Mwishowe, kuna orodha ya msamiati mpya uliotumika katika fasihi kwa minajili ya kuneemesha welekevu wa mada za karne ya mitandao na utandawazi. ENGLISH: Nyayo za Obama is a literary piece of work that tells the story of US president Barack Obama, starting with his ancestral connections in Africa to the nation of liberty, opportunity and justice for all- the United States of America. It is a compilation of anecdotes that tracks his life through a variety of socioeconomic and geographic influences which shaped his vision of himself and that of the world around him, and how he walked a tight rope of racial diversity he found in his life. It discusses his early career as a community organizer and how that experience led him to a meteoric political career and seemingly insurmountable challenges he had to face, first in his own state of Illinois and eventually on the natioanl scene. The book discusses the Obama's political success in the context of a nation that, though still suffers the social-economic scars of slavery and racial preferences, has been steadily changing in many ways for the better, enough to allow the election of its president from a race th was once doomed to slavery and human indignities. It highlights the salient qualities of its kind of democracy predicated on the founding documents and economic freedom which makes it the market of the world; it informs about the nation's history as the most charitable nation in the world and the champion of the rule of law and equal opportunity for all. It is written in the Swahili language, which is the lingua franca of several nations in Eastern and Central Africa regions of the continent, and the most important African language south of the Sahara desert. It will be among few books in Swahili that provides expositions about the United States and its history and the changing face of its people, economy and its role in the global village. The book comes with a list of vocabulary of English translations of some of the words that have been used but may not be common in the available Swahili litereature.
