The Wildland Fire Incident Management Field Guide is a revision of what used to be called the Fireline Handbook, PMS 410-1.

This guide has been renamed because, over time, the original purpose of the Fireline Handbook had been replaced by the Incident Response Pocket Guide, PMS 461. As a result, this new guide is aimed at a different audience, and it was felt a new name was in order.

Once you're familiar with Will Malloff's method of chainsaw lumbermaking, you'll be simply and economically turning trees into lumber on your own. Learn how to select the tree you want, fell it safely, and saw it into a fine pile of building or cabinet lumber. With detailed instructions and over 400 photographs, Will Malloff tells you everything you need to know to turn a chainsaw into a lumbermill, including how to: Modify the chainsaw and make

this experience, he has invented several chainsaw mills, and perfected the easy, efficient method of chainsaw lumbermaking that he describes in this book. If you've ever had trouble finding the lumber you need, or wanted to build something with your own trees, "Chainsaw Lumbermaking" is the book you've been waiting for. Will Malloff has built a variety of mills and is the designer of what many consider the most effective chainsaw lumbermaking system available. Malloff has

spent nearly half a century researching and developing tools and wood technology that minimize ecological impact. In an endeavor to build his own blacksmith shop on a Canadian Pacific island, he invented a state-of-the-art ripping chain, which made chainsaw lumbermaking more feasible and economical than ever before.

About this book: A chainsaw is arguably the most effective tool a person can use to fell trees and clear brush. They're effective,

efficient, portable, and can be used in all types of settings. In short, chainsaws are the best teammate a sawyer can have when tasked with felling, bucking, and limbing trees. However, keeping a chainsaw running at its fullest potential requires a lot of attention to detail during routine maintenance. As Abraham Lincoln is quoted as saying, "give me six hours to chop down a tree and I will spend the first four sharpening the axe." Thankfully, we're now a far cry from resorting to
