*The Houghton Mifflin Guide to Reading Textbooks highlights key skills and strategies required to successfully read college-level materials. Part One describes key elements that often appear in textbooks, such as definitions, visual aids, and charts. Part Two examines how to deal with distractions, manage time, take notes, and read critically. In Part Three, students apply what they have learned to 5 short selections from various college disciplines. Part Four features three full-length textbook chapters from actual business, physical sciences and history texts. Pre-reading exercises allow students to preview each chapter, and Check Your Understanding exercises ensure students remain on track. An answer key at the end of the text allows students to work independently.*

*Kinds of Enviroments, Independent Book Chapter Support Level 1 Chapter 4*

*Abe Lincoln Grows Up*

*Science Challenge Book Chapter 7, 6pk, Level 1*

*The Dial*

*Science Challenge Book Chapter 2, 6pk, Level 1*

This guide has five full textbook chapters and an accompanying study guide section from a variety of disciplines. Following each textbook chapter are two sections of instruction and exercises for the students. The first section, "Textbook Features," explains methods for improving reading skills.
