USA Today & Wall Street Journal Bestselling Author, Jewel E. Ann returns with an addictive new adult romance about a young woman who discovers years of Sunday sermons didn't prepare her for the many lessons of the crude and sexy man who is now her boss. It's official. I'm eighteen and a young woman with endless possibilities on my way to reunite with my mom in Colorado after five years apart-she had a little weed incident in Nebraska. At the airport, she springs the news on me ... she's leaving for a month of job training. And me? I'm left on my own in the basement she's renting from the fisherman, aka her landlord who lives upstairs. He's ten years older than me. Never wears a shirt. And makes it hard to remember all the things I learned at Christian Academy. Did I mention he's also my new boss? The instant New York Times bestseller A step-by-step plan clinically proven to break the cycle of worry and fear that drives anxiety and addictive habits We are living through one of the most anxious periods any of us can remember. Whether facing issues as public as a pandemic or as personal as having kids at home and fighting the urge to reach for the wine bottle every night, we are feeling overwhelmed and out of control. But in this timely book, Judson Brewer explains how to uproot anxiety at its source using brain-based techniques and small hacks accessible to anyone. We think of anxiety as everything from mild unease to full-blown panic. But it's also what drives the addictive behaviors and bad habits we use to cope (e.g. stress eating, procrastination, doom scrolling and social media). Plus, anxiety lives in a part of the brain that resists rational thought. So we get stuck in anxiety habit loops that we can't think our way out of or use willpower to overcome. Dr. Brewer teaches us to map our brains to discover our triggers, defuse them with the simple but powerful practice of curiosity, and to train our brains using mindfulness and other practices that his lab has proven can work. Distilling more than 20 years of research and hands-on work with thousands of patients, including Olympic athletes and coaches, and leaders in government and business, Dr. Brewer has created a clear, solution-oriented program that anyone can use to feel better - no matter how anxious they feel.

A Novel About the History of Philosophy

"My name is Scarlet Stone, and my biggest fear is that someday I will find what I want most in life, and it will be impossible to steal." What happens when life just stops? When one moment makes you question your entire existence? Scarlet Stone is a third-generation thief who has everything: a doting fiance, a spacious London flat, and a legitimate job offer. In a single breath, everything becomes nothing, and she finds herself on a plane to Savannah, Georgia in search of the meaning of life. After securing a six-month lease for a beachfront house on Tybee Island, Scarlet changes the way she looks, thinks, eats--basically her entire outlook on life. She needs peace, but what she gets is a housemate who looks like Thor, acts like a warden, and smells her proximity like a Bloodhound. Theodore Reed is a carpenter and perfectionist with a body built of steel, a black, hollow heart, and a hunger for revenge. He doesn't like company, girly-smelling crap, and British accents. He resents every breath she takes. She's fascinated by his every move. In time, they discover their coexistence is toxic, their physical attraction is electric, the secrets they keep mean the difference between life and death, and the only truth they share is that everything is a lie. "Over eighty-five percent of the world's population believes in a higher power, yet, very few people believe in miracles." Do you believe?"
