Irresistible fun for the littlest readers, who will love getting to boop each snoot! How many of these snoots could a baby boop? Adorable art paired with fun-to-read text shows tots all of the ways they can boop a snoot—as in: poke cute animal noses! They can boop one snoot or two snoots, slow snoots and fast snoots. This interactive board book begs to be poked and prodded as toddlers learn to boop the snoot! From the author-illustrator of the Shelby & Watts chapter book series, Ashlyn Anstee, comes the cutest new board book that will have kids and their guardians bowled over with giggles. Red is an important color to animals. The mandrill ape with the most red on his face will be the leader of the group. The healthier a rooster is the brighter its comb is. Red Animals will help readers understand that colors in nature are not just for beauty, but sometimes have more important purposes. Included in this title is a color wheel showing primary and secondary colors and their relationships. Aligned to Common Core Standards and correlated to state standards.

Jelly Bean the giraffe loves her forest and her friends—even if she's too tall to play on the forest floor. She also loves napping with her head in the trees. But when Mama Bird decides Jelly Bean is the perfect place for her nest, the giraffe suddenly has a big responsibility as she waits for the baby birds to hatch. Can Jelly Bean be patient and still enough, day and night? Yes, with a little help from her friends. Working with collage

In the wide, shining world there is so much to see, and Twiga is curious. But Twiga's tall, tall Mama wants her baby to stay close, stay safe from the dangers that lurk near each irresistible sweet smell and sparkling sight that Twiga finds. With lyrical text and enchanting illustrations, this story of a mother's love will soothe and delight readers of all ages.

"In this book, young readers will learn about color using animal as guides."--

The perfect book to read before bedtime--a new Little Golden Book about the different ways animals keep themselves clean. Tigers love to soak in a cold lake or stream. Macaques relax in hot water steam! Beavers comb their fur to remove what's cruddy. Rhinos roll around in a bath that's muddy! This delightful rhyming Little Golden Book shares fun facts about how bunnies, zebras, cats, elephants, and many other animals keep themselves clean. Young boys

and girls will love comparing their bathtime to those of the adorable animals in this new book from New York Times bestselling author Diane Muldrow (Everything I Need to Know I Learned From a Little Golden Book series) and beloved illustrator David Walker (How Do Penguins Play?, Bears on Chairs).

Playtime with Sophie is a delightful book about best-selling teether, Sophie the Giraffe. Inside is a charming little story about playtime at Sophie's house, featuring Sophie and her five special friends. Sophie plays with each friend in turn, bouncing a ball, riding in a train, sailing a boat, stacking bricks, and tapping a xylophone. Finally, Sophie blows bubbles, and everyone plays together. This DK Sophie la Girafe book is perfect for reading to a baby or a toddler. Simple text and repetition of the letter 'n' help readers learn how to use this sound. Additional features to aid comprehension include a word list for review, a note to parents and educators, and an introduction to the author.

This question has fascinated philosophers, mathematicians, and scientists for thousands of years. Why does time seem to speed up with age? What is its connection with memory, anticipation, and sleep cycles? Award-winning author and mathematician Joseph Mazur provides an engaging exploration of how the understanding of time has evolved throughout human history and offers a compelling new vision, submitting that time lives within us. Our cells, he notes, have a temporal awareness, guided by environmental cues in sync with patterns of social interaction. Readers learn that, as a consequence of time's personal nature, a forty-***

***How Do Giraffes Take Naps?***

A magical tale of finding friendship where you least expect it. Bertie the giraffe's life runs over very straight lines. He always has the same breakfast.

He always takes the same stroll. He always naps under the same tree. But - wait a minute - who's this under the tree today? A blue giraffe? Blue?!

Kristyna studied Illustration at Edinburgh College of Art and graduated in 2010. She now lives in a beautiful village in Yorkshire where she is heavily reliant on the good old pencil and a great big cup of tea to keep her going, whilst habitually singing, or twiddling her hair. Her first picture book, *Flint's Odd Socks*, followed by *Chickens Can't See In The Dark* were highly commended for the Macmillan Prize two year's running.

"Why, Mama, Why," asks Little Giraffe as she tries to make sense of the new world around her. Little Giraffe is new to the world and she has all kinds of questions for Mother Giraffe. Sometimes the answers are easy and sometimes they're hard. It doesn't take long for Little Giraffe to realize that life is full of lessons and Mother Giraffe is a loving guide.

Abigail loves to count. It is her very favourite thing. But when she tries counting Zebra 's stripes and Cheetah 's spots, they just won 't sit still. It's hopeless! What will Abigail do? Quietly, without most people noticing, the population of giraffes in the wild has decreased by nearly 40 percent since 1985. Giraffes have disappeared entirely from seven countries where they used to live. Researchers believe fewer than 98,000 exist in the wild--fewer even than endangered African elephants. In 2016, the International Union for the Conservation of Nature added giraffes to the organization's Red List of Threatened Species. What is causing their disappearance? Overpopulation of humans in giraffe habitats and illegal poaching. Learn about giraffes' physical characteristics, habitats, and life cycles; examine the dangers they face from humans and climate change; and meet the scientists working to save these gentle giants using technology and conservation efforts.
