The questions analysed in this book are all based on past STEP questions and each question is followed by a comment and a full solution. The comments direct the reader's attention to key points and put the question in its true mathematical context. The solutions point students to the methodology required to address advanced mathematical problems critically and independently. The front lines of World War I may be in the battle-scarred fields of France, but inside this dugout the essence of England is intimately mixed with the hard-packed dirt of the walls and floor. Captain Stanhope will stand no shirking from the men of his command-- or from himself. After three years in and around the trenches, he is utterly exhausted and absolutely terrified. When Raleigh, a junior schoolmate from home, gets posted to Stanhope's company, the poor man is badly shaken. Hero worship is for sunny afternoons on the cricket pitch and leisurely discussions of Keats-- not for the horrors of war. Stanhope wants to believe Raleigh is just another soldier in the crowd. He tries to lose sight of him among Osborne, the former schoolmaster, Trotter, the proud gardener showing off photos of his prize

hollyhocks, and the good-humored Hardy. Yet, when the long-anticipated enemy attack explodes around them, Stanhope and Raleigh must come to terms with the age-old tragedy of battle.

A lot of people wonder how Chinese parents raise such stereotypically successful kids. They wonder what Chinese parents do to produce so many math whizzes and music prodigies, what it's like inside the family, and whether they could do it too. Well, I can tell them, because I've done it... Amy Chua's daughters, Sophia and Louisa (Lulu) were polite, interesting and helpful, they had perfect school marks and exceptional musical abilities. The Chinese-parenting model certainly seemed to produce results. But what happens when you do not tolerate disobedience and are confronted by a screaming child who would sooner freeze outside in the cold than be forced to play the piano? Battle Hymn of the Tiger Mother is a story about a mother, two daughters, and two dogs. It was supposed to be a story of how Chinese parents are better at raising kids than Western ones. But instead, it's about a bitter clash of cultures, a fleeting taste of glory, and how you can be humbled by a thirteen-year-old. Witty, entertaining and provocative, this is a unique and important book that will transform your perspective of parenting forever.
