An indispensable guide to more peaceful and enjoyable parenting 'This isn't a parenting advice book, it's a book about you. The words you read in this book, however, will have a far greater impact on your children, than those contained in any parenting book you could read (and I count my own in that too).' How many times have you asked yourself 'what's wrong with me? Why can't I stay calm?'. So many of us would love to follow a gentler, more positive style of parenting, but we don't think we're cut out for it, because

we aren't naturally calm. We feel that there is something wrong with us, that we're not good enough. We believe we are failing our children by not controlling our own emotions adequately. What we don't realise is that this describes almost every parent there ever was - and ever will be. In her trademark gentle, supportive and reassuring style, bestselling author Sarah Ockwell-Smith shows that while we all lose it at times, everyone can become a calmer parent. Based on her many years' experience working with parents, Sarah provides research, advice and practical exercises that will set you on the path to calmer parenting that will benefit both you and your child. Covering everything from the impact of your own upbringing on your parenting style to work and home life balance and letting go of the quest for perfection to ensuring your own basic needs are met, *How to Be a Calm Parent* is for any parent who knows that they need to be calmer to raise well adjusted, happy children, but struggles with their own emotions and stress levels.

preparation for the 'ungentlemanly warfare' waged by the Special Operations Executive (SOE) against Hitler's Germany and Tojo's Japan. Reproduced here is the most comprehensive training syllabus used at SOE's Special Training Schools (STSs) showing how agents learnt to wreak maximum destruction in occupied Europe and beyond. The training took place in country houses and other secluded locations ranging from the Highlands of Scotland to Singapore and Canada. An array of unconventional skills are covered - from burglary, close combat and silent killing through to propaganda, surveillance and disguise - giving insight into the workings of one of World War II's most intriguing organizations. Denis Rigden's introduction sets the documents in its historical context and includes stories of how these lessons were put into practice on actual wartime missions.

To some, they are the graduates grasping the first rung on the ladder to power, to others, the unsung heroes of the British parliamentary system. But whether your notion of parliamentary researchers is more *The Thick of It* than *The West Wing*, more *Yes Minister* than *House of Cards*, there is no doubt that these individuals play an essential role in keeping the giant (and, let's be honest, slightly creaky) machine that drives British politics from juddering to a halt. Branded bag-carriers while actually performing vital duties like drafting speeches and Parliamentary Questions, handling the media and engaging with constituents online, parliamentary researchers do the dirty work behind the scenes, allowing their bosses to focus on their main job - performing. With the help of case studies and guest writers,

Robert Dale, himself a former parliamentary researcher, tells the fascinating story of how the MP's office has developed over recent decades, and combines practical advice with acute personal observations on how to get ahead as a researcher. Spin doctors are seldom out of the news for long. But who really understands what 'spin' is, or what spin doctors do? The media has moved on from a world where press officers carried piles of newspapers to the office each morning, when Twitter was what birds did and mobile phones were the size of bread loaves. Thank goodness Paul Richards is here to explain spin doctoring in a digital world. Essential reading for anyone who wants a career in communications or is intrigued by what keeps the cogs turning behind Parliament, *How to Be a Spin Doctor* covers all the essential skills, such as: Snagging positive media coverage Creating eye-catching news releases and photo opportunities Avoiding the endless traps set by journalists Paul Richards challenges the increasingly negative connotations of spin, arguing that it is neither a dishonourable practice nor a new one; it's simply the most practical way to convey information or make a point. The truth of the matter is that the spin doctor's trade secrets can be useful to anyone trying to promote a company, client or cause: to protect reputations, get messages across and win public support. So it's time to start reading and get spinning. 'This is mindful activism . . . thought-out, strategic and engaging' Guardian 'I love what Sarah does! It's quiet activism for everyone including introverts' Jon Ronson 'Sarah Corbett mixes an A-grade mind with astonishing creativity and emotional awareness' Lucy Siegle If we want a world that is beautiful, kind and fair, shouldn't our activism be beautiful, kind and fair? Award-winning campaigner and founder of the global Craftivist Collective Sarah Corbett shows how to respond to injustice not with apathy or aggression, but with gentle, effective protest. Sarah's craftivism has helped change laws and business policies as well as hearts and minds; here, with thoughtful principles and practical examples, she shows that quiet action can speak as powerfully as the loudest voice.

With his first book, *Better Birders*, Michael Ketover emerges as an exciting voice in travel writing. Ketover, an expert in poverty reduction and social justice, chronicles inspiring, outrageous, and mundane assignments in international development work and his reflections on the resilience of the poorest of the poor. These interactions reveal his flaws and slowly remake him into someone better than he used to be. With the theme of watching birds woven into each story, Ketover focuses on each locale's birds and the joy he hears in their songs amidst scenes of disrespect, lunacy, and violence.
