leading and trailing edge flap motions on the aerodynamics of parallel airfoil-vortex interactions and on the aerodynamics and acoustics of the more general self-generated rotor blade vortex interactions (BVI). For subcritical interactions, the 2-D results indicate that the trailing edge flap can be used to alleviate the impulsive loads experienced by the airfoil. For supercritical interactions, the results show the necessity of using a leading edge flap, rather than a trailing edge flap, to alleviate the interaction. Results for various time dependent flap motions and their effect on the predicted temporal sectional loads, differential pressures, and the free vortex trajectories are presented. For the OLS model rotor, contours of a BVI noise metric were used to quantify the effects of the

Average reductions in the BVI noise levels on the order of 5 dB with moderate power penalties on the order of 18 pct. for a four bladed rotor and 58 pct. for a two bladed rotor were obtained. How to maintain, modify and set-up every component and correct common flaws.

Feel is the story of how a small-time boy from humble beginnings in Louisiana rose to the pantheon of greats, to win the 500cc and 250cc GP Championship in the same year – an historic achievement over three decades ago which has never been repeated. Growing up at the time of the assassination of Malcolm X and Martin

Luther King, Freddie judged by feel, not by colour. Blind to prejudice and discrimination, he formed dynamic connections with people and events, but only years later during his racing afterlife could Freddie come to understand the true power of the things he learned. Spencer is an articulate and compassionate guide as he describes the thrill and horror of racing in an era when death was a perennial threat. He recalls in pin-sharp detail the frenetic high-octane racing duels with the 'King' Kenny Roberts, but also describes a parallel internal journey as he struggled to make sense of it all. Driven by a search for the personal fulfilment that comes through finding your purpose, Freddie's story is a universal one. In its message of hope,

Feel transcends its genre to offer a story for everyone. Part thriller, part philosophical self-exploration, it is a remarkably insightful account of what it is like to have it all, but wonder why. “For the first time I will talk about the traumas of my childhood, the contrast between the leaf fire burns, the mistrust and discomfort and the peace and purpose I felt when riding my bike. I didn’t tell my parents about something that happened to me. Why? I felt ashamed, but when I rode I felt connected to everything and the pain in my hand and heart would go away. It gave me the feeling of hope”.
