The Centaur centres on Terence O’Malley, a journalist of mystical temperament who is at odds with the pace and materialism of the modern world, and instead countenances a sense of kinship with the universe. This mystical novel weaves a fascinating tale while, at the same time, making a passionate plea for a lifestyle that is closer to nature. Describes the psychological techniques cults use to indoctrinate their members and discusses deprogramming.

Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Enter a world of magic and adventure in this stunning series based on traditional Russian folklore. Collected into a beautiful new paperback edition for the first time! Alexander Utkin's Gamayun Tales are fresh and modern adaptations of familiar Russian folktales, teamed with bold and beautiful illustrations. Jam-packed with stories of magical quests and talking animals, golden chests that turn into palaces and encounters with terrifying Water Spirits, there's no end to the adventure in these books!

A collection of 300 multiple-choice questions which are divided into subject chapters corresponding with those in General and Systematic Pathology, a complementary text. However, full explanatory answers are supplied so that this book may be used with any pathology textbook. The questions take the form of a stem with five branches which must be marked true or false. This is the most commonly used system of questions in British medical schools and is usually scored as +1 for a correct response and zero for no response.

Indiana Trivia is the who, what, when, where, and how book of the great state of Indiana. Filled with interesting questions and answers regarding well-known and not so well-known facts about the Hoosier State, Indiana Trivia will provide hours of entertainment and education. Designed for use in a wide variety of settings?home, office, school, parties?it focuses on the history, culture, people, and places of Indiana. Indiana Trivia, is readily adaptable for use with trivia format games.

Albert Einstein said: We are using only 10% of our mental potential. Dianetics tells you how you can free a significantly larger part of your potential. Self confidence, harmonic relationships and a positive attitude towards life can absolutely be achieved. It makes Positive Thinking a reality. You can achieve your goals with more certainty if you are able to find the cause of upsets, unwanted reactions or emotions. The human mind is not a mysterious puzzle - impossible to resolve. Read and work with Dianetics, see how it works for you and make up your own mind. The book gives a clear description of what is happening in the mind and explains a practical method, enabling you to explore your own subconscious, and rid yourself of what holds you down, resulting in increased IQ and well-being. Watching the DVD called 'How to Use Dianetics' along with the book is recommended to have a visual illustration of the concepts and the practical application.

The Roman Actor explores the balance between private and public moralities, effectively condemns tyranny, and defends plays, anatomizing both the theatre of power and the power of theatre. This new Revels Plays volume provides a modernized text with a thorough introduction that sets out Massinger's intervention in the political tensions of his own time and examines his clear-eyed portrayal of the pleasures and perils of performance. It also includes a detailed commentary on the play and an appendix discussing the play's textual history. It focuses on the play's theatrical life in its own time and ours, and gives a detailed stage history including an interview with Sir Antony Sher, who played the tyrannical Roman emperor, Domitian, in the Royal Shakespeare Company's acclaimed production in 2002.

In Mordin On Time, Nick Mordin sets out his method for answering the most fundamental question facing punters in any race, namely: which is the fastest horse? He was timing the sections of races with a stop watch, estimating wind strength and direction, adjusting for movements of running rails, using projected times and calculating average times years before the best-selling American books on speed rating were published. This new edition incorporates much new material, including standard times for all Irish racecourses (plus the major French ones). Mordin On Time enables the reader to construct their own speed ratings wherever they live. This guide provides information on hotels, restaurants, driving and walking tours, shopping and sightseeing, and nighttime entertainment around Boston.

This book claims to unravel history with an "E-Meter", describing what the author believes are the principal "incidents on the whole track to be found in any human being". These incidents include electronic implants, entities, the genetic track, between-lives incidents, the relationship of the Genetic Entity to Theta Beings, and so on. Also presented are Hubbard's theory of how bodies evolved and why human's got trapped in them as well as his descriptions of how specific incidents reveal "the true story of between-lives" and "the insidious nature of electronics in enslaving thetans".

"The story of a teen girl's struggle with Avoidant Restrictive Food Intake Disorder and how love helps her on the road to recovery"--

Attuned to a world of natural signs—the stars, the winds, the curl of ocean swells—Polynesian explorers navigated for thousands of miles without charts or instruments. They sailed against prevailing winds and currents aboard powerful double canoes to settle the vast Pacific Ocean. And they did this when Greek mariners still hugged the coast of an inland sea, and Europe was populated by stone-age farmers. Yet by the turn of the twentieth century, this story had been lost and Polynesians had become an oppressed minority in their own land. Then, in 1975, a replica of an ancient Hawaiian canoe—H?k?le'a—was launched to sail the ancient star paths, and help Hawaiians reclaim pride in the accomplishments of their ancestors. Hawaiki Rising tells this story in the words of the men and women who created and sailed aboard H?k?le'a. They speak of growing up at a time when their Hawaiian culture was in danger of extinction; of their vision of sailing ancestral sea-routes; and of the heartbreaking loss of Eddie Aikau in a courageous effort to save his crewmates when H?k?le'a capsized in a raging storm. We join a young Hawaiian, Nainoa Thompson, as he rediscovers the ancient star signs that guided his ancestors, navigates H?k?le'a to Tahiti, and becomes the first Hawaiian to find distant landfall without charts or instruments in a thousand years. Hawaiki Rising is the saga of an astonishing revival of indigenous culture by voyagers who took hold of the old story and sailed deep into their ancestral past.

The Old Law

Indiana Trivia

The Old Law, or A New Way to Please You is a seventeenth-century tragicomedy written by Thomas Middleton, William Rowley, and Philip Massinger. It was first published in 1656, but is generally thought to have been written about four decades earlier.

SYNOPSIS
The choice of actions and decisions requires skill and wisdom, not just self-interest or just group interest. Containing 21 precepts, **The Way to Happiness** helps guide one in those choices encountered in life. This might be the first nonreligious moral code based wholly on common sense. **FULL DESCRIPTION**
True joy and happiness are valuable. If one does not survive, no joy and no happiness are obtainable. Trying to survive in a chaotic, dishonest and generally immoral society is difficult. Any individual or group seeks to obtain from life what pleasure and freedom from pain that they can. Your own survival can be threatened by the bad actions of others around you. Your own happiness can be turned to tragedy and sorrow by the dishonesty and misconduct of others. I am sure you can think of instances of this actually happening. Such wrongs reduce one's survival and impair one's happiness. You are important to other people. You are listened to. You can influence others. The happiness or unhappiness of others you could name is important to you. Without too much trouble, using this book, you can help them survive and lead happier lives. While no one can guarantee that anyone else can be happy, their chances of survival and happiness can be improved. And with theirs, yours will be. It is in your power to point the way to a less dangerous and happier life.

Philip Massinger's 1632 play reworks Shakespeare's Measure for Measure as a waspish city comedy intended to attack the vices of hypocrisy, greed, self-indulgence and social pretension. Wealthy merchant Sir John Frugal takes pity on his penniless brother Luke and invites him to live under his roof with John's own haughty wife and two foolishly conceited daughters. As Luke plots to steal from his brother, and his daughters arrogantly spurn worthy suitors, John plans to teach them all a lesson. Retiring to a monastic life, he leaves his brother Luke in charge of the household, before returning in disguise to watch havoc unfold... This rarely produced but surprisingly timely play was revived by the Royal Shakespeare Company as part of its fiftieth birthday season in 2011. 'a riot' The Times 'infinitely rewarding... a real treat' Independent

The Case Against Faith—and for Freedom

Throughout history, religion has been used as a tool of female subjugation. Women have been deemed less worthy than men, have been prevented from owning property, and worse—all in the name of a higher power. In recent decades, women have made progress in terms of equal rights with men, at least in Western democracies, but still, why has the United States never had a female president? Why aren't more women heads of Fortune 500 companies? Why do politicians in the West continue to attack women's reproductive rights? As this volume explores, it would be hard to find a bigger culprit than religion when identifying the last cultural barriers to full gender equality. With topics ranging from the subjugation of women in the Bible to the shame and guilt felt by women due to religious teaching, this volume makes clear that only by rejecting the very system that limits their autonomy will women be fully liberated from its malignant influences, not just in codified law but also in cultural practice.

The Renegado is one of the most shamelessly entertaining plays of its age, fetching its inspiration from a number of works by Cervantes, based on his own experiences as a captive in Algiers. Introducing the eroticized captivity narrative to the English stage, Massinger's tragicomedy combines it with the long-popular romance motif of a Christian hero's conquest of an exotic princess. But even as it indulges in romantic fantasy, The Renegado engages with contentious issues of national and international politics, offering a provocative response to the sectarian feuds dividing England in the 1620s, while exploiting wider European fears of the expansionist Muslim empire of the Ottomans.

Through its treatment of religious confrontation and conversion, Massinger's play offers important insights into early modern constructions of the Islamic world, and emerges as a piece with unexpected resonances for our own time. This is the first major single-volume edition of The Renegado, making it properly available to all students and teachers of early modern drama. With detailed on-page commentary notes and an illustrated introduction assessing its impact on the Renaissance stage as well as its particular relevance to our contemporary multi-cultural society, it is a stimulating and original teaching edition. An extract from Cervantes' The Prisons of Algiers, a key source for the play, is given in an appendix and the whole Cervantes text is available on the Arden website as an additional resource.

Applications of communication networks lead to radical changes in human life. Fieldbus technology is part of this development acting in close connection to systems control and in critical domains. Equipped with sensitive sensors, fieldbus technology becomes the backbone of many processes of our daily life. In automation technology, fieldbus systems are essential parts of modern applications. In airplanes and in near future also in automobiles, mechanical control is replaced by áx by wireâ systems based on fieldbusses, a technique more efficient and flexible, but also cheaper. Moreover, fieldbus technology, used in factories, hospitals, laboratories for the collection of numerous data, enables a more efficient and reliable operation of these complex environments.This book is a collection of articles submitted to the fieldbus conference FeT'99 in Magdeburg, Germany. The articles were reviewed by an international program committee which decided to include some high quality articles not presented at the conference. The book comprises chapters dealing with important aspects of fieldbus technology and reflecting areas of main activity in science and industry: real-time aspects, networking, management, OPC, system aspects, realization, protocol specifications (supplements to introduced fieldbus systems), validation, profile development (i. e. specification of application semantics) and research projects. A further chapter reports on the European harmonization project NOAH.

An Annual Review: Volume 40

In this profound message from one of the great thinkers of our generation, Zacharias explores the inner feeling of futility that can overwhelm a human heart and helps us to see a reason for our suffering, be comforted in loneliness, and experience an abiding faith in our daily lives. Cries of the Heart is a book that both inspires and reassures...a search that uncovers our hidden sentiments and reveals God's continual inescapable presence in every moment of our lives.
