This game is for two to four players and contains 28 cute and colorful dog dominoes. Have fun matching seven delightful pooches: Chihuahua, Dachshund, Dalmation, Labrador, Poodle, Pug, and Alsation. Get your last domino down first to win the game and become top dog! Playing Dog Domino is a great way to involve younger members of the family who do not feel so comfortable (or interested) playing with an abstract concept such as the number of dots on a square. Dog Domino will get the whole family playing! Rules of play 1) Shuffle all of the dominoes, placing them face down on the table. 2) Each player takes seven dominoes, being careful not to reveal what they have. 3) The first player places a domino face up on the table. 4) The next player places one of their dominoes at either end, making sure that the dog matches at either end. If they cannot go they must miss a turn. 5) Play continues until someone has put down all of their dominoes and wins the game.

There are a variety of types of domino sets in use all over the world and a great number of games that can be played with them. Following are the rules for the two most commonly played games in the West - the "standard" or "Block" game and the "Draw" game. The instructions describe the games played with the standard or "double-six" domino set comprising 28 tiles, but both games can be played with a double-nine or a double-twelve set. In British pubs, these are also the most common games which are often played by four players as two sets of partners sitting opposite each other.The dominoes are ritually shuffled face down in circles with the flat of the hand - producing a sound that has been familiar down the centuries. Each player draws 6 dominoes and places them so that the other players can't see their value. The traditional English pub method of doing this is face down in two rows of three so that all six can be picked up with both hands, looked at and returned leaving the other hand free for the equally important business of drinking a pint. Beginners can just place them on their edge in a row facing them. Remaining dominoes are termed "sleeping" tiles.The first person to play is that person holding the double-six, or failing that the double-five and so on. The tile played must be the double tile that permitted the player to take the first turn. If none of the players hold a double, then the tiles are reshuffled and re-drawn.Get your copy today by scrolling up and clicking Buy Now to get your copy today
