analysts in various disciplines review the current situation in education and consider programs for reform. In this fourth annual issue of the series, prominent educators and other social scientists discuss standards in education. Contents include: "Incentives and Equity under Standards-Based Reform" Julian R. Betts and Robert M. Costrell "Why Business Backs Education Standards" Milton Goldberg and Susan Traiman "State Academic Standards" Chester Finn Jr. and Marci Kanstoroom "Searching for Indirect Evidence for the Effects of Statewide Reforms" David Grissmer and Ann Flanagan "The Controversy over the National Assessment Governing Board Standards" Mark Reckase "The Role of

During this interval progress in phonology and syntax was great, but further progress in these sub-disciplines will remain blocked until it is recognized that the prime functional unit of speech is the word, that the central problem of language theory is lexis. Word-meaning is typically complicated by changes across time; for a theory of language creativity, these effects must be discerned from spontaneous creation. The articles brought together in this volume attempt to illuminate, on the basis of particular lexical studies, the dynamics of perception and word-meaning, of language and mind.

"Although our collection is hardly a systematic sample, we can point readers to many types of information included in course outlines. We briefly considered preparation of a bibliography of assigned books and articles, but concluded that such a list would not substantially improve on existing bibliographical aids. We did, however, compile a list of films and videos used in these courses (see Appendix 1). We were fascinated to find so many of our colleagues extensively using film and videos in teaching, and yet we knew
