

## *Hunted The Odyssey Of Nath Dragon Book 4 The Lost Dragon Chronicles 1*

From New York Times bestselling author Sam Kean comes incredible stories of science, history, finance, mythology, medicine, and more, as told by the Periodic Table. Why did Gandhi hate iodine (I, 53)? How did radium (Ra, 88) nearly ruin Curie's reputation? And why is gallium (Ga, 31) the go-to element for laboratory pranksters? \*The Periodic Table is a scientific achievement, but it's also a treasure trove of adventure, betrayal, and obsession. These fascinating tales follow each element on the table as they play out their parts in human history, and in the lives of the (frequently) mad scientists who discovered them. THE DISAPPEARING SPOON masterfully fuses science with the classic lore of invention, investigation, and discovery from the Big Bang through the end of time. \*Though solid at room temperature, gallium is a moldable metal that melts at 86.3 degrees Fahrenheit. A classic science prank is to mold gallium spoons, serve them with tea, and watch guests recoil as their spoons disappear.

A dazzling and eloquent reworking of the Mahabharata, one of South Asia's best-loved epics, through nineteen peripheral characters. With daring poetic forms, Karthika Nair breathes new life into this ancient epic. Karthika Nair refracts the epic Mahabharata through the voices of nameless soldiers, outcast warriors and handmaidens as well as abducted princesses, tribal queens, and a gender-shifting god. As peripheral figures and silent catalysts take center stage, we get a glimpse of lives and stories behind the dramas of god and nation, heroics and victory - of the lives obscured by myth and history, all too often interchangeable. Lions is a kaleidoscopic, poetic tour de force. It reveals the most intimate threads of desire, greed, and sacrifice in the Mahabharata epic.

"All the sizzle, chaos, noise and scariness of war is clay in the hands of ace storyteller Lynch." -- Kirkus Reviews for the first book in the series. Discover the secret missions behind America's greatest conflicts. Fergus Frew thought he knew what to expect when he signed up with the Navy's demolitions team. But as the Korean War rages on, Fergus and his fellow divers -- AKA "frogmen" -- are tasked with more than just scouting mudflats. Soon they're planting mines. And sabotaging tunnels, bridges... and even ships. Strangest of all, it falls to Fergus to transport a spy into the country -- and that means traveling far from Navy-controlled waters. Frogmen are amphibious. And Fergus may not realize it, but he's in a position to change the way the whole world thinks about combat. National Book Award finalist Chris Lynch continues his explosive fiction series based on the real-life, top-secret world of US black ops and today's heroic Navy SEALs.

In this deeply stirring novel, acclaimed author Cristina García follows one extraordinary family through four generations, from China to Cuba to America. Wonderfully evocative of time and place, rendered in the lyrical prose that is García's hallmark, *Monkey Hunting* is an emotionally resonant tale of immigration, assimilation, and the prevailing integrity of self.

This is the story of Cot Daley, a young girl kidnapped from her home in Galway, and shipped out to Barbados, where more than fifty thousand Irish sold to as indentured servants to the plantation owners of the Caribbean work the land alongside African slaves. Most of them would never see their families again.

A *Romeo & Juliet* tale for Hamilton! fans. In post-American Revolution New York City, Theodosia Burr, a scholar with the skills of a socialite, is all about charming the right people on behalf of her father—Senator Aaron Burr, who is determined to win the office of president in the pivotal election of 1800. Meanwhile, Philip Hamilton, the rakish son of Alexander Hamilton, is all about being charming on behalf of his libido. When the two first meet, it seems the ongoing feud between their politically opposed fathers may be hereditary. But soon, Theodosia and Philip must choose between love and family, desire and loyalty, and preserving the legacy their flawed fathers fought for or creating their own. Love, Theodosia is a smart, funny, swoony take on a fiercely intelligent woman with feminist ideas ahead of her time who has long-deserved center stage. A refreshing spin on the Hamiltonian era and the characters we have grown to know and love. It's also a heartbreaking romance of two star-crossed lovers, an achingly bittersweet "what if." Despite their fathers' bitter rivalry, Theodosia and Philip are drawn to each other and, in what unrolls like a Jane Austen novel of manners, we find ourselves entangled in the world of Hamilton and Burr once again as these heirs of famous enemies are driven together despite every reason not to be.

Exiled by his power-hungry brothers, Prince Tarkyn encounters the woodfolk: a secretive group of telepaths living deep in the woodlands. When bounty hunters attack, Tarquin narrowly escapes with the aid of the forest-dwellers, and discovers a secret about their source of magic.

Embracing his new identity, allegiances are formed as the woodfolk hail Tarquin as the Guardian Of The Forest. But can he find a way to protect this mysterious realm, and seize his true destiny? This is the large print edition of Bronze Magic, with a larger font / typeface for easier reading.?

*"One of the best novelists since Jane Austen....The Hundred Days may be the best installment yet....I give O'Brian's fans joy of it."—Philadelphia Inquirer*  
*Napoleon, escaped from Elba, pursues his enemies across Europe like a vengeful phoenix. If he can corner the British and Prussians before their Russian and Austrian allies arrive, his genius will lead the French armies to triumph at Waterloo. In the Balkans, preparing a thrust northwards into Central Europe to block the Russians and Austrians, a horde of Muslim mercenaries is gathering. They are inclined toward Napoleon because of his conversion to Islam during the Egyptian campaign, but they will not move without a shipment of gold ingots from Sheik Ibn Hazm which, according to British intelligence, is on its way via camel caravan to the coast of North Africa. It is this gold that Jack Aubrey and Stephen Maturin must at all costs intercept. The fate of Europe hinges on their desperate mission. "The Hundred Days is certain to delight O'Brian's fans, for whom happiness is an unending stream of Aubrey/Maturin books....[It] is a fine novel that stands proudly on the shelf with the others."—Los Angeles Times*

*The powerful and compelling true story of corruption, coercion and murder surrounding the Tupac Shakur & Christopher "Biggie Smalls" Wallace homicides brought to 2014. With contribution by former Los Angeles Police Detective Russell Poole, the original Wallace homicide investigator, Michael Douglas Carlin, Director of "American Federale" and Richard "RJ" Bond, director of the "Tupac Assassination" movies take you inside the 18 year odyssey of the derailed murder investigations. Tupac 187: The Red Knight" goes back to the beginning of the investigations-the original police files-and re-examines the people and evidence who have been previously corrupted or ignored. We decided to strip the Death Row Records disinformation machine of its fallacies, and re-paint the witness disparagement campaigns by the Los Angeles Times with the color of truth. When all is laid out raw and exposed under the book's harsh light, "187" clearly evidences the power of the media-both of 1996 and of today- to not only report news-but to make it. Moreover, Tupac: "187" exposes leaks in the Los Angeles Police Department that may have fatally crippled the investigations in both cases; covert operations to collect up investigation notes and findings, key credible witness testimony hidden in detective's desk drawers, complaints of Los Angeles Police employees of their work literally disappearing from their computer files-along with their computers-it's all brought to light. Even in the last year, witnesses took new information to four key L.A.P.D. brass, only to see the body of evidence leaked by one of*

*those in the meeting, to end up on the Internet-risking lives and attempting to sabotage the new information. This book is what you get when you combine the work of the LAPD Detective that found justice for Bill Cosby's son and who broke the infamous LAPD Rampart Scandal to the world, the filmmaker who dared to follow the Mexican Federale that killed drug lord Pablo Acosta and the award-winning filmmaker who produced the classic "Tupac: Assassination" documentary? You get a whole new group of suspects, motives that support a completely new understanding of the Tupac Shakur and Christopher "Biggie Smalls" Wallace homicides ("187" of the title is the California Penal Code section for Murder) that some in the law enforcement community would rather you not know about. Through actual police and court documents never before published, never released recorded phone conversations from 1996, an unearthed 1998 confession letter and all new and never before released witness interviews, Bond and Carlin follow the cold trail of those responsible for the loss of two of the music industries greatest hip-hop legends. Where they lead will stun and shock the senses. Never before has there been a level of detail in these cases that has been made public; Bond and Carlin, with the help of Poole, go back to the very beginning when leads were new and unbiased, and publicly flush out the Death Row Records dis-information machine that turned good witnesses into targets of smear campaigns, and took the lives of countless witnesses and suspects. Prepare to challenge all you thought you knew about both cases, and get ready to learn new information that will forever change the way you view police, the law and the killings of Shakur and Wallace!*

*From the author of White Tears, this bestselling, award-winning novel of a young man's journey explores what it means to be Indian or English, black or white, and every degree that lies between. Pran Nath Razdan, the boy who will become the Impressionist, was passed off by his Indian mother as the child of her husband, a wealthy man of a high caste. Pran lived a life of luxury just downriver from the Taj Mahal, but at fifteen, the news of Pran's true parentage is revealed to his father and he is tossed out into the street—a pariah and an outcast. Thus begins an extraordinary, near mythical journey of a young man who must reinvent himself to survive—not once, but many times. From Victorian India to Edwardian London, from an expatriate community of black Americans in Paris to a hopeless expedition to study a lost tribe of Africa, Hari Kunzru's unforgettable debut novel dazzles with its artistry and wit while it challenges with its insights into the self, nationality, race, and beyond.*

*Discover the secret missions behind America's greatest conflicts. Danny Manion has been fighting his entire life. Sometimes with his fists. Sometimes with his words. But when his actions finally land him in real trouble, he can't fight the judge who offers him a choice: jail... or the army. Turns out there's a perfect place for him in the US military: the Studies and Observation Group (SOG), an elite volunteer-only task force comprised of US Air Force Commandos, Army Green Berets, Navy SEALs, and even a CIA agent or two. With the SOG's focus on covert action and psychological warfare, Danny is guaranteed an unusual tour of duty, and a hugely dangerous one. Fortunately, the very same qualities that got him in trouble at home make him a natural-born commando in a secret war. Even if almost nobody knows he's there. Named one of Vulture's Top 10 Best Books of 2020! Leftist firebrand Fredrik deBoer exposes the lie at the heart of our educational system and demands top-to-bottom reform. Everyone agrees that education is the key to creating a more just and equal world, and that our schools are broken and failing. Proposed reforms variously target incompetent teachers, corrupt union practices, or outdated curricula, but no one acknowledges a scientifically-proven fact that we all understand intuitively: Academic potential varies between individuals, and cannot be dramatically improved. In *The Cult of Smart*, educator and outspoken leftist Fredrik deBoer exposes this omission as the central flaw of our entire society, which has created and perpetuated an unjust class structure based on intellectual ability. Since cognitive talent varies from person to person, our education system can never create equal opportunity for all. Instead, it teaches our children that hierarchy and competition are natural, and that human value should be based on intelligence. These ideas are counter to everything that the left believes, but until they acknowledge the existence of individual cognitive differences, progressives remain complicit in keeping the status quo in place. This passionate, voice-driven manifesto demands that we embrace a new goal for education: equality of outcomes. We must create a world that has a place for everyone, not just the academically talented. But we'll never achieve this dream until the Cult of Smart is destroyed.

A fearless pair of brothers who always seem to find trouble... After years of hiding from a terrible past, Grey Cloak and Dyphestive abandon their duties and search for something new. Unaware of the powerful bloodline coursing through their veins, they set out to uncover their own fortune. But misfortune finds them first... Battling thieves, hermits, and dragons is only the beginning as a company of notorious adventurers led by a mysterious wizard threatens to tear them apart. Relying on their wits, wiles, and each other, the brothers fight for survival in the middle of a brewing dragon war. But will an unknown and perilous calamity destroy them before they can save themselves and the rest of the world? If you enjoy epic fantasy, filled with the gamut of elves, dwarves, halflings and orcs, along with mages, thieves and warriors to dragon riders, then you will devour the mysterious and brazen adventures of Grey Cloak and Dyphestive. Author Note: This series was inspired by middle-schoolers that demanded more dragon fantasy. If you've read the Chronicles of Dragon series, you're certain to enjoy this. If you aren't familiar with Halloran's works, but enjoyed Dragonlance, Fablehaven, Percy Jackson, or R.A. Salvatore's Icewind Dales series, you'll quickly discover these party-based adventure books are right up your alley.

NATIONAL BESTSELLER • “Rutherford brings England’s New Forest to life” (The Seattle Times) in this companion to the critically acclaimed Sarum From the time of the Norman Conquest to the present day, the New Forest, along England’s southern coast, has remained an almost mythical place. It is here that Saxon and Norman kings rode forth with their hunting parties, and where William the Conqueror’s son Rufus was mysteriously killed. The mighty oaks of the forest were used to build the ships for Admiral Nelson’s navy, and the fishermen who lived in Christchurch and Lymington helped Sir Francis Drake fight off the Spanish Armada. The New Forest is the perfect backdrop for the families who people this epic story. The feuds, wars, loyalties, and passions of many hundreds of years reach their climax in a crime that shatters the decorous society of Bath in the days of Jane Austen, whose family lived on the edge of the Forest. Edward Rutherford is a master storyteller whose sense of place and character—both fictional and historical—is at its most vibrant in The Forest. “As entertaining as Sarum and Rutherford’s other sweeping novel of British history, London.”—The Boston Globe

Motilal Nehru and Jawaharlal Nehru are both prominent Indian men in their own right. Motilal is known as a widely successful civil lawyer and a popular political figure, while Jawaharlal made his mark as a firm nationalist leader and possible heir of the Mahatma. This book serves as a discussion of Motilal's life and achievements, and looks into the first four decades of Jawaharlal's life. It shows that while the father-son tandem played different roles in the nationalist struggle of India, their close emotional bonds helped them influence each other. Their story can be combined with that of the Indian freedom movement. The book covers a number of important events in the lives of the Nehrus—from Motilal's childhood in Agra, Jawaharlal's acceptance into Trinity College, and Jawaharlal's entry into the political arena, to the father-son conflict over the changing political atmosphere in India. This book also takes a look at several notable individuals who play important roles in Motilal and Jawaharlal's lives. These include Annie Besant, the leader of the Home Rule movement, and Mahatma Gandhi, the fierce fighter for India's independence.

"A sumptuous historical novel anchored by its excellent depiction of Jane Seymour, Henry the VIII's third queen . . . This is a must for all fans of Tudor fiction and history."—Publishers Weekly Ever since she was a child, Jane has longed for a cloistered life as a nun. But her large noble family has other plans, and as an adult, Jane is invited to the King's court to serve as lady-in-waiting to Queen Katherine of Aragon. The devout Katherine shows kindness to all her ladies, almost like a second mother, which makes rumors of Henry's lustful pursuit of Anne Boleyn—also lady-in-waiting to the queen—all the more shocking. For Jane, the betrayal triggers memories of a haunting incident that shaped her beliefs about marriage. But once Henry disavows Katherine and secures Anne as his new queen—forever altering the religious landscape of England—he turns his eye to another: Jane herself. Urged to return the King's affection and earn favor for her family, Jane is drawn into a dangerous political game that pits her conscience against her desires. Can Jane be the one to give the King his long-sought-after son, or will she be cast aside like the women who came before her? Bringing new insight to this compelling story, Alison Weir marries meticulous research with gripping historical fiction to re-create the dramas and intrigues of the most renowned court in English history. At its center is a loving and compassionate woman who captures the heart of a king, and whose life will hang in the balance for it. Praise for Jane Seymour, *The Haunted Queen* "Bestselling [Alison] Weir's impressive novel shows why Jane deserves renewed attention [and] illustrates Jane's unlikely journey from country knight's daughter to queen of England. . . . From the richly appointed decor to the religious tenor of the time, the historical ambience is first-rate."—Booklist (starred review) "Deft, authoritative biographical fiction . . . a dramatic and empathic portrait of Jane Seymour."—Kirkus Reviews

"Fascinating.... Lays a foundation for understanding human history." "Bill Gates In this "artful, informative, and delightful" (William H. McNeill, New York Review of Books) book, Jared Diamond convincingly argues that geographical and environmental factors shaped the modern world. Societies that had had a head start in food production advanced beyond the hunter-gatherer stage, and then developed religion --as well as nasty germs and potent weapons of war --and adventured on sea and land to conquer and decimate preliterate cultures. A major advance in our understanding of human societies, Guns, Germs, and Steel chronicles the way that the modern world came to be and stunningly dismantles racially based theories of human history.
