*challenges on use, reuse and conservation of water. It also discusses issues of water resources such as water quantity, quality, management and planning for the benefits of water resource scientists, faculties, policy makers, stake holders working in the water resources planning and management. The research content discussed in the book will be helpful for engineers to solve practical day to day problems related to water and environmental engineering.*

*\* The most-referenced guidebook for Idaho climbers \* Includes the trails, approaches, and access information for Idaho's peaks Whether it's a technical ascent of the great west wall of Elephants Perch or a scramble to the summit of 12,662-foot Mount Borah, here's your key to high adventure in Idaho. At each new printing, Tom Lopez has updated and expanded his encyclopedic guide to more than 800 summits. All the features that made the first edition so popular are here -- detailed route descriptions, difficulty ratings, summit heights, access information to hundreds of roads and trails, extensive sections on history and geology, and much, much more. You won't find a more thorough guide anywhere! Learn more about climbing in Idaho by visiting the author's website: [www.idahoacimbingguide.com](http://www.idahoacimbingguide.com).*

## *Snake River*

The rivers of America flow from mountains, forests, and grasslands with astonishing beauty, essential to all life. Many of the best of these streams have been safeguarded under the National Wild and Scenic Rivers Act of 1968--America's premier program for the protection of our finest natural waterways. Wild and Scenic Rivers celebrates this creative conservation initiative with 160 stunning photographs and a lively history involving citizen activists, scientists, dedicated public officials, and enlightened political leaders. In commemoration of the 50th anniversary of the National Wild and Scenic Rivers Act, award-winning author and photographer Tim Palmer illuminates the values of this irreplaceable system of free-flowing streams, probes its problems, and addresses its future. With a depth of experience dating almost to the inception of the wild and scenic rivers program, Palmer has captured the splendor and essence of our most extraordinary rivers with his camera, and he has told their remarkable story as no one else could do.

Add fun, history, and jaw-dropping natural wonders to your southwestern road trip with RoadTrip America's Arizona and New Mexico: 25 Scenic Side Trips, each one beginning and ending at an Interstate highway and drivable within a day. Full-color maps and photographs illustrate easy-to-follow scenic routes through breathtaking

WINNER OF THE WAINWRIGHT PRIZE FOR WRITING ON GLOBAL  
CONSERVATION Winner of the Richard Jefferies Society and White Horse Book  
Shop Literary Prize 'splendid' —Guardian 'visionary' —New Statesman Rebirding  
takes the long view of Britain's wildlife decline, from the early taming of our  
landscape and its long-lost elephants and rhinos, to fenland drainage, the  
removal of cornerstone species such as wild cattle, horses, beavers and boar –  
and forward in time to the intensification of our modern landscapes and the  
collapse of invertebrate populations. It looks at key reasons why species are  
vanishing, as our landscapes become ever more tamed and less diverse, with  
wildlife trapped in tiny pockets of habitat. It explores how Britain has, uniquely,  
relied on modifying farmland, rather than restoring ecosystems, in a failing  
attempt to halt wildlife decline. The irony is that 94% of Britain is not built upon at  
all. And with more nature-loving voices than any European country, we should in

fact have the best, not the most impoverished, wildlife on our continent. Especially when the rural economics of our game estates, and upland farms, are among the worst in Europe. Britain is blessed with all the space it needs for an epic wildlife recovery. The deer estates of the Scottish Highlands are twice the size of Yellowstone National Park. Snowdonia is larger than the Maasai Mara. The problem in Britain is not a lack of space. It is that our precious space is uniquely wasted – not only for wildlife, but for people’s jobs and rural futures too. Rebirding maps out how we might finally turn things around: rewilding our national parks, restoring natural ecosystems and allowing our wildlife a far richer future. In doing so, an entirely new sector of rural jobs would be created; finally bringing Britain’s dying rural landscapes and failing economies back to life. ***All royalties from the sale of this book are being donated to Warfighter Advance, <http://www.warfighteradvance.org> Moral Injury has been called the “signature wound” of today’s wars. It is also as old as the human record of war, as evidenced in the ancient war epics of Greece, India, and the Middle East. But what exactly is Moral Injury? What are its causes and consequences? What can we do to prevent or limit its occurrence among those we send to war? And, above all, what can we do to help heal afflicted warriors? This landmark volume provides an invaluable resource for those looking for answers to these questions. Gathered here are some of the most far-ranging, authoritative, and accessible writings to date on the topic of Moral Injury. Contributors come from the fields of psychology, theology, philosophy, psychiatry, law, journalism, neuropsychiatry, classics, poetry, and, of course, the profession of arms. Their voices find common cause in informing the growing, international conversation on war and war’s deepest and most enduring invisible wound. Few may want to have this myth-challenging, truth-telling conversation, but it is one we must have if we truly wish to help those we send to fight our wars.***

***The nation's rivers connect mountains to sea, communities to natural places, and people to wildlife. America's Wild & Scenic River system recognizes these values. Paddling America provides descriptions for paddling and exploring 50 Wild and Scenic Rivers across the country. Woven throughout the river descriptions will be small anecdotal sidebars touching on the history of the Wild & Scenic Rivers Act, the adventurers themselves, and tips for paddling. Each chapter will contain one map, specifications in accordance with paddling guidelines including GPS coordinates, put-in/takeout information, an overview of the paddle, miles and directions, full-color photos, and sidebars.***
