### ***Guide, Pt. 1***

Much about this third edition of *A Guide to Treatments That Work* remains as it was in the first and second editions. Like its predecessors, this edition offers detailed evaluative reviews of current research on empirically supported treatments, written in most instances by clinical psychologists and psychiatrists who are major contributors to that literature. Similarly, the standards by which the authors were asked to evaluate the methodological rigor of the research on treatments have also remained the same. As before, they provide information on the quality of the research on treatment efficacy

This volume is an unusually large volume that includes nearly all of the Old Testament prophets, their teachings and warnings to their people, and their prophecies of the coming of the Messiah and the latter days. It covers the period of the Bible from the end of King Solomon's reign through the end of the Old Testament, including the ministries of Jonah, Micah, Hosea, Amos, Joel, Isaiah, Jeremiah, Ezekiel, Esther, Daniel, Ezra, Haggai, Nehemiah, Zechariah, and Malachi (Elijah and

Then finally, we read of the Intertestamental Period between the ministry of Malachi and the rise of John the Baptist to open the New Testament. The cover features a classic painting of Daniel in the lion's den, painted by Riviere in 1890.

This book is great for bible studies as a family and for individual studies between you and the Lord. It contains various ways to study as well. There is the traditional concordance composed of 90 words, favorite scriptures with testimonials as well as devotionals which
