of ordinary people—including slaves, workers, immigrants, women, and Native Americans. Viewed through the lens of Zinn's own life as a soldier, historian, and activist and using his paradigm-shifting People's History of the United States as a point of departure, these conversations explore the American Revolution, the Civil War, the labor battles of the nineteenth and twentieth centuries, U.S. imperialism from the Indian Wars to the War on Terrorism, World Wars I and II, the Cold War, and the fight for equality and immigrant rights, all from an unapologetically radical standpoint. Longtime admirers and a new generation of readers alike will be fascinated to learn about Zinn's thought processes, rationale, motivations, and approach to his now-iconic historical work. Suarez's probing questions and Zinn's humane (and often humorous) voice—along with his keen moral vision—shine through every one of these lively and thought-provoking conversations, showing that Zinn's work is as relevant as ever.*

*I never thought I'd have a sexual awakening at 34, but, well...here I am: River Burke, novice deviant and master class neurotic mess. With my laundry list of control issues, submission doesn't exactly come naturally, but I figure if I can find the right person-someone big, buff, and crazy intimidating-maybe I can learn to let go. And then in walks Ellison Fitch. He's not at all what I thought I was looking for, but with his piercing eyes, his too-personal questions, and his brilliant mind, he's under my skin from the moment we meet. He makes me squirm in all the best ways with nothing but a look and a word, and I can see he loves that as much as I do. I thought I wanted someone to push me around, but it turns out I want someone to take me apart. While Ellison systematically dismantles every one of my barriers, I can't help but wonder if he'll ever drop his for me. Does he even want to let me in, or am I too lost, too broken to fill his needs the way he fills mine? I have to know, because now that I've had a taste of submission at his hand, I can't stop thinking about how good it felt to be on my knees for him. Let's be honest here: I'm going to let this man break me into pieces. I only hope he'll be there to put me back together again.*

*Dr. Keith Ablow, bestselling author and host of a new daily one-hour daytime-TV talk show, presents his first self-help book. Based on more than 20 years of clinical experience and highlighting stories from his own practice, Ablow shows how ignoring or burying painful memories and experiences can negatively affect every aspect of our lives, and he presents strategies to help the reader transform the pain of the past into the power of the future. In a world where short-term talk therapy and medication are the latest trends to "fixing" an unhappy life, Ablow's message is controversial. But though examining the past can be daunting, Living the Truth is as comforting and rewarding as it is transformative. And through Ablow's fine storytelling skills, empathetic voice, and straight-up advice, the experience of reading this extraordinary book becomes the first step to living a truly authentic life.*

Fearne takes our hand and shows us how to be one by treading the wild, vulnerable path first.' Sarah Wilson, author of First, We Make the Beast Beautiful Fearne Cotton's voice is familiar to millions, whether that's through television, radio or on her hugely successful Happy Place podcast. Her voice is her career, her livelihood and the way she communicates with her audience and her loved ones. So, when Fearne's doctor told her she was at risk of needing a throat operation followed by two weeks of being unable to speak, she found herself facing a period of unexpected contemplation. As she considered what silence would mean, Fearne began to think about other times her voice had gone unheard - as a young woman, as 'just the talent', as the foil to louder, more dominant figures. She found herself wondering, at what point do we internalise this message, and start silencing ourselves? When do we swallow down our authentic words to become pleasers and compromisers at the cost of our own happiness or wellbeing? Speak Your Truth dives into all the ways we learn to stay quiet for the wrong reasons, and explores how to find your voice, assert yourself and speak out with confidence. Brave, vulnerable and deeply personal, Speak Your Truth shares Fearne's compelling story and helps you to shape your own.
