“ The City of the Sun ” is a philosophical work by the Italian Dominican philosopher Tommaso Campanella. It is an important early utopian work. The book is presented as a dialogue between "a Grandmaster of the Knights Hospitaller and a Genoese Sea-Captain". Inspired by Plato's Republic and the description of Atlantis in Timaeus, it describes a theocratic society where goods, women and children are held in common. One of the most significant aspects of this community is the distribution of work. Once again Campanella engages in an explicit polemic with Aristotle, who had excluded artisans, peasants and those involved in manual labor from the category of full citizenship and from the highest levels of virtue.

“ These tales reinvigorate... the short story with a jittery sense of adventure. ” —San Francisco Chronicle Dave Eggers—Pulitzer Prize finalist for A Heartbreaking Work of Staggering Genius and author of What Is the What and The Circle, among other books—demonstrates his mastery of the short story. "Another" "What It Means When a Crowd in a Faraway Nation Takes a Soldier Representing Your Own Nation, Shoots Him, Drags Him from His Vehicle and Then Mutilates Him in the Dust" "The Only Meaning of the Oil-Wet Water" "On Wanting to Have Three Walls Up Before She Gets Home" "Climbing to the Window, Pretending to Dance" "She Waits, Seething, Blooming" "Quiet" "Your Mother and I" "Naveed" "Notes for a Story of a Man Who Will Not Die Alone" "About the Man Who Began Flying After Meeting Her" "Up the Mountain Coming Down Slowly" "After I Was Thrown in the River and Before I Drowned"

This cultural study of modern dance icon Isadora Duncan is the first to place her within the thought, politics and art of her time. Duncan's dancing earned her international fame and influenced generations of American girls and women, yet the romantic myth that surrounds her has left some questions unanswered: What did her audiences see on stage, and how did they respond? What dreams and fears of theirs did she play out? Why, in short, was Duncan's dancing so compelling? First published in 1995 and now back in print, *Done into Dance* reveals Duncan enmeshed in social and cultural currents of her time — the moralism of the Progressive Era, the artistic radicalism of prewar Greenwich Village, the xenophobia of the 1920s, her association with feminism and her racial notion of "Americanness."

The ancient Greek lyric poet Simonides of Keos was the first poet in the Western tradition to take money for poetic composition. From this starting point, Anne Carson launches an exploration, poetic in its own right, of the idea of poetic economy. She offers a reading of certain of Simonides' texts and aligns these with writings of the modern Romanian poet Paul Celan, a Jew and survivor of the Holocaust, whose "economies" of language are notorious. Asking such questions as, What is lost when words are wasted? and Who profits when words are saved? Carson reveals the two poets' striking commonalities. In Carson's view Simonides and Celan share a similar mentality or disposition toward the world, language and the work of the poet. *Economy of the Unlost* begins by showing how each of the two poets stands in a state of alienation between two worlds. In Simonides' case, the gift economy of fifth-century b.c. Greece was giving way to one based on money and commodities, while Celan's life spanned pre- and post-Holocaust worlds, and he himself, writing in German, became estranged from his native language. Carson goes on to consider various aspects of the two poets' techniques for coming to grips with the invisible through the visible world. A focus on the genre of the epitaph grants insights into the kinds of exchange the poets envision between the living and the dead. Assessing the impact on Simonidean composition of the material fact of inscription on stone, Carson suggests that a need for brevity influenced the exactitude and clarity of Simonides' style, and proposes a comparison with Celan's

interest in the "negative design" of printmaking: both poets, though in different ways, employ a kind of negative image making, cutting away all that is superfluous. This book's juxtaposition of the two poets illuminates their differences--Simonides' fundamental faith in the power of the word, Celan's ultimate despair--as well as their similarities; it provides fertile ground for the virtuosic interplay of Carson's scholarship and her poetic sensibility.

This ambitious and vivid study in six volumes explores the journey of a single, electrifying story, from its first incarnation in a medieval French poem through its prolific rebirth in the nineteenth and twentieth centuries. The Juggler of Notre Dame tells how an entertainer abandons the world to join a monastery, but is suspected of blasphemy after dancing his devotion before a statue of the Madonna in the crypt; he is saved when the statue, delighted by his skill, miraculously comes to life. Jan Ziolkowski tracks the poem from its medieval roots to its rediscovery in late nineteenth-century Paris, before its translation into English in Britain and the United States. The visual influence of the tale on Gothic revivalism and vice versa in America is carefully documented with lavish and inventive illustrations, and Ziolkowski concludes with an examination of the explosion of interest in The Juggler of Notre Dame in the twentieth century and its place in mass culture today. In this volume Jan Ziolkowski follows the juggler of Notre Dame as he cavorts through new media, including radio, television, and film, becoming closely associated with Christmas and embedded in children's literature. Presented with great clarity and simplicity, Ziolkowski's work is accessible to the general reader, while its many new discoveries will be valuable to academics in such fields and disciplines as medieval studies, medievalism, philology, literary history, art history, folklore, performance studies, and reception studies.

Fielding Bliss has never forgotten the summer of 1984: the year a heat wave scorched Breathed, Ohio. The year he became friends with the devil. Sal seems to appear out of nowhere - a bruised and tattered thirteen-year-old boy claiming to be the devil himself answering an invitation. Fielding Bliss, the son of a local prosecutor, brings him home where he's welcomed into the Bliss family, assuming he's a runaway from a nearby farm town. When word spreads that the devil has come to Breathed, not everyone is

happy to welcome this self-proclaimed fallen angel. Murmurs follow him and tensions rise, along with the temperatures as an unbearable heat wave rolls into town right along with him. As strange accidents start to occur, riled by the feverish heat, some in the town start to believe that Sal is exactly who he claims to be. While the Bliss family wrestles with their own personal demons, a fanatic drives the town to the brink of a catastrophe that will change this sleepy Ohio backwater forever.

Volume 4 examines the famous Le jongleur de Notre Dame by the French composer Jules Massenet, which took Europe by storm after premiering in 1902 and then crossed the Atlantic to the impresario Oscar Hammerstein and the diva Mary Garden, who gave the opera new legs as a female juggler. Presented with great clarity and simplicity, Ziolkowski's work is accessible to the general reader, while its many new discoveries will be valuable to academics in such fields and disciplines as medieval studies, medievalism, philology, literary history, art history, folklore, performance studies, and reception studies.

Would you like to learn to pray like a medieval Christian? In Mary and the Art of Prayer, Rachel Fulton Brown traces the history of the medieval practice of praising Mary through the complex of prayers known as the Hours of the Virgin. More than just a work of comprehensive historical scholarship, the book asks readers to immerse themselves in the experience of believing in and praying to Mary. Mary and the Art of Prayer crosses the boundaries that modern scholars typically place between observation and experience, between the world of provable facts and the world of imagination, suggesting what it would have been like for medieval Christians to encounter Mary in prayer. Mary and the Art of Prayer opens with a history of the devotion of the Hours or "Little Office" of the Virgin. It then guides readers in

the practice of saying this Office, including its invitatory (Ave Maria), antiphons, psalms, lessons, and prayers. The book works on several levels at once. It provides a new methodology for thinking about devotion and prayer; a new appreciation of the scope of and audience for the Hours of the Virgin; a new understanding of how Mary functions theologically and devotionally; and a new reading of sources not previously taken into account. A courageous and moving work, it will transform our ideas of what scholarship is and what it can accomplish.

Discusses renowned masters including Roberto Rossellini and Federico Fellini, as well as directors lesser known outside Italy like Dino Risi and Ettore Scola. The author examines overlooked Italian genre films such as horror movies, comedies, and Westerns, and he also devotes attention to neglected periods like the Fascist era. He illuminates the epic scope of Italian filmmaking, showing it to be a powerful cultural force in Italy and leaving no doubt about its enduring influence abroad. Encompassing the social, political, and technical aspects of the craft, the author recreates the world of Italian cinema.

In the early years of the USSR, socialist festivals--events entailing enormous expense and the deployment of thousands of people--were inaugurated by the Bolsheviks. Avant-garde canvases decorated the streets, workers marched, and elaborate mass spectacles were staged. Why, with a civil war raging and an economy in ruins, did the regime sponsor such spectacles? In this first comprehensive investigation of the way festivals helped build a new political culture, James von Geldern examines the mass spectacles that captured the Bolsheviks' historical vision. Spectacle directors borrowed from a tradition that included tsarist pomp, avant-garde theater, and popular celebrations. They transformed the ideology of revolution into a mythologized sequence of events that provided new foundations for the Bolsheviks' claim to power. What has happened to America, and what's become of the American dream? Behind the self-confident image of world's most influential country, we now see a nation tearing itself apart. The United States may be arguably the world's only superpower, but its internal tensions are a symptom of suffering and division, a condition only exacerbated by the election of President Donald Trump. In this searing account, expatriate journalist Alan Friedman returns after thirty years in Europe and examines the real America through the mouths of its citizens. Set against the backdrop of the 2016 presidential election campaign and the inauguration of President Trump, Friedman tells a vivid story of terrible inequality - from the excesses of Wall Street to the grinding poverty of Mississippi - and explores the issues, from racism and gun control to Obamacare, that have polarised a nation. Drawing on his personal interviews with Trump and with Russia's President Putin, Friedman paints a detailed portrait of the new leader of the free world and explores the real risks of the Trump presidency for America and for the world. Dark and provocative, This Is Not America may just be the most important book of the year.

He makes you laugh, though you can never be quite sure why. He's affable enough, of course, but it's not so much that. He is both a kind of halfwit and a genius, flippant and profound, chaotic and yet possessed of a Zen-like calm. He's easily distracted but tends to hound-dog every thought until he has it by the throat. His conversation is labyrinthine but he is capable of moments of blinding lucidity. The thing is, you can't help but love him. He is Vincenzo Malinconico, an underemployed lawyer whose wife has sort of left him ("he's the kind of man you

marry not once but twice, and leave both times”), whose teenage children worry him to death, and whose profession mostly consists in appearing as if he has one. In this sequel to *I Hadn't Understood*, a Neapolitan mafia boss has been kidnapped by a mild-mannered computer engineer who holds the camorrista responsible for the accidental death of his son. The engineer plans to conduct an impromptu trial on live television during which he will list the various crimes of the accused, sentencing him before a captivated national audience and executing him accordingly. The standoff between law enforcement officers and the kidnapper becomes a tragi-comic reality show. The only hope of a happy ending rests with Vincenzo Malinconico, Neapolitan lawyer, poster-child for the proverbial mid-life crisis, and inveterate flâneur. He hardly has a reputation for decisiveness, but now is called upon to play a decisive role in resolving this drama in course with, hopefully, no loss of life, his own included.

“*On Beckett: Essays and Criticism*” is the first collection of writings about the Nobel Prize-winning author that covers the entire spectrum of his work, and also affords a rare glimpse of the private Beckett. More has been written about Samuel Beckett than about any other writer of this century – countless books and articles dealing with him are in print, and the progression continues geometrically. “*On Beckett*” brings together some of the most perceptive writings from the vast amount of scrutiny that has been lavished on the man; in addition to widely read essays there are contributions from more obscure sources, viewpoints not frequently seen. Together they allow the reader to enter the world of a writer whose work has left an impact on the consciousness of our time perhaps unmatched by that of any other recent creative imagination.

Born in Italy, the first avant-garde of the twentieth century – before Cubism, Dadaism and Surrealism –, Futurism is a major landmark in the history of art and of modern thought. Rather than a school of painting or literature, it was a revolutionary movement whose aim was to create a new awareness and a new approach to the world in general and to art in particular. It embodied the determination to perpetually regenerate man confronted with the progress of technology (electricity, mechanization, telecommunication ...). The Futurists' challenge was to combine all the aspects of modernism within aesthetic creation, re-considering them both in a single dynamic sweep. Ranging from plastic arts to culinary arts, they gave birth to amazing works that would become references for the following avant-gardes, and today, a legacy claimed by many artists. In this reference summing-up, the author reviews the different aesthetic stages of the movement,

from "plastic dynamism" in the 1910s to aeropainting in the 1930s, and examines the relationship, long the object of controversy, between the movement and the Italian Fascist government.

This powerful and lyrical debut novel is to Syria what *The Kite Runner* was to Afghanistan; the story of two girls living eight hundred years apart—a modern-day Syrian refugee seeking safety and an adventurous mapmaker's apprentice—"perfectly aligns with the cultural moment" (*The Providence Journal*) and "shows how interconnected two supposedly opposing worlds can be" (*The New York Times Book Review*). This "beguiling" (*Seattle Times*) and stunning novel begins in the summer of 2011. Nour has just lost her father to cancer, and her mother moves Nour and her sisters from New York City back to Syria to be closer to their family. In order to keep her father's spirit alive as she adjusts to her new home, Nour tells herself their favorite story—the tale of Rawiya, a twelfth-century girl who disguised herself as a boy in order to apprentice herself to a famous mapmaker. But the Syria Nour's parents knew is changing, and it isn't long before the war reaches their quiet Homs neighborhood. When a shell destroys Nour's house and almost takes her life, she and her family are forced to choose: stay and risk more violence or flee across seven countries of the Middle East and North Africa in search of safety—along the very route Rawiya and her mapmaker took eight hundred years before in their quest to chart the world. As Nour's family decides to take the risk, their journey becomes more and more dangerous, until they face a choice that could mean the family will be separated forever. Following alternating timelines and a pair of unforgettable heroines coming of age in perilous times, *The Map of Salt and Stars* is the "magical and heart-wrenching" (*Christian Science Monitor*) story of one girl telling herself the legend of another and learning that, if you listen to your own voice, some things can never be lost.

This is the first unexpurgated English edition of Curzio Malaparte's legendary work *The Skin*. The book begins in 1943, with Allied forces cementing their grip on the devastated city of Naples. The sometime Fascist and ever-resourceful Curzio Malaparte is working with the Americans as a liaison officer. He looks after Colonel Jack Hamilton, "a Christian gentleman . . . an American in the noblest sense of the word," who speaks French and cites the classics and holds his nose as the two men tour the squalid streets of a city in ruins where liberation is only another word for desperation. Veterans of the disbanded Italian army beg for work. A rare specimen from the city's famous aquarium is served up at a ceremonial dinner for high Allied officers. Prostitution is rampant. The smell of death is everywhere. Subtle, cynical, evasive, manipulative, unnerving, always astonishing, Malaparte is a supreme artist of the unreliable, both the product and the prophet of a world gone rotten to the core.

Published and distributed for the Vidal Sassoon International Center for the Study of Antisemitism The origins of the infamous forgery the *Protocols of the Sages of Zion* are the subject of much vigorous debate. In this meticulously researched and cogently argued study, Cesare G. De Michelis illuminates its authors and the circumstances of production by focusing on the text itself. De Michelis examines in detail the earliest texts of the *Protocols*, looking in particular at the historical and structural relationships among them. His research unveils the differing texts of the *Protocols* and the presumed date of the first forgery. It also yields a greater understanding of the milieu in which the

forgery was produced and the identity and motivations of its authors. This volume is a revised and expanded edition of the original, which appeared in Italian. Featured is an arguably archetypal Russian text of the Protocols, which De Michelis pieced together from several publications, based on careful textual analysis.

Why do people go to the movies? What does it mean to watch a movie? To what extent is the perceived fictional nature of movies different from our daily perception of the real world? We live in a time where the power of images has strongly invaded our everyday life, and we need new instruments and methods to better understand our relationship with the virtual worlds we inhabit every day. Taking cinema as the beginning of our relationship with the world of moving images, and cognitive neuroscience as a paradigm to understand how the images engage us, The Empathic Screen develops a new theory of film experience, exploring our brain-body interaction when engaging with and watching a film. In this book, film theory and neuroscience meet to shed new light on cinema masterpieces, such as The Shining, The Silence of the Lambs, and Toy Story, and explore the great directors from the classical period to the present. Taking a radical new approach to understanding the cinema, the book will be fascinating reading for cognitive scientists, neuroscientists, psychologists, philosophers, and film and media scholars.

On Beckett

PREFACE During his perusal of a number of legends, the author of this little book was pleased to imagine that, in the bulk of the tales which have been handed down to us, not only the art of the churchly fabulist, but also, upon attentive consideration, traces of a more primitive and more profane love of story-telling, or art of fiction, are perceptible. As the painter is incited by a fragmentary patch of cloud, an outline of a mountain, an etched scrap by some forgotten master, to fill a whole canvas, so the author experienced a desire to reproduce those broken, elusive images; although it must be owned that in the process their faces have often been turned to another quarter of the heavens than that towards which they looked in their extant forms. The huge mass of material available would have made it possible to spin the book out to very great length; but it could only hope to be granted the modest space which it demands if the innocent pleasantry was kept within very moderate limits.
