Monty Don made a triumphant return to our screens as presenter of *Gardeners' World*. A firm favourite with viewers, Monty's infectious enthusiasm for plants, attention to the finer details of gardening technique and easy charm have seen the ratings soar. Here Monty invites us into the garden at Longmeadow, to show us how he created this beautiful garden, and how we can do the same in our own. Following the cycle of the seasons, *Gardening at Longmeadow* will introduce readers to the garden from the earliest snowdrops of January through the first splashes of colour in the Spring Garden, the electric summer displays of the Jewel Garden, the autumn harvest in the orchard, and on to a Christmas feast sourced from the vegetable gardens. Describing the magic of each area at different times of the year, Monty will explain the basics of what to do when and how to get the most from each plant. He'll talk through the essential techniques and more complex processes, accompanied by easy-to-follow, step-by-step photography. Longmeadow is a gardeners' garden, but this will be a book for gardening

*Using Lady Morgan's The Wild Irish Girl as his

that nineteenth-century debates over what

revolved around representations of Irishness,

genealogy of this development in fiction,  
political discourse, and the popular press,  
from Edgeworth's Castle Rackrent through  
Trollope's Irish novels, focusing on the pivotal  
period from 1806 through the 1870s.*

*Assessing Competencies for Social and Emotional Learning explores the conceptualization, development, and application of assessments of competencies and contextual factors related to social and emotional learning (SEL). As programs designed to teach students social and emotional competencies are being adopted at an ever-increasing rate, new measurements are needed to understand their impact on student attitudes, behaviors, and academic performance. This book integrates standards of fairness, reliability, and validity, and lessons learned from personality and attitude assessment to facilitate the principled development and use of SEL assessments. Education professionals, assessment developers, and researchers will be better prepared to systematically develop and evaluate measures of social and emotional competencies.*

This book explores the Pentecostal and charismatic movements, tracing their development and their variety. Hocken shows how these movements of the Holy Spirit, both outside the mainline churches and as renewal currents within the churches, can be understood as mutually challenging and as complementary. The similarities and the differences are significant. The Messianic Jewish movement possesses elements of both the new and the old. Addressing the issues of modernity and globalization, this book explores major phenomena in contemporary Christianity including the relationship between the new churches and entrepreneurial capitalism.

Chainsaw Manual for Homeowners

**About this book: A chainsaw is arguably the most effective tool a person can use to fell trees and clear brush. They're effective, efficient, portable, and can be used in all types**

**of settings. In short, chainsaws are the best teammate a sawyer can have when tasked with felling, bucking, and limbing trees. However, keeping a chainsaw running at its fullest potential requires a lot of attention to detail during routine maintenance. As Abraham Lincoln is quoted as saying, "give me six hours to chop down a tree and I will spend the first four sharpening the axe." Thankfully, we're now a far cry from resorting to axes to take down and process trees, but the principle still holds true. You have enough to worry about when operating your chainsaw. Your saw's maintenance shouldn't be one of them. The Comprehensive Chainsaw Maintenance Guidebook is your one-stop source for all the guidance, tips, and tricks you will need to properly maintain your chainsaw and keep it running at peak performance for years to come. About the author: Steven first learned the basic principles of chainsaw safety, operation, troubleshooting, and maintenance while on an AmeriCorps conservation crew. He went on to sharpen his saw skills while fighting wildfires as a lead sawyer on a fuels crew with the Bureau of Land Management. While with the BLM, he also gained valuable experience as a lead sawyer on a dedicated six-man saw team as part of a twenty-man hand crew. Steven is partial to the medium and larger displacement Stihl saws as those are what he used most during his work experience. His favorites are the full wrap MS 362, 044, and MS 461 models using 22-24" bars for their ability to cut through**

With an additional section devoted to chainsaw types, potential buyers can also assess which size and type of chainsaw best meets their needs. Also included is an appendix that has useful technical information and identifies the parts of a chainsaw and how each functions.**
