Although the mainstay of bipolar therapy is drug treatment, psychoeducation is a technique that has proven to be very effective as an add-on to medication, helping to reduce the number of all types of bipolar recurrences and hospitalisation. The object is to improve patients' understanding of the disorder and therefore their adherence to pharmacotherapy. Based on the highly successful, evidence-based Barcelona program, this book is a pragmatic, therapists' guide for how to implement psychoeducation for bipolar patients. It gives practical guidance for how to conduct a psychoeducation group, using sessions and cases drawn from the Barcelona Psychoeducation Program. Moreover, it provides the reader with a great amount of practical tips and tricks and specific techniques to maximize the benefits of bipolar psychoeducation. The authors formed the first group to show the efficacy of psychoeducation as a maintenance treatment and have a long history of performing bipolar psychoeducation.

'Medieval Rome' analyses the history of the city of Rome between 900 and 1150, a period of major changes in the city. It takes the urban economy, the social history of the different strata of society, the articulation between the city's regions and the cultural identity of Rome as seen in its processions, its material culture, its legal transformations and its sense of the past.

These are the underpinnings of a major reinterpretation of the city's political history in the era of the 'reform papacy', one of the greatest crises in Rome's history.

Dante Alighieri's Divine Comedy has, despite its enormous popularity and importance, often stymied readers with its multitudinous characters, references, and themes. But until the publication in 2007 of Guy Raffa's guide to the Inferno, students lacked a suitable resource to help them navigate Dante's underworld. With this new guide to the entire Divine Comedy, Raffa provides readers—experts in the Middle Ages and Renaissance, Dante neophytes, and everyone in between—with a map of the entire poem, from the lowest circle of Hell to the highest sphere of Paradise. Based on Raffa's original research and his many years of teaching the poem to undergraduates, The CompleteDanteworlds charts a simultaneously geographical and textual journey, canto by canto, region by region, adhering closely to the path taken by Dante himself through Hell, Purgatory, and Paradise. This invaluable reference also features study questions, illustrations of the realms, and regional summaries. Interpreting Dante's poem and his sources, Raffa fashions detailed entries on each character encountered as well as on many significant historical, religious, and cultural allusions.

"Provocative and delightfully discursive essays on natural history . . . Gould is the Stan Musial of essay writing. He can work himself into a corkscrew of ideas and improbable allusions paragraph after paragraph and then, uncoiling, hit it with such power that his fans know they are experiencing the game of essay writing at its best."--John Noble Wilford, New York Times Book Review
