Conclusion Author Bio Introduction EBay is a good

source of income for people like you, who are looking for

ways to fund other businesses or just add some income

to your family. One thing that makes EBay different is

that it is flexible in its nature. It also gives great potential

for those serious sellers who want to have a larger

amount of monthly online income. But, as a beginner,

EBay is a very practical business venture that you can

start with. One good reason for this is that you can earn

money even from used items and things that you may

think of as garbage in your house. Garbage in the sense

that you can find some old items or things that you don't

use anymore and you will be surprised that one day

somebody will bid on that weird and old stuff in your

house. Yeah, that is very possible. So, you can't really

tell which item will really give you some bucks. EBay is

worth trying and many people fall in love with the

process of turning things into cash. Moreover, there are

many surprises that EBay can offer in your entrepreneurial journey. What you need to do is to make up your mind and learn the ways to get started. Selling on EBay does not take a lot of work. The technicalities are so easy to follow and learn. Of course, there are some techniques that can make selling easier and faster. Many mistakenly believe an artist can succeed with artistic talent alone. But Eric Rhoads knows that there are many brilliant artists who will never be discovered and never sell any artwork. Eric Rhoads is an outdoor (plein air) landscape painter, a portrait artist, and the world's foremost art marketing expert, having guided thousands of artists to success. He has founded numerous companies, and marketed both products and art. Eric is publisher and founder of several influential and nationally distributed art magazines and newsletters, as well as popular conferences and events. Many of today's most brilliant artists remain unknown. Their plight is not new. Today, Vincent Van Gogh's works are in incredibly high demand; in fact, his portrait of Doctor Gachet recently sold for \$82.5 million. But in his lifetime Van Gogh sold only two of his 2,000 works of art. Van Gogh truly was a starving artist. Ending the stereotype of the starving artist is this book's essential purpose. It is Eric Rhoads' mission that artists no longer suffer this fate. This book will unleash your inner marketer. Under Eric's guidance, you will learn timeless marketing techniques that will allow you to live your dreams, no matter how lofty and unobtainable you think they may be. What was one of the first things you wanted to sell when you were a kid? Did you have a lemonade stand that went bust after two weeks, or did you sell baseball bats at little league games? Whatever kickstarted your selling career shows the true determination of a natural-born seller that was meant to take advantage of one of the world ' s greatest merchandise companies: Amazon. Amazon has been around for over 25 years, and it only continues to build momentum. Once marketed as only an online bookstore, it was unclear if the company would survive the next few years against such large alternatives such as Barnes & Noble. The company was completely internet-based, which many thought would be the end of the website, but it only became more popular with the addition of new products such as music and clothes. Some may not realize that the company that started off as an internet-based store for books was one of the first platforms to encourage outside sales. Originally called zShops, people could market original work or hard-to-find items. The idea exploded as more than half a million people purchased something on Amazon by 2000. Jeff Bezos was dubbed the king of e-commerce in 2001, just seven years after Amazon ' s launch. From its birth until now, Amazon has acquired 40 companies, but its major commerce is now in its third-party marketers. Outside sellers make up more than 50%

of Amazon commerce today, and that number is only growing over the years. Online shopping has become the norm, and Amazon is leading the way in sales, accumulating billions of dollars every year, and its third-party sellers are riding the train to financial freedom. Amazon FBA was officially launched in 2006, so it is far from the newest selling platform, but it has shaped the path for other platforms of its kind, and it should be considered as the best service possible. Sellers can use accounts created with Amazon to sell their own merchandise with small fees collected by Amazon. With the internet growing in importance every year, selling online has never been easier. But why would you want to get involved with Amazon FBA? Well, if you have a knack for selling products, feel as though you have always wanted an online store, or just want to try something new, Amazon FBA is one of the easiest ways to get started. From its promises of prime delivery to customers to its total management of your products as soon as they are delivered to the warehouse, Amazon has you covered. They provide a service unmatched by any outside company, and they make selling easier every year. Selling is the most effective way to make money online. It beats all other ways to make money taken all together. To make it short, selling something is a million dollars business. Having decided one day to start your own selling business, you will come up with question "what to sell?". But right before to decide what to sell, you will have to answer another question "where to take staff to sell?" Well, there are three places to find staff to sell. First, you may create something by yourself. Second, you may buy something and resell it. Third, you may make up something abstract to sell. I don't think first two options attract you a lot. Maybe because you don't have storage place for products you want to resell. Maybe because you don't want to invest money in buying staff to resell. If you have storage place and money to invest, stop reading this book, just open regular Grocery or 99 cents store. But if you don't want to think about storage and start capital then your option is third. There are millions abstract things to sell in internet. Just to remind you... Abstract thing is a thing which you cannot touch. Though you may find different definition what is abstract in dictionaries. As for me,
