The IMF's surveillance framework encompasses a new focus on multilateral issues, and especially the spillovers from one economy onto others. This third Annual Report of the Independent Evaluation Office describes ongoing and recently completed evaluations and discusses additions to IEO's work plan. General lessons pertaining to IMF surveillance emerging from recent evaluations are highlighted and discussed, namely the need for better integration of financial and macroeconomic factors as well as bilateral and multilateral policy analysis and policy prescriptions. The findings of an External Evaluation Panel charged with assessing the work of the IEO are also covered.

This independent evaluation of the IMF's role and performance in the determination and use of aid to low-income countries in sub-Saharan Africa is presented at a ground-level view. Country performance has improved in many sub-Saharan Africa countries over the period, and the report details the role of the IMF's programs, as well as perceptions of that role. The report is an important contribution to following through on the IMF's commitment to its Poverty Reduction Strategy and makes three main recommendations for improving the coherence—actual and perceived—of the IMF's policies and actions relating to aid to sub-Saharan Africa going forward.

Surveillance is a core function of the IMF, a critical element of its toolkit for promoting global financial stability. Multilateral surveillance brings into analysis economic linkages and policy spillovers between countries, as well as international economic and market developments. This evaluation report covers the IMF's multilateral surveillance activities during 2000–05 and addresses a variety of questions: Do the issues analyzed under multilateral surveillance reflect the IMF's comparative advantage? Are these issues relevant and timely? How well are macroeconomic and capital market surveillance combined in the analysis of relevant issues? How well are the messages of multilateral surveillance presented? And does multilateral surveillance have an impact on country policies? The evaluation concludes with recommendations for the IMF.

In 1999, the IMF and the World Bank adopted a new framework for supporting economic reform in low-income member countries to achieve the objectives of poverty reduction and economic growth. The framework consists of two key elements: country-authored Poverty Reduction Strategy Papers, drawing on broad-based consultations with key stakeholder groups; and a vehicle for the provision of IMF concessional lending, the Poverty Reduction and Growth Facility. This evaluation takes stock of progress to date and attempts to identify shortcomings that may require course corrections in the design and implementation of the initiative.

The Independent Evaluation Office (IEO) evaluation on International Reserves: IMF Concerns and Country

Perspectives was discussed by the Board in December 2012. This evaluation examined the IMF's analysis of the effect of reserves on the stability of the international monetary system and its advice on reserve adequacy assessments in the context of bilateral surveillance. In the multilateral context, the evaluation acknowledged the IMF's broader work stream on the international monetary system but noted that this work had not sufficiently informed the analysis and recommendations regarding reserves. The IEO evaluation of The Role of the IMF as Trusted Advisor was discussed by the Board in February 2013. This evaluation found that perceptions of the IMF had improved, but that they varied markedly by region and country type. Recognizing that there will always be an inherent tension between the IMF's roles as a global watchdog and as a trusted advisor to member country authorities, the evaluation report explored how the IMF could sustain the more positive image it had achieved in the aftermath of the recent global crisis. The evaluation found that among key challenges facing the IMF were improving the value added and relevance of IMF advice and overcoming the perception of a lack of even-handedness. Various institutes and associations across the country conduct Science Olympiads & Competitions for Class 8 students. This specialized book has been designed to provide relevant and the best study material for the preparation for Class 8 students preparing for Science Olympiads and competitions. This book has been designed to give the students an insight and proficiency into almost all the areas of Science asked in various Science Olympiads. The present book has been divided into 16 chapters namely Microorganisms: Friends & Foe, Synthetic Fibres & Plastics, Materials: Metals & Non-Metals, Coal & Petroleum, Combustion & Flame, Conservation of Plants & Animals, Cell-Structure & Functions, Reproduction in Animals, Force & Pressure, Friction, Sound, Chemical Effects of Electric Current, Some Natural Phenomena, Light, Stars & the Solar System and Pollution of Air & Water. The book contains complete theoretical content exactly on the pattern of various Science Olympiads with sufficient number of solved examples set according to the pattern and level of Indian National Science Olympiads. Exercises have also been given in the book. Problems from recently held Olympiads have also been given in the book. The book also

contains five practice sets designed on the lines of the questions asked in the precious years' Science Olympiads questions. Also answers & explanations for the practice sets have been provided at the end. As the book contains ample study as well as practice material, it for sure will help aspirants score high in the upcoming Science Olympiads and competitions for Class 8 students.

The IMF is charged by its Articles of Agreement and a 1977 Executive Board Decision to exercise surveillance over the international monetary system and members' exchange rate policies. The overriding question addressed by this evaluation is whether, over the 1999-2005 period, the IMF fulfilled this core responsibility. The main finding is that the IMF was simply not as effective as it needs to be in both its analysis and advice and in its dialogue with member countries. The evidence supporting this conclusion, along with other key findings, is set out in this report. The report also presents a detailed set of recommendations that could go a long way in improving the quality and effectiveness of IMF surveillance.

The IEO of the IMF was created in 2000 to enhance the learning culture of the IMF, to build the IMF's external credibility by undertaking objective evaluations in a transparent manner, to provide independent feedback to the Executive Board in its governance and oversight responsibilities, and to promote greater understanding of the work of the IMF among its members and the broader public. In the period October 2005-February 2006, the Evaluation Panel assessed how well the IEO meets these objectives, asking at the outset whether the IMF needs an IEO and whether the existing office is adequately independent. The Panel concludes that the IEO has served the IMF well but identifies certain weaknesses and makes recommendations to the IEO and the IMF to address them.

This paper presents a forward-looking implementation plan for the above-cited Independent Evaluation Office (IEO) report. During the Board discussion, Executive Directors noted that the report "provides a balanced assessment of the quality, relevance, management, and utilization of IMF research" and "were particularly encouraged by the overall finding that a large number of IMF analytical papers are of high quality, widely read, and appreciated by country authorities and the research community." At the same time, they noted the finding that "IMF research is of uneven quality and perceived to be message driven." Directors therefore saw scope for "enhancing the relevance and technical quality of the analytical work, openness to alternative points of view, and coordination of research activities across the institution."

Much has been written on the human rights relevance and impacts of the policies and activities of the World Bank and IMF --or International Financial Institutions (IFIs). However while many of the human rights-based critiques of the Bank and Fund purport to link broadly defined reforms with obligations under international human rights law, rarely has this been carried out through a rigorous and in-depth application of international legal rules governing the proper interpretation of the institutions' mandates, and rarely have the policy consequences and practical possibilities for human rights integration been explored in any detail. These are the principal gaps that the present book aims to fill, by reference to a sample of the IFIs' most important and controversial contemporary activities.
