A journey around the United States in search of the truth about the threat of earthquakes leads to spine-tingling discoveries, unnerving experts, and ultimately the kind of preparations that will actually help guide us through disasters. It's a road trip full of surprises. Earthquakes. You need to worry about them only if you're in San Francisco, right? Wrong. We have been making enormous changes to subterranean America, and Mother Earth, as always, has been making some of her own. . . . The consequences for our real estate, our

civil engineering, and our communities will be huge because they will include earthquakes most of us do not expect and cannot imagine—at least not without reading *Quakeland*. Kathryn Miles descends into mines in the Northwest, dissects Mississippi levee engineering studies, uncovers the horrific risks of an earthquake in the Northeast, and interviews the seismologists, structural engineers, and emergency managers around the country who are addressing this ground shaking threat. As Miles relates, the era of human-induced earthquakes began in 1962 in Colorado after millions of gallons of chemical-weapon waste was pumped underground in the Rockies. More than 1,500 quakes over the following seven years resulted. The

Department of Energy plans to dump spent nuclear rods in the same way. Evidence of fracking's seismological impact continues to mount. . . .

Humans as well as fault lines built our "quakeland". What will happen when Memphis, home of FedEx's 1.5-million-packages-a-day hub, goes offline as a result of an earthquake along the unstable Reelfoot Fault? FEMA has estimated that a modest 7.0 magnitude quake (twenty of these happen per year around the world) along the Wasatch Fault under Salt Lake City would put a \$33 billion dent in our economy. When the Fukushima reactor melted down, tens of thousands were displaced. If New York's Indian Point nuclear power plant blows, ten million people will be displaced. How would that

The true story of two mass-casualty incidents that occurred within days of each other at a US Air Force base. Using the words of the people who experienced the tragedies, the book provides in-depth look at the before, during and after of a preventable active-shooter incident and an avoidable fatal plane crash. The base psychiatrist knew the airman was dangerous. "This is the kind of patient who ... one day ... he's going to come back and kill you." Aircrews knew the rogue pilot was dangerous. "We predicted the worst air-show disaster in history when we found out that he was gonna fly." Written by Andy Brown, the man

who ended the killing spree, the result of more than seven years of research. Brown "masterfully weaves" the two stories together in a powerful narrative. He also reveals the preparations he made that enabled him to end a pistol-versus-rifle gunfight with a 70 yard shot from his handgun. Part true crime, part law-enforcement biography memoir and part military history. Warnings Unheeded is presented in an objective style that shows what can happen when authorities become complacent, when the precursors of violence are ignored and the lessons from history are forgotten.

The behavioral scientist author of Just the Way You Are presents a provocative argument that the quality of one's life is directly related to the focus of one's attention, drawing on the latest findings in neuroscience and psychology to cover such topics as the human capacity for training concentration, the ways in which the creative mind thinks, and why people deliberate on the wrong factors when making big decisions.

John Ashbery's most renowned collection of poetry -- Winner of The Pulitzer Prize, the National Book Award, and the National Book Critics Circle Award First released in 1975, Self-Portrait in a Convex Mirror is today regarded as one of the most important collections of poetry published in the last fifty years. Not only in the title poem, which the critic John Russell called "one of the finest long poems of our period," but throughout the entire volume, Ashbery reaffirms the poetic power that made him an outstanding figure in contemporary literature. These are poems "of breathtaking

This book builds on the vast clinical experience of Joseph L. Henderson, who became interested in initiatory symbolism when he began his analysis with Jung in 1929. Henderson studied this symbolism in patients' dreams, fantasies, and active imagination, and demonstrated the archetype of initiation in both men and women's psychology. After Henderson's book was republished in 2005 Kirsch, Beane Rutter and Singer brought together this collection of essays to allow a new generation to

explore the archetype of initiation. *Initiation: The Living Reality of an Archetype* demonstrates how the archetype of initiation is seen clinically today. Divided into distinct parts, the book explores the archetype of initiation in Dr Henderson's own life, as well as suggesting its importance in: clinical practice culture aging and death. The chapters in this book amplify and extend the archetype of initiation from the earliest historical periods up to the present day. The editors argue that initiation symbolism often underlies contemporary phenomena, but is rarely recognized; *Initiation* helps to bring a new understanding to these experiences. Homesick cabin boy Davy isn't a very good sailor. He hates heights, feels sick from the swaying sea and ruins the ship stew with too much pepper. The only thing that keeps him going are the crazy stories Cook tells about the grizzly sea monsters. But when a huge wave sweeps him overboard, Davy finds himself in much stormier waters... and on the ship of a vengeful skeletal pirate captain! How will Davy get home now?!

Katie's Cabbage is the inspirational true story of how Katie Stagliano, a third grader from Summerville, South Carolina, grew a forty-pound cabbage in her backyard and donated it to help feed 275 people at a local soup kitchen. In her own words, Katie shares the story of the little cabbage seedling and the big ideas of generosity and service that motivated her to turn this experience into Katie's Krops, a national youth movement aimed at ending hunger one vegetable garden at a time. Katie's Cabbage reminds us of how small things can grow and thrive when nurtured with tender loving and care and of how one person, with the support of family, friends, and

community, can help make a powerful difference in the lives of so many. Katie's Cabbage was illustrated by Karen Heid, associate professor of art education at the University of South Carolina School of Visual Art and Design. Editorial assistance was provided by Michelle H. Martin, a dedicated gardener and the Augusta Baker Chair in Childhood Literacy at the University of South Carolina School of Library and Information Science. Patricia Moore-Pastides, First Lady of the University of South Carolina and author of *Greek Revival from the Garden: Growing and Cooking for Life*, offers a foreword about her friendship with Katie and her admiration of Katie's dream to
