The Future of Nursing  
explores how nurses'  
roles, responsibilities,  
and education should  
change significantly to

# Access Free Implementing Occupation

meet the increased demand for care that will be created by health care reform and to advance improvements in America's increasingly complex health system. At more than 3 million in number, nurses make up the single largest segment of the health care work force. They also spend the greatest

# Access Free Implementing Occupation

amount of time in  
delivering patient care  
as a profession. Nurses  
therefore have valuable  
insights and unique  
abilities to contribute as  
partners with other  
health care  
professionals in  
improving the quality  
and safety of care as  
envisioned in the  
Affordable Care Act  
(ACA) enacted this year.

# Access Free Implementing Occupation

Nurses should be fully engaged with other health professionals and assume leadership roles in redesigning care in the United States. To ensure its members are well-prepared, the profession should institute residency training for nurses, increase the percentage of nurses who attain a bachelor's degree to 80

# Access Free Implementing Occupation

percent by 2020, and double the number who pursue doctorates.

Furthermore, regulatory and institutional obstacles -- including limits on nurses' scope of practice -- should be removed so that the health system can reap the full benefit of nurses' training, skills, and knowledge in patient care. In this book, the
