A house is the biggest purchase most people will ever make, but most people don't know the best way to buy a home. The book covers everything you need to know about the home buying and selling process so that you are not taken advantage of. including:- Deciding on how much money to spend on a

house(don't let your lender or agent decide for you!)- Deciding whether you should buy or rent- How to get a great deal on a house that will build instant equity- How to get the best loan with less money down (if that is your goal) and the lower overall cost- How to find the best real estate agent and lender and why you need them- How the process works including inspections, appraisals, title insurance, mortgages, closings, escrows, HOAs, etc...- How to fix up your house

and maintain it- How to find contractors to help you fix up your house- How to sell your house for the most money- When and if you should refinance your house- A glossary full of definitions for real estate terms- Plus bonus chapters on starting a career in real estateThere has been a lot of talk about real estate being a bad investment. Many financial and economic advisers suggest buying a home may be worse for your finances than renting. However, I think most people do not take

the home buying or selling process seriously. They put all their faith in other people to get the right deal done for them. If you blindly buy a house based on what your real estate agent or lender tell you, it may not be a good investment! However, if you are able to find great deals, get a good loan, and take care of your home, real estate can be an incredible tool to build wealth. I am a real estate agent, and real estate investor who has done very well buying hundreds

of houses. I try to teach what I know to others to help them make smarter and better decisions. If you know the right way to buy a home, it beats renting every time. There is a lot of information in this book, and depending on your real estate experience you may know some of it, or be familiar with a lot of it. I have created four sections with many chapters to make it easy to navigate. The first part of the book focuses on the bare basics of buying and selling houses, while the later

"Barter, Exchange and Trade Credits." I discovered something when living overseas that I feel is extremely important to the exchange business: That while transferring title between real estate properties

internationally could be more difficult than in the states, barter for goods and services crosses borders very easily. This opened my eyes and I also found that almost all the formulas and strategies we use in real estate work in barter. Every commodity delivers another complete genre of things that can be bartered, traded or swapped. The world becomes an unending source of assets to work with when Barter comes into play. This book will open your eyes.

Buyers have changed the way they buy. But sellers have been slow to change the way they sell. This disconnect is proving to be frustrating for both sellers and buyers. Sellers aren't getting the sales they need, and buyers aren't getting the information they need to make a buying decision. In this one-of-a-kind revenue-growth how-to book, Revenue Coach Kristin Zhivago lays out the method that she has used to help hundreds of business owners and

Armed with these methods, managers can map out their customers' buying process and take the right steps to support every stage of that buying process. They can position their products and services in a way that will make them more attractive and valuable to prospective customers. They can focus their efforts on marketing and selling methods that will work (and stop wasting money on those that won't); produce content that satisfies buyer concerns; and use social media channels in a way that appeals to customers - and leads to more sales.
