Brevity is the soul of beauty in these tiny masterworks of short short fiction Gorgeously translated by Lydia Davis, the miniature stories of A. L. Snijders might concern a lost shoe, a visit with a bat, fears of travel, a dream of a man who has lost a glass eye: uniting them is their concision and their vivacity. Lydia Davis in her introduction delves into her fascination with the pleasures and challenges of translating from a language relatively new to her. She also extols Snijders's "straightforward approach to storytelling, his modesty and his thoughtfulness." Selected from many hundreds in the original Dutch, the stories gathered here—humorous, or bizarre, or comfortingly homely—are something like daybook entries, novels-in-brief, philosophical meditations, or events recreated from life, but—inhabiting the borderland between fiction and reality—might best be described as autobiographical mini-fables. This morning at 11:30, in the full sun, I go up into the hayloft where I haven't been for years. I climb over boxes and shelving, and open the door. A frightened owl flies straight at me, dead quiet, as quiet as a shadow can fly, I look into his eyes—he's a large owl, it's not strange that I'm frightened too, we frighten each other. I myself thought that owls never move in the daytime. What the owl thinks about me, I don't know.

INSTANT NEW YORK TIMES BESTSELLER "Fast and thrilling . . . Life Undercover reads as if a John le Carré character landed in Eat Pray Love." —The New York Times Amaryllis Fox's riveting memoir tells the story of her ten years in the most elite clandestine ops unit of the CIA, hunting the world's most dangerous terrorists in sixteen countries while marrying and giving birth to a daughter Amaryllis Fox was in her last year as an undergraduate at Oxford studying theology and international law when her writing mentor Daniel Pearl was captured and beheaded. Galvanized by this brutality, Fox applied to a master's program in conflict and terrorism at Georgetown's School of Foreign Service, where she created an algorithm that predicted, with uncanny certainty, the likelihood of a terrorist cell arising in any village around the world. At twenty-one, she was recruited by the CIA. Her first assignment was reading and analyzing hundreds of classified cables a day from foreign governments and synthesizing them into daily briefs for the president. Her next assignment was at the Iraq desk in the Counterterrorism center. At twenty-two, she was fast-tracked into advanced operations training, sent from Langley to "the Farm," where she lived for six months in a simulated world learning how to use a Glock, how to get out of flexicuffs while locked in the trunk of a car, how to withstand torture, and the best ways to commit suicide in case of captivity. At the end of this training she was deployed as a spy under non-official cover--the most difficult and coveted job in the field as an art dealer specializing in tribal and indigenous art and sent to infiltrate terrorist networks in remote areas of the Middle East and Asia. Life Undercover is exhilarating, intimate, fiercely intelligent--an impossible to put down record of an extraordinary life, and of Amaryllis Fox's astonishing courage and passion.

Set against the wild beauty of Montana as a woman attempts to heal from a devastating accident, this generational saga from the award-winning author of The Widow Nash is a heartfelt examination of how the deep bonds of family echo throughout our lives. For Polly, the small town of Livingston, Montana, is a land charmed by raw, natural beauty and a close network of family that extends back generations. But the summer of 2002 finds Polly at a crossroads: a recent head injury has scattered her perception of the present, bringing to the surface long-forgotten events. As Polly's many relatives arrive for a family reunion during the Fourth of July holiday, a beloved friend goes missing on the Yellowstone River. Search parties comb the river as carefully as Polly combs her mind, and over the course of one fateful week, Polly arrives at a deeper understanding of herself and her larger-than-life relatives. Weaving together the past and the present, from the shores of Long Island Sound to the landscape of Montana, The Center of Everything examines with profound insight the memories and touchstones that make up a life and what we must endure along the way.

In 1932, she began holding secret meetings in her apartment—a small band of political activists that by 1940 had grown into the largest underground resistance group in Berlin. She recruited working-class Germans into the resistance, helped Jews escape, plotted acts of sabotage, and collaborated in writing leaflets that denounced Hitler and called for revolution. Her coconspirators circulated through Berlin under the cover of night, slipping the leaflets into mailboxes, public restrooms, phone booths. When the first shots of the Second World War were fired, she became a spy, couriering top-secret intelligence to the Allies. On the eve of her escape to Sweden, she was ambushed by the Gestapo. At a Nazi military court, a panel of five judges sentenced her to six years at a prison camp, but Hitler overruled the decision and ordered her execution. On February 16, 1943, she was strapped to a guillotine and beheaded. Historians identify Mildred Harnack as the only American in the leadership of the German resistance, yet her remarkable story has remained almost unknown until now. Harnack's great-great-niece Rebecca Donner draws on her extensive archival research in Germany, Russia, England, and the U.S. as well as newly uncovered documents in her family archive to produce this astonishing work of narrative nonfiction. Fusing elements of biography, real-life political thriller, and scholarly detective story, Donner brilliantly interweaves letters, diary entries, notes smuggled out of a Berlin prison, survivors' testimony, and a trove of declassified intelligence documents into a powerful, epic story, reconstructing the moral courage of an enigmatic woman nearly erased by history.

Dr. Dianne Ashworth's I Spy with My Bionic Eye is an enlightening and uplifting 'real life' story of a woman's journey, beginning with childhood when she was diagnosed as being myopic, or short-sighted; required to wear eyeglasses with 'coke bottle' lenses, she was alienated from other kids, which crushed her self-esteem. As she grew, she became more creative in dealing not only with her poor vision, but her vision of the world, as well. In her early adult years, she was dealt a blow with a new diagnosis of retinitis pigmentosa, which meant she would soon lose her sight. Dr. Ashworth shares her amazing story as she forged ahead to make a life for her family as a single mother, and later became the first participant in a one-of-a-kind prototype bionic eye clinical trial in her homeland of Australia in May 2012. Although the results of this trial thus far have been incredible, there is much more work to be done. Let us all hope that funding becomes available to continue the outstanding work of all those involved.

A BEST BOOK OF 2021 FOR THE GUARDIAN * FINANCIAL TIMES * TIMES LITERARY SUPPLEMENT * MINNEAPOLIS STAR TRIBUNE * THE TIMES Hailed as a remarkable literary discovery, a lost novel of heart-stopping intensity and harrowing absurdity about flight and persecution in 1930s Germany Berlin, November 1938. Jewish shops have been ransacked and looted, synagogues destroyed. As storm troopers pound on his door, Otto Silbermann, a respected businessman who fought for Germany in the Great War, is forced to sneak out the back of his own home. Turned away from establishments he had long patronized, and fearful of being exposed as a Jew despite his Aryan looks, he boards a train. And then another. And another . . . until his flight becomes a frantic odyssey across Germany, as he searches first for information, then for help, and finally for escape. His travels bring him face-to-face with waiters and conductors, officials and fellow outcasts, seductive women and vicious thieves, a few of whom disapprove of the regime while the rest embrace it wholeheartedly. Clinging to his existence as it was just days before, Silbermann refuses to believe what is happening even as he is beset by opportunists, betrayed by associates, and bereft of family, friends, and fortune. As his world collapses around him, he is forced to concede that his nightmare is all too real. Twenty-three-year-old Ulrich Boschwitz wrote *The Passenger* at breakneck speed in 1938, fresh in the wake of the Kristallnacht pogroms, and his prose flies at the same pace. Taut, immediate, infused with acerbic Kafkaesque humor, *The Passenger* is an indelible portrait of a man and a society careening out of control.

When Duffy the driver is told to keep on going until the lights change, that's exactly what he does - so he doesn't even notice that he's driven the Little Red Train right under the Channel to France!

Fareham Revisited started out as a poem, which Michael Stephenson was inspired to write when he was reflecting on how much his home town had changed since the 1950s and 1960s. The poem and its sentiments struck a chord with so many

people that he decided to write a book about Fareham that would evoke more of these memories. The book was privately published in 2004. This new revised and expanded edition will delight anyone who remembers the town in its heyday - and will also intrigue newcomers. Part-memoir and part-history, Fareham Revisited perfectly captures the allure of the shops and cafés along the 'Golden Mile', the alleyways or 'drokes', the old cottages, the market with its livestock, the coal barges at the Quay and the well-known characters, including dairy boss Tom Parker who drove around Fareham in a four-horse-power carriage, though his milkmen still used the horse-and-cart. For bus and railway enthusiasts this, too, is the perfect book, as the author casts an expert eye on the bus companies that plied their trade in Fareham, with their distinctive livery, and remembers the last days of steam trains, of which he had a privileged view, as the house in which his family lived was next to the railway line.

The April 1945 journey of FDR's funeral train became a thousand-mile odyssey, fraught with heartbreak and scandal. As it passed through the night, few of the grieving onlookers gave thought to what might be happening behind the Pullman shades, where women whispered and men tossed back highballs. Inside was a Soviet spy, a newly widowed Eleanor Roosevelt, who had just discovered that her husband's mistress was in the room with him when he died, all the Supreme Court justices, and incoming president Harry S. Truman who was scrambling to learn secrets FDR had never shared with him. Weaving together information from long-forgotten diaries and declassified Secret Service documents, journalist and historian Robert Klara enters the private world on board that famous train. He chronicles the three days during which the country grieved and despaired as never before, and a new president hammered out the policies that would galvanize a country in mourning and win the Second World War.

NOW A MINISERIES ON BBC AMERICA STARRING DAVID TENNANT An autumn evening in 1937. A German engineer arrives at the Warsaw railway station. Tonight, he will be with his Polish mistress; tomorrow, at a workers' bar in the city's factory district, he will meet with the military attaché from the French embassy. Information will be exchanged for money. So begins *The Spies of Warsaw*, the brilliant new novel by Alan Furst, lauded by *The New York Times* as "America's preeminent spy novelist." War is coming to Europe. French and German intelligence operatives are locked in a life-and-death struggle on the espionage battlefield. At the French embassy, the new military attaché, Colonel Jean-Francois Mercier, a decorated hero of the 1914 war, is drawn into a world of abduction, betrayal, and intrigue in the diplomatic salons and back alleys of Warsaw. At the same time, the handsome aristocrat finds himself in a passionate love affair with a Parisian woman of Polish heritage, a lawyer for the League of Nations. Colonel Mercier must work in the shadows, amid an extraordinary cast of venal and dangerous characters—Colonel Anton Vyborg of Polish military intelligence; the mysterious and sophisticated Dr. Lapp, senior German Abwehr officer in Warsaw; Malka and Viktor Rozen, at work for the Russian secret service; and Mercier's brutal and vindictive opponent, Major August Voss of SS counterintelligence. And there are many more, some known to Mercier as spies, some never to be revealed. *The Houston Chronicle* has described Furst as "the greatest living writer of espionage fiction." *The Spies of Warsaw* is his finest novel to date—the history precise, the writing evocative and powerful, more a novel about spies than a spy novel, exciting, atmospheric, erotic, and impossible to put down. "As close to heaven as popular fiction can get." —*Los Angeles Times*, about *The Foreign Correspondent* "What gleams on the surface in Furst's books is his vivid, precise evocation of mood, time, place, a letter-perfect re-creation of the quotidian details of World War II Europe that wraps around us like the rich fug of a wartime railway station." —*Time* "A rich, deeply moving novel of suspense that is equal parts espionage thriller, European history and love story." —Herbert Mitgang, *The New York Times*, about *Dark Star* "Some books you read. Others you live. They seep into your dreams and haunt your waking hours until eventually they seem the stuff of memory and experience. Such are the novels of Alan Furst, who uses the shadowy world of espionage to illuminate history and politics with immediacy." —Nancy Pate, *Orlando Sentinel*

The Center of Everything

The True Story of the American Woman at the Heart of the German Resistance to Hitler

This book provides an in-depth exploration of trains and train travel. Letherby and Reynolds have conducted extensive research with all those concerned with trains, from leisure travelers and enthusiasts to railway workers and commuters. Overturning conventional wisdom, they show that the train has a social life in and of itself and is not simply a way to get from A to B. The book also looks at the depiction of train travel through cultural media, such as music, films, books and art. The authors consider the personal politics of train travel and political discussion surrounding the railways, as well as the relationship trains have to leisure and work. The media often paints a gloomy picture of the railways and there is a general view that the romance of train travel ended with the steam locomotive. Letherby and Reynolds show that this is far from the case.

*In his new novel, Paulo Coelho, bestselling author of *The Alchemist* and *Adultery*, brings to life one of history's most enigmatic women: Mata Hari. HER ONLY CRIME WAS TO BE AN INDEPENDENT WOMAN When Mata Hari arrived in Paris she was penniless. Within months she was the most celebrated woman in the city. As a dancer, she shocked and delighted audiences; as a courtesan, she bewitched the era's richest and most powerful men. But as paranoia consumed a country at war, Mata Hari's lifestyle brought her under suspicion. In 1917, she was arrested in her hotel room on the Champs Elysees, and accused of espionage. Told in Mata Hari's voice through her final letter, *The Spy* is the unforgettable story of a woman who dared to defy convention and who paid the ultimate price. This text stimulates children's observational skills and makes learning about train journeys fun.*
