"[You're Accepted] is wonderfully written, in a style that will appeal to everyone involved in the admissions process--student, parent, guidance counselor." --Elizabeth Lesser, cofounder of the Omega Institute and New York Times bestselling author of Broken Open: How Difficult Times Can Help Us Grow and Heal  
Students may worry about SATs and grades, but university admissions coach Katie Malachuk says that it takes much more than numbers to chart the right path to college. To help applicants (and their families) make enlightened decisions, she transforms the application process into one of self-discovery, rather than self-delusion. Katie's approach strips away the destructive, competitive mindset and replaces it with revelations about how to uncover your innate talents and true self. With humor and insight, You're Accepted makes a convincing case that presenting the real, authentic you (not some smooth, packaged version) actually increases your chances of getting into college. A former admissions director shares insider tips on everything from writing essays to seeing things from the admissions committee's point of view. You're Accepted brings higher fulfillment to higher education by helping you get into the college that's right for you--the one that will help you become the person you're meant to be.

Groomed for a place at a Big Name School since their obsessed, status-conscious helicopter parents passed out cigars at the Stockstill General Hospital Neonatal Unit, the privileged students of Pembrocton College Preparatory are ratcheting up the stakes in the race to get into the nation's most prestigious colleges. The PCP juniors are gloating, jubilant at the rumor that the valedictorian presumptive has received a B on her report card, a grade that will relegate her to in-state her heir apparent, a three-generation Yale legacy, is the sole mourner at the demise of her future because her thoughtless academic lapse is going to derail his plans to attend MIT. Across town, in the graffiti-covered halls of Stockstill High School, the students slink to class, praying that they avoid a knife wound—and dream of ivy-covered walls. And with the help of a take-no-prisoners principal and an enterprising parent, the students at SHS dare to encroach shamelessly on territory normally reserved for their wealthy private school rivals. Join the fray as a memorable cast of characters engages in the latest rage in extracurricular activities: college admissions as a blood sport. Laugh out loud funny, The Applicants lampoons the heights we scale—and the depths to which we sink—to get into the “right” college. ?

***Do Less, Live More, Get Accepted What if getting into your reach schools didn't require four years of excessive A.P. classes, overwhelming activity schedules, and constant stress? In How to Be a High School Superstar, Cal Newport explores the world of relaxed superstars—students who scored spots at the nation's top colleges by leading uncluttered, low stress, and authentic lives. Drawing from extensive interviews and cutting-edge science, Newport explains the surprising truths behind these superstars' mixture of happiness and admissions success, including: • Why doing less is the foundation for becoming more impressive. • Why demonstrating passion is meaningless, but being interesting is crucial. • Why accomplishments that are hard to explain are better than accomplishments that are hard to do. These insights are accompanied by step-by-step instructions to help any student adopt the relaxed superstar lifestyle—proving that getting into college doesn't have to be a chore to survive, but instead can be the reward for living a genuinely interesting life.***

***It is commonly known that the application process to medical school is competitive. From our experience, about 1% of students who express an interest in becoming a physician during their first year of undergraduate studies, eventually matriculate into medical school. While pursuing a career in medicine remains a dream for many and is considered the endpoint of a journey, many different paths can lead towards that destination. Given the significant time commitment required for a successful application, the decision to pursue medicine***

***is one of the biggest decisions many high school and undergraduate students face. However, many applicants do not look beyond gaining the coveted admission letter and are then left with an incomplete understanding of what medical school entails, and the diverse career paths they can take after obtaining their MD. One of the primary reasons for this is that despite significant progress made in recent years, medicine remains a "closed door" career. A large proportion of students in our medical class had at least one immediate relative within the profession, which is also reflected in the literature. The barriers created by such exclusivity make it difficult for those who have not been socialized into the profession from a young age to navigate the unspoken pitfalls of the admissions process. This book attempts to break down some of those barriers. It focuses on every component of the medical school application process. It differs from the many other books written on this subject by taking an experiential approach. We believe that the best way to learn about medical school acceptance is to garner advice from those who have recently achieved that milestone, as well, as from individuals in related professions who can provide valuable insights. This guide is divided into ten chapters, each of them covering an important step along a premed's journey. While this book has a focus on North America, we have written this guide with a global audience in mind, as many of the concepts discussed are relevant to any medical school application process. As such, although the key components of the application process to medical school remain the same across various training systems, not every chapter will be equally relevant to every reader. Typically, an application is composed of academic performance, volunteer activities, research projects, medical college admission test performance, and extracurricular activities. We have combined the prescriptive style of most books of this type with detailed stories of how real people navigated their personal journeys to reach successful outcomes. This guide shares a broad range of perspectives on what it takes and means to be a physician. We are more convinced than ever that amongst applicants who have the academic credentials, those who seek mentors and network early within the profession, be it through family or friend circles, and those who learn from their mistakes are accepted earlier. This book will help you in that journey towards medical school acceptance and an exciting career in medicine!***

An insider's college admissions guide that teaches students to identify and harness their unique passions, stand out from the crowd, and achieve their dreams. Dr. Aviva Legatt has spent her career in higher education as a professor, counselor, and admissions officer in the Ivy League, and she wants to let students in on a secret: admissions offices are sick of seeing the same cookie-cutter applications. What were once considered best practices for "doing high school right" are now so commonplace that they have become a liability. Get Real and Get In teaches readers to think outside of the box and focus on what admissions officers are really looking for—young people who dare to be their most authentic selves. Through engaging, accessible, and empathetic prose, this book forms an inspirational roadmap for readers to uncover their true passions and leverage them to create applications that truly stand out from the crowd. It also features a variety of useful exercises and candid stories from many influential figures, which teach students to look beyond just getting into a "good" college and focus more actively on identifying and attaining their long term goals. Get Real and Get In is designed to ignite an essential mindset shift in students: stop trying to just "get in" and start figuring out exactly what you want from life and how to get it. Stop managing the impressions you make on admissions officers and start defying impressions. This is an essential guide to cutting through the noise of the admissions process and gaining the

confidence to forge one's own path to success—in college and beyond. Draws on extensive admissions experience to demystify and illuminate the entire law school application process, covering every step in the process and offering helpful suggestions on how to deal with interviews, updating credentials to match a school's ideal profile, financial aspects, and more. Original. 25,000 first printing. Everything a graduate school candidate needs to know for success! In 2009 more than one million people applied to graduate school, allowing schools to be more selective and creating fierce competition for valuable slots in the class roster. Get Into Graduate School leads the applicant through the entire admissions process, providing them with everything they need to know on how to get accepted. Unlike other graduate school guides that are simply a listing of graduate schools and programs, Get Into Graduate School is a comprehensive guide focusing on graduate school admissions strategies. This guide provides applicants with targeted strategies and expert advice from admissions professionals, including step-by-step guidance on how to find the right program, prepare a standout application, excel during the interview, and finance a graduate degree. Also included is helpful advice on planning for graduate school during college, such as which courses to take and which extracurricular activities to get involved in. Get Into Graduate School provides personalized information for all applicants including minorities, students with disabilities, older students, and international applicants. Whether you're premed, pregrad, preprofessional, undecided, or headed for the job market after graduation, undergrad research can help you define your career path and prepare for it. But research opportunities are highly competitive so where do you start and how do you find the perfect position? Getting In brings together the essential information you need with a no-nonsense approach that will save you time and frustration. Co-written by academic insiders, Getting In is like having two mentors coach you through your search and keep you organized as you decide on which research positions to pursue, contact potential mentors, nail interviews, and ultimately choose a research experience. Getting In gives you the guidance you need including: \* Creative search strategies \* Mistakes to avoid during the search, application, and interview \* How to approach a professor after lecture or during office hours \* Email templates that get you noticed \* Time-management strategies to maintain your academic/life balance \* Tips to determine if you should accept or decline a research position \* How to use your research experience to build habits for success in the lab, in college, and in life Additional tips, tricks, and strategies for getting the most out your STEM undergrad research experience can be found at [UndergradInTheLab.com](http://UndergradInTheLab.com) at [facebook.com/undergradinthelab](https://facebook.com/undergradinthelab) and on Twitter at [@youinthelab](https://twitter.com/youinthelab). An introduction to the field of applied ontology with examples derived particularly from biomedicine, covering theoretical components, design practices, and practical applications. In the era of "big data," science is increasingly information driven, and the potential for computers to store, manage, and integrate massive amounts of data has given rise to such new disciplinary fields as biomedical informatics. Applied ontology offers a strategy for the organization of scientific information in computer-tractable form, drawing on concepts not only from computer and information science but also from linguistics, logic, and philosophy. This book provides an introduction to the field of applied ontology that is of particular relevance to biomedicine, covering theoretical components of ontologies, best practices for ontology design, and examples of biomedical ontologies in use. After defining an ontology as a representation of the types of entities in a given domain, the book distinguishes between different kinds of ontologies and taxonomies, and shows how applied ontology draws on more traditional ideas from metaphysics. It presents the core features of the Basic Formal Ontology (BFO), now used by over one hundred ontology projects around the world, and offers examples of domain ontologies that utilize BFO. The book also describes Web Ontology Language (OWL), a common framework for Semantic Web technologies. Throughout, the book provides concrete recommendations for the design and construction of domain ontologies.

Cruise your way to the Ivy League! It's no secret that it's harder to get into college these days. Ivy League and other selective schools have record numbers of applicants, making the competition even steeper. This must-have guide carefully explores the to-do's to gain admission to a top tier school. Students and parents will learn about choosing the right school, what college admissions officers really consider when making their decisions, early decision versus early action, and what being on the waitlist means. \*Provides sample essays, recommendation forms, resources and websites \*Includes advice from guidance counselors and admission officers of top Colleges \*Between now and 2015, there will be more than 3 million high school graduates each year

Although there are graduate schools all across the country, only a select group of people are admitted to these programs each year. Many people become overwhelmed by the process of choosing and applying to grad school, as well as the possibility of rejection. However, with this new book, you can significantly increase your chances of being accepted to the grad school of your choice. This new, carefully researched book contains valuable information for those who are still in college and intend to apply for grad school and those who are returning to school after a hiatus. Whether you are applying to grad school to prepare for a profession, get a specific job, potentially earn more, or simply for personal achievement, this book will explain exactly what you need to know in simple, easy to understand terms. You will learn how to choose a school, how to determine a program of interest, how to resolve unforeseen problems, such as a lost transcript or delinquent recommendations, how to conduct research online, how to request transcripts, how to ace the personal interview, how to deal with rejection, and how to accept or reject an offer. In addition, you will create an application timeline, take practice Graduate Record Exams (GRE) and Graduate Management Admission Tests (GMAT) to determine how much preparation time you need, draft highly effective letters of intent and reference, write an engaging statement of purpose, apply for financial aid, choose samples of your work to submit with your application, and conduct informative on-site visits. Whether you are applying to law school or medical school or you are pursuing your doctorate in a liberal arts field, this book will provide you with all the information you need to ensure that you achieve your academic goals. The five United States military service academies are some of the most elite schools in the nation, taking the finest high school students and turning them into commissioned officers of the Army, Navy, Air Force, Coast Guard, and Merchant Marine. Over 60,000 students a year begin the arduous process of applying, and about 4,000 get in. At West Point alone, over 15,000 candidates start the applications process. Less than a third of them finish it. Some figure out that they aren't going to be competitive, some get derailed with specific problems, and some get lost and drop out even though they might have gotten in. From applications to Congressional nominations, from athletics to medical qualifications, the process is unlike any other for getting into college. This book leads students and their families through the process step by step, offering the tools needed for the very best chance of success. Covering special issues and concerns like LGBTQ, women and minorities, criminal records, and more, the author also discusses whether attending a service academy is RIGHT for the prospective student, and what he or she can expect upon acceptance, admission, and attendance. Using his personal experience in helping his son through the applications process, Michael Singer Dobson provides all candidates with the ins and outs of the competition for a spot at one of these prestigious schools.

Learn the Little Known Secrets AA Schools Won't Tell You

Hi, my name is Trevor Thomas. I have an extensive amount of experience in the medical industry, including medical school interviews. After seeing the boom in the AA profession, but no help for students, I decided to come out with a book that provides students all the information they need to have the best chance of getting into Anesthesiologist Assistant school! Here's What You'll Learn in This Book... Part 1: Introduction - First we go over the history of the AA profession, what states currently allow AAs to practice, and the schools currently accepting applicants. We also go over the income and job prospects for new AAs, as well as a website called AAschools dot org, which contains detailed admissions information for all AA schools. Part 2: Schooling and Grades - Next we go over the classes and grades AA schools are looking for in their students. This includes the best major to choose, the minimum GPA you need to have a chance of getting an interview, and the required and preferred classes AA schools are looking for. You'll find out the ideal institution to take your classes to obtain the highest grades, as well as how to give yourself the best chance of getting into AA school even if you don't have a great GPA. Part 3: The GRE & MCAT - After that, we go over both the GRE and MCAT, detailing the best exam to choose when given the choice by AA schools. The CASper exam is also covered in this section. Part 4: Work, Volunteer, & Shadowing Hours - Then we go over how to gain work, volunteer, and shadowing hours to obtain a more well rounded application. This includes how to find anesthesia providers who will allow you to shadow, as well as the types of jobs and volunteer experience AA schools are looking for. Part 5: The Application Process - This section goes into great detail on the application process, showing you what and how to put into each section of the CASAA application with detailed text and pictures. It also goes over where to get reference letters, how to craft your personal statement, and an excellent free website you can use to add a polished resume to your application. Part 6: The Interview - When the time comes you need to know how to handle the interview. Unlike what AA schools tell students, there are right and wrong ways to answer the interview questions. This section goes over what students can expect during the interview process, the most common questions you will be asked during your AA interview, and how to improve your interviews skills to give you the best chance of getting an acceptance letter. As a complimentary bonus, you'll receive the complete AA school checklist. CASAA and test companies provide no refunds to students, and your CASAA application is not editable after it has been processed. For this reason, you need to make sure your application is complete before hitting that submit button. This checklist form does just that, outlining everything you need to include in CASAA when applying to AA schools. This checklist is not available to the general public, and only available to buyers of this book. If you want give yourself the best chance of getting in AA school, you can't risk not knowing this information!
