

## Historical Dictionary Of The R Lic Of Cameroon

Historical Dictionary of Arms Control and Disarmament provides an overview of key themes and issues in international security and arms control, focusing on traditional and nontraditional efforts in the twentieth century to manage the spread and use of armaments and to prevent war. This book summarizes the rich and proud traditions of arms control and disarmament, their crucial role in ensuring a noncatastrophic course of history (especially during the Cold War), and their continuing relevance in the post-Cold War world. It also defines a broad perspective of key terms and captures the scope and range of application yesterday, today, and tomorrow. This dictionary chronicles personalities, events, and agreements and is a ready reference from which to launch a more extensive investigation. It includes a large dictionary of more than 1,000 key terms, a comprehensive bibliography, an extensive chronology, and a timeline. Historical Dictionary of Arms Control and Disarmament also provides information that is comprehensible to all readers. Jeffrey A. Larsen and James M. Smith present a context for the broader range of international relations at a given point in time, extending the utility of the dictionary beyond just a narrow examination of arms control.

Contains entries on major figures, events, and concepts related to Nepal's history, culture, politics, economy, social life, and geography.

Historical Dictionary of Palestine, Second Edition contains a chronology, an introduction, and an extensive bibliography. The dictionary section has more than 800 cross-referenced entries on important personalities as well as aspects of the country's politics, economy, foreign relations, religion, and culture. One of the world's poorest nations, Haiti shares the island of Hispaniola with the Dominican Republic. Haiti proclaimed its independence from France on January 1, 1804 following the only successful slave revolt in the Americas. As a result of the Haitian Revolution (1791-1804), Haiti became the first independent Latin American nation and the second independent nation in the Western Hemisphere, after the United States. Throughout its history it has suffered political violence, and in 2010 it suffered a devastating earthquake, which killed over 200,000 people and countless people lost homes and businesses. The Historical Dictionary of Haiti covers the history of Haiti starting in 1492 with the initial discovery of the island Haiti shares with the Dominican Republic to the present day. The dictionary itself contains over 400 cross-referenced entries on crucial aspects of Haitian history, and it is the most extensive single-volume

reference work on Haiti available. In addition to the dictionary, this book provides a chronology containing important dates and events and an informative bibliographical section organized by subject. This book is an excellent access point for students, researchers, and anyone wanting to know more about Haiti."

Historical Dictionary of the Dirty Wars

Historical Dictionary of the Syrian Uprising and Civil War

***The French Revolution remains the most examined event, or period, in world history. Most historians would argue that it was the first "modern" revolution, an event so momentous that it changed the very meaning of the word revolution to its modern sense of connoting a political and or social upheaval that marks a decisive break with the past, one that moves a society in a forward or progressive direction. No revolution has occurred since 1789 without making reference to this first revolution, and most have been measured against it. When revolution shook the foundations of the Old Regime in France, shock waves reverberated throughout the western world. Historical Dictionary of the French Revolution examines the causes and origins, the roles of significant--and often colorful--persons, crucial events and turning points, significant institutions and organizations, and the economic, social, and intellectual factors involved in the revolution. An introductory essay, chronology, and comprehensive bibliography complement the more than 400 dictionary entries, making this a great resource for students and history enthusiasts alike.***

***The period from the outset of World War I to the end of World War II was among the most significant in the history of the United States. Twice it was drawn into 'foreign entanglements'\_ wars it initially thought were no concern of its own and of which it tried to steer clear\_ only to realize that it could not stand aside. With each one, it geared up in record time, entered the fray massively, and was crucial to the outcome. Each war tested the American people and their leaders, and in each case the country came out of the conflagration stronger than before\_and even more important\_yet stronger relative to other countries than it had ever been. This was the period when the United States became a world leader. The Historical Dictionary of U.S. Diplomacy from World War I through World War II relates the***

**events of this crucial period in U.S. history through a chronology, an introductory essay, and over 600 cross-referenced dictionary entries on key persons, places, events, institutions, and organizations.**

**This second edition of the Historical Dictionary of the Holocaust includes an updated chronology, an introductory essay, a bibliography, and over 400 cross-referenced dictionary entries on significant events and personalities.**

**This second edition of Historical Dictionary of the Inuit provides a history of the indigenous peoples of North Alaska, arctic Canada including Labrador, and Greenland. This is done through a chronology, an introductory essay, an extensive bibliography, and over 400 cross-referenced dictionary entries on significant persons, places, events, institutions, and aspects of culture, society, economy, and politics. This book is an excellent access point for students, researchers, and anyone wanting to know more about the Inuits.**

*The Chinese Communist Party, as the political leader of the world's largest country and second largest economy, plays an undeniably important role in global politics. Founded in a boarding school in Shanghai in 1921, the Chinese Communist Party is one of the oldest ruling parties in the world since its takeover of mainland China in 1949 under the leadership of Chairman Mao Zedong. Since its inception, the party has survived a civil war with the Kuomintang (1946-1949); the political, cultural, and humanitarian catastrophe of the Great Leap Forward (1958-1960), where upwards of 30 million Chinese civilians died; and the death of the Chinese Communist Party's dominant leader, Mao Zedong, in 1976. In recent years, intellectuals and party members*

have been given increasing leeway to express their opinions, and Lawrence R. Sullivan takes advantage of this new research to provide a comprehensive history of one of the world's most fascinating political movements. The Historical Dictionary of the Chinese Communist Party contains a chronology, an introductory essay, an appendix, an extensive bibliography, and more than 400 cross-reference dictionary entries on key people, places, and institutions. This book is an excellent access point for students, researchers, and anyone wanting to know more about the Chinese Communist Party.

The philosopher David Hume was born in Edinburgh, Scotland on April 26, 1711. Known for his re-thinking of causation, morality, and religion, Hume has left a lasting mark on history. James Madison, the 'father' of the U.S. Constitution, drew heavily on Hume's writing, especially his 'Idea of Perfect Commonwealth,' which combated the belief at the time that a large country could not sustain a republican form of government. Hume's writing also influenced Adam Smith's Wealth of Nations and the philosophy of Immanuel Kant. The Historical Dictionary of Hume's Philosophy is the only Hume dictionary in existence. The book provides a substantial account of David Hume's life and the times in which he lived, and it provides an overview of his philosophical doctrines. This is done through a chronology, an introductory essay, a bibliography, and over a hundred cross-referenced dictionary entries covering key terms, as well as brief discussions of Hume's major works and of some of his most important predecessors, contemporaries, and successors.

The Republic of India is the second most populous, the seventh largest by geographical area, and has the fourth largest economy in terms of purchasing power parity in the world. While it has always been an important country, it has often been neglected. Of late, however, there has been much talk of the 'new' India, one with greater economic dynamism, a more active foreign policy, and the emergence of a huge middle class. With over a hundred new cross-referenced dictionary entries—the majority of which pertain to the last decade—and updating others, the second edition of the Historical Dictionary of India illustrates the rapidly evolving situation without neglecting the country's ancient past. The chronology has been brought up to date, the introduction expanded, and the bibliography includes numerous new titles.

*Historical Dictionary of U.S. Diplomacy from World War I through World War II*

Contesting the French Revolution provides an insightful overview of one of history's most significant events, as well as examining the most significant historiographical debates about this period. Explores the causes, events, and consequences of the French Revolution Offers a stimulating analysis of the most controversial debates: Were the events of 1789 a social revolution or a political accident? Did they mark the rise of industrial capitalism or the birth of modern democracy? Was Napoleon Bonaparte an heir to the ideals of 1789 or a betrayer of the Revolution? Shows how historical interpretation of the French Revolution has been influenced by the changing political and social currents of the last 200 years – from the Russian Revolution to the fall of the Berlin Wall – and how historical study has shifted from a political focus to social and cultural approaches in more recent years.

When the Chinese Communist Party (CCP) seized power in October 1949 China was one of the poorest nations in the world. In fact, it was so weak it had been conquered by Japan, a country one-tenth its size, a decade earlier. Now, more than fifty years later, the People's Republic of China (PRC) is an emerging economic, political, and military superpower with the world's fastest growing economy and largest population (1.3 billion in 2005). A member of the United Nations Security Council since the early 1970s and a nuclear power, China wields enormous influence in the world community. The second edition of the Historical Dictionary of the People's Republic of China contains more than 400 cross-referenced dictionary entries on individual topics spanning China's political, economic, and social system along with short biographies on important figures from politicians to writers and movie directors who have shaped Chinese history during the period of Communist rule from 1949 to 2006. Supplementing the entries are a chronology, an introduction, charts outlining the structure of the Chinese government, and a bibliography of works in English, making this a superb resource for college and high school students needing a quick reference on contemporary China.

This second edition of the Historical Dictionary of the Chinese Civil War studies the longer, broader war and its chronology carefully tracks the major events. The introduction then provides a broad overview, describing the contending forces, and showing how the Communists come out on top. The details, and these are crucial, are laid out in over 200 cross-referenced dictionary entries dealing with the opposing forces and parties, the major campaigns and battles, the Long March, and of course the leadership on both sides. This book, one of few such in English, provides a very solid basis for study, but that can be accomplished more effectively by consulting the titles listed in an extensive bibliography.

Historical Dictionary of Chinese Culture contains a chronology, an introduction, and an extensive bibliography. The dictionary section has more than 300 cross-referenced entries covering arts and entertainment, customs and traditions from the ancient imperial and modern era.

Despite its fascinating history, Paraguay remains one of the least known countries in South America. This revised edition provides a comprehensive survey of the political and academic history of the country. This work is an invaluable tool for Latin Americanists. --HISPANIC AMERICAN HISTORICAL REVIEW

The Chinese Communist Party, as the political leader of the world's largest country and second largest economy, plays an undeniably important role in global politics. Founded in a boarding school in Shanghai in 1921, the Chinese Communist Party is one of the oldest ruling parties in the world since its takeover of mainland China in 1949 under the leadership of Chairman Mao Zedong. Since its inception, the party has survived a civil war with the Kuomintang (1946-1949); the political, cultural, and humanitarian catastrophe of the Great Leap Forward (1958-1960), where upwards of 30 million Chinese civilians died; and the death of the Chinese Communist Party's dominant leader, Mao Zedong, in 1976. In recent years, intellectuals and party members have been given increasing leeway to express their opinions, and Lawrence R. Sullivan takes advantage of this new research to provide a comprehensive history of one of the world's most fascinating political movements. The Historical Dictionary of the Chinese Communist Party contains a chronology, an introductory essay, an appendix, an extensive bibliography, and more than 400 cross-reference dictionary entries on key people, places, and institutions. This book is an excellent access point for students, researchers, and anyone wanting to know more about the Chinese Communist Party.

Nepal is a living example of contrasts and contradictions. It is a country that was born in medieval times, grew up in the 16th century, and now finds itself engulfed in the high-tech gadgets and material marvels of the 21st century. Nepal has its share of problem which include inadequate economic development and social infrastructure, poverty and corruption, plus worsening pollution, but now it finally has relative peace and quiet after a hasty Maoist uprising. Indeed, it has passed through several democratic elections, and finally seems to be getting on the right track. This second edition of Historical Dictionary of Nepal contains a chronology, an introduction, appendixes, and an extensive bibliography. The dictionary section has over 700 cross-referenced entries on important personalities, politics, economy, foreign relations, religion, and culture. This book is an excellent resource for students, researchers, and anyone wanting to know more about Nepal.

*The Historical Dictionary of Historical Dictionary of Postwar Japan relates the history of postwar Japan through a chronology, an introductory essay, a bibliography, and hundreds of cross-referenced dictionary entries on significant persons, events, places, organizations.*

*This second edition of Historical Dictionary of Hume's Philosophy contains a chronology, an introduction, and an extensive bibliography. The dictionary section has over 100 cross-referenced entries covering key terms, as well as brief discussions of Hume's major works and of some of his most important predecessors, contemporaries, and successors.*

*Calvinism is named after 16th century Reformer, John Calvin whose overall theology is contained in his Institutes of the Christian Religion (1559). Calvin's theology and ecclesiology provided the foundation upon which the Reformed Churches of Europe were built. It was a comprehensive and carefully expounded alternative to the doctrines of the Roman Catholic Church and was designed to expose their weaknesses and present a view of the Christian Faith that was a reformed version of the old faith. The Historical Dictionary of Calvinism relates the history of its founder John Calvin, the Reformed Church, and the impact that Calvinism has had in the modern world along with an account of modern and contemporary developments within the religious, political, and social culture it has created. This is done through a chronology, an introductory essay, an extensive bibliography, and over 300 cross-referenced dictionary entries on concepts, significant figures, places, activities, and periods. This book is an excellent access point for students, researchers, and anyone wanting to know more about Calvinism.*

*Between 1838 and 1888 the recently formed Zulu kingdom in southeastern Africa was directly challenged by the incursion of Boer pioneers aggressively seeking new lands on which to set up their independent republics, by English-speaking traders and hunters establishing their neighboring colony, and by imperial Britain intervening in Zulu affairs to safeguard Britain's position as the paramount power in southern Africa. As a result, the Zulu fought to resist Boer invasion in 1838 and British invasion in 1879. The internal strains these wars caused to the fabric of Zulu society resulted in civil wars in 1840, 1856, and 1882-1884, and Zululand itself was repeatedly partitioned between the Boers and British. In 1888, the old order in Zululand attempted a final, unsuccessful uprising against recently imposed British rule. This tangled web of invasions, civil wars, and rebellion is complex. The Historical Dictionary of the Zulu Wars unravels and elucidates Zulu history during the 50 years between the initial settler threat to the kingdom and its final dismemberment and absorption into the colonial order. A chronology, an introductory essay, a bibliography, maps, photos, and over 900 cross-referenced dictionary entries that cover the military, politics, society, economics, culture, and key players during the Zulu Wars make this an important reference for everyone from high school students to academics.*

*Historical Dictionary of the Druzes*

*Historical Dictionary of Hume's Philosophy*

*Historical Dictionary of India*

*Historical Dictionary of Early North America*

*This second edition of Historical Dictionary of the Korean War offers a clear and concise, but inclusive, account of the major events, operations, and individuals involved in the Korean War. It covers the war in terms of people, places, events, and analysis, as well as carefully collected statistical and factual information about units, commanders, and casualties, for both the United Nations and its Communist adversaries.*

*Provides an introduction to the history of skating, with over eight hundred cross-referenced entries on skaters, disciplines, technical elements, styles, and governing bodies.*

*This Dictionary covers the period from the emergence of the Egyptian state around 3000 BC to the Arab conquest in the mid-7th century AD. The book is divided into three main sections. An introductory section includes a chronology of Egypt, with all known military actions, and an essay highlighting the problems of the surviving evidence and its interpretation, and the major changes in military technology and organization over the period involved. The central section covers a wide range of issues including, pharaohs for whom military activities are documented; foreign rulers and countries against whom the Egyptians fought, or who invaded Egypt; weapons and military technology; major archaeological sites; gods and goddesses associated with warfare; arms trade; literature; and social advancement. The third section is a detailed bibliography of the historical phases and archaeological sites, and the broader subject areas covered by the dictionary. There is a series of maps of Egypt and the surrounding regions, and a kinglist with rulers and their dates, and the dynasties and kingdoms to which they are assigned by Egyptologists. This reference is aimed primarily at students and the interested reader. It presumes no detailed knowledge of ancient Egypt. The arrangement of the book as a dictionary means that it can be used on its own as a research tool, or in conjunction with other works, such as histories, or translations of Egyptian texts. The user can find concise definitions and descriptions, and brief accounts of military actions. Through the cross-referencing of each entry, and in conjunction with the bibliography, the user can*

*pursue the wider issues and find more detailed studies.*

*Historical Dictionary of the Syrian Uprising and Civil War contains a chronology, an introduction, and an extensive bibliography. The dictionary section has more than 200 cross-referenced entries on the major events, places, and actors in the Syrian uprising.*

*Historical Dictionary of Ancient Egyptian Warfare*

*Historical Dictionary of Marxism*

*Historical Dictionary of Nepal*

*Historical Dictionary of the Kennedy-Johnson Era*

The Historical Dictionary of the Chinese Economy contains a chronology, an introduction, and an extensive bibliography. The dictionary section has over 400 cross-referenced entries on critical sectors of the economy including automobiles, banking and finance, national currency, economic regulation, trade and investment.

This second edition of Historical Dictionary of the Druzes covers their history through a chronology, an introductory essay, appendixes, and an extensive bibliography. The dictionary section has over 1000 cross-referenced entries on important personalities, politics, economy, foreign relations, religion, and culture. This book is an excellent access point for students, researchers, and anyone wanting to know more about the Druzes.

This second edition of Historical Dictionary of the Kennedy-Johnson Era covers its history through a chronology, an introductory essay, appendixes, and an extensive bibliography. This book is an excellent access point for students, researchers, and anyone wanting to know more about John F. Kennedy.

This second edition of Historical Dictionary of Burma (Myanmar) contains a chronology, an introduction, and an extensive bibliography. The dictionary section has over 700 cross-referenced entries on important personalities, politics, economy, foreign relations, religion, and culture.

*Historical Dictionary of the Chinese Economy*

*Historical Dictionary of the Chinese Communist Party*

*Historical Dictionary of the Chinese Civil War*

The Historical Dictionary of the Philippines, Third Edition contains a chronology, an introductory essay, an extensive bibliography, and several hundred cross-referenced dictionary entries.

The Historical Dictionary of the Spanish Civil War covers the history of the war through a chronology, an introductory essay, appendixes, maps, and an extensive bibliography. The dictionary section has over 600 cross-referenced entries on persons, places, events, institutions, battles, and campaigns. This book is an excellent access point for students, researchers, and anyone wanting to know more about the Spanish Civil War.

The Historical Dictionary of Marxism includes a chronology, introductory essay, and extensive bibliography. The dictionary provides over 500 cross-

referenced entries on important personalities, political parties and movements, and major communist or ex-communist countries. This book is an excellent access point for students and researchers.

“Cold war” was a term coined in 1945 by left-leaning British writer George Orwell to predict how powers made unconquerable by having nuclear weapons would conduct future relations. It was popularized in 1947 by American journalist Walter Lippmann amid mounting tensions between the erstwhile World War II Allies - the capitalist democracies - the United States of America and Britain - versus the Soviet Union, a communist dictatorship. As the grand alliance of the “Big Three” they had defeated Nazi Germany, its satellites and Japan in World War II but became rivals who split the world into an American-led Western “bloc” and Soviet-led Eastern “bloc.” Both were secured from direct attack by arraying ever-greater nuclear and conventional forces against the other while seeking global supremacy by other means. The 45-year Cold War lasted until the Soviet Union collapsed between 1989 and 1991. This second edition of Historical Dictionary of the Cold War contains a chronology, an introduction, and an extensive bibliography. The dictionary section has over 400 cross-referenced entries on important personalities, crucial countries and peripheral conflicts, the increasingly lethal weapons systems, and the various political and military strategies. This book is an excellent resource for students, researchers, and anyone wanting to know more about this crucial period in history.

Historical Dictionary of Chinese Culture

Historical Dictionary of the Zulu Wars

Historical Dictionary of Calvinism

Historical Dictionary of the People's Republic of China

**This second edition of Historical Dictionary of 'The Dirty Wars' focuses on the period 1954-1990 in South America, when authoritarian regimes waged war on subversion, both real and imagined. This is done through a chronology, an introductory essay, a bibliography, and over 400 cross-referenced dictionary entries on the countries; guerrilla and political movements; prominent guerrilla, human-rights, military, and political figures; local, regional, and international human-rights organizations; and artistic figures (filmmakers, novelists, and playwrights) whose works attempt to represent or resist the period of repression.**

**The Historical Dictionary of Figure Skating relates the history of the sport through a chronology, an introductory essay, an extensive bibliography, and over 800 cross-referenced dictionary entries on hundreds of skaters, past and present, but also on skating countries, governing bodies, skating disciplines, technical elements, skating styles, and many other subjects. This book is an excellent access point for students, researchers, and anyone wanting to know more about the history of figure skating.**

**Those unfamiliar with the prehistory of North America have a general perception of the cultures of the continent that includes Native Americans living in tipis, wearing feathered**

**headdresses and buckskin clothing, and following migratory bison herds on the Great Plains. Although these practices were part of some Native American societies, they do not adequately represent the diversity of cultural practices by the overwhelming majority of Native American peoples. Media misrepresentations shaped by television and movies along with a focus on select regions and periods in the history of the United States have produced an extremely distorted view of the indigenous inhabitants of the continent and their cultures. The indigenous populations of North America created impressive societies, engaged in trade, and had varied economic, social, and religious cultures. Over the past century, archaeological and ethnological research throughout all regions of North America has revealed much about the indigenous peoples of the continent. This book examines the long and complex history of human occupation in North America, covering its distinct culture as well as areas of the Arctic, California, Eastern Woodlands, Great Basin, Great Plains, Northwest Coast, Plateau, Southwest, and Subarctic. Complete with maps, a chronology that spans the history from 11,000 B.C. to A.D. 1850, an introductory essay, more than 700 dictionary entries, and a comprehensive bibliography, this reference is a valuable tool for scholars and students. An appendix of museums that have North American collections and a listing of archaeological sites that allow tours by the public also make this an accessible guide to the interested lay reader and high school student.**

**Historical Dictionary of Burma (Myanmar)**
