A powerful memoir from an NHL heavyweight champion who moved from the dressing room to the courtroom. NHL tough guys all tell the same story. They all grew up dreaming of skating in the big league as stars. Then one day, a coach tells them the only way to make it is to drop the gloves. And every guy says the same thing: I'll do whatever it takes to play in the NHL. Not Stu Grimson, though. When he was offered a contract to patrol the ice for the Calgary Flames, he said no thanks, and went to university instead. And that's the way Grimson has approached his career and his life: on his own terms. He stared down the toughest players on the planet for seventeen years, while working on his first university degree. He retired on his own terms, and went on to practice law, including a stint as in-house counsel for the NHLPA. This has put him in a unique position when it comes to commenting on the game. He's seen it from the trenches, and he's seen it from the courtroom. This puts him in the eye of the storm surrounding fighting and concussions. And he handles that the way he does everything: on his own terms. When Don Cherry called him out on television, it was the seemingly indomitable Cherry who backed down. Hockey fans will be fascinated by his data-driven defence of fighting. But in the end, this is not a book about fighting and locker-room stories. It's the story of a young man who ultimately took on the toughest role in pro sports and came out the other side. Where many others have not.

Provides a comprehensive listing, including biographical information and statistics, of each athlete inducted into one of the major sports halls of fame.

The descriptions and examples of unethical behaviors in sport in this book will challenge readers to rethink how they view sport and question whether participating in sport builds character—especially at the youth and amateur levels. • Describes and analyzes key ethical issues, such as cheating, fair play, violence, discriminatory actions, and the use of performance-enhancing drugs, in a single volume • Identifies how ethical problems in sport affect sport in the United States and internationally but also significantly impact society overall • Examines significant events and influential individuals to provide a historical and sociological context for understanding how and why individuals behave unethically in sport • Provides a wealth of information and resources that describe how poor behaviors of athletes, coaches, and parents in sport can be changed through educational interventions and a reemphasis on values like integrity

This is the only hockey book ever written from the perspective of a professional ice skate salesman. Dan Bryndle traveled and worked in the professional hockey dressing rooms fitting pro players in the NHL. The time period this book refers to is from 1972 through 1983 and covers some of the NHL ' s biggest names and greatest coaches of the time. The title of the book was formed from a conversation with a coach in the American Hockey League. The team was Adirondack Red Wings in Saratoga, New York, the farm club of the Detroit Red Wings at the time. A player on the NHL Buffalo Sabres that was known for his physical style, and enforcer role as a defense man, announced he would play the game in a mild manner. He no longer wanted to be fighting or known for his physical play. The source of this change in attitude was his new religious view on life. The Adirondack coach said to me upon news of the announcement, “ I ’ d like to be a Fly on the Wall in that dressing room. Scottie Bowman will never put up with that he continued. ” With that said I realized I was a fly on the wall in his dressing room, thus the title of this book. This book tells the personal story of a hockey life of skate sales and traveling to teams to fit the skates. It shows and talks about moments in time that changed teams fortunes, like the very first time Mike Bossy of the New York Islanders came to practice as a rookie. Or the insight of Mike Keenan as a young coach and how he motivated one of the games greats to help his team win. Written in 1994 ’ the book is also a tribute as well, to a family and their personal struggle with a tragedy. At it ’ s best this is a community book, about ice hockey, and how it affects lives, and championships.

absurd. Fischler details the time that: □ Bill Mosienko scored three goals in 21 seconds □ Rene Fernand Gauthier accepted a challenge to shoot the puck in the ocean □ Sam LoPresti faced 83 shots on goal in one game □ And 98 more unique stories! So lace up your skates and hit the ice with *Behind the Net*, a comprehensive collection sure to entertain any hockey fan, regardless of team allegiances. The Soccer Hall of Fame was established in 1950, followed by the Basketball Hall of Fame in 1959, and the Football Hall of Fame in 1963. In all, more than 1,400 inductees—players, teams, and behind the scenes personnel—have been enshrined in these five halls of fame. The Sports Hall of Fame Encyclopedia is a comprehensive listing of each inductee elected into one or more of these major sports halls of fame. From Hank Aaron to Fred Zollner, this book contains biographical information, sport and position(s) played, and career statistics (when applicable) of each of the more than 1,400 honorees. The book also includes specific appendixes for each shrine, in which inductees are listed alphabetically and by year of induction. Also included are appendixes briefly describing the history of each hall of fame.

Everything You Need to Know About Going to University and College

Played on frozen ponds in cold northern lands, hockey seemed an especially unlikely game to gain a global following. But from its beginnings in the nineteenth century, the sport has drawn from different cultures and crossed boundaries--between Canada and the United States, across the Atlantic, and among different regions of Europe. It has been a political flashpoint within countries and internationally. And it has given rise to far-reaching cultural changes and firmly held traditions. The Fastest Game in the World is a global history of a global sport, drawing upon research conducted around the world in a variety of languages. From Canadian prairies to Swiss mountain resorts, Soviet housing blocks to American suburbs, Bruce Berglund takes readers on an international tour, seamlessly weaving in hockey's local, national, and international trends. Written in a lively style with wide-ranging breadth and attention to telling detail, The Fastest Game in the World will thrill both the lifelong fan and anyone who is curious about how games intertwine with politics, economics, and culture.

A world-famous and wealthy Australian film director, Roderick Lily, lingers on through the unfashionable off-season in beautiful Amalfi near Capri. He has become melancholic. He has left a disquieting mystery behind him in the Gold Coast Studios because he has left his greatest and his final film incomplete. Lily, uncharacteristically, sells an exclusive interview to an illustrated gossip magazine in London for a huge fee.

What are his motives? There are scandalous rumours about the bizarre death of his wife on a fashionable Sydney beach decades ago. He now promises that he will reveal the truth about this scandal. But frustratingly for the young London journo, he first leads her on a tantalizing guessing game through the plots of his major films. He procrastinates, he philosophises. He insists on taking her around historic Herculaneum. In the meantime, the corrupt financiers of Lily's final film may have hired a hit-man. They will do anything to stop the film being completed and released. A near fatal boating accident for Lily and the journo off Sorrento is the trigger for a dramatic crescendo. There is a sudden flashback to the Sydney beach thirty years ago and a horrific scene is re-enacted. This is a whodunit with an existential twist in the tail. In the end Callinan creates a drama of illicit love and crippling remorse. Beneath the glittering surface of fame and triumph lurk a fatal error and an unforgiveable sin. There is a justice that is beyond the law and it comes from within.
