

## Independence Significance 4 By Shelly Crane Txtjam

"The "Arab Spring" all started when a young Tunisian fruit-seller set himself on fire in protest of a government official confiscating his apples without cause and slapping his face. The aftermath of that one personal protest grew to become the Middle East movement known as the Arab Spring -- a wave of disparate events that included revolutions, protests, government overthrows, hopeful reform movements, and bloody civil wars. This book will be the first to bring the post Arab Spring world to light in a holistic context. It is a narrative of the author Shelly Culbertson's journey through six countries of the Middle East, describing countries, historical perspective, and interviews with revolution and government figures. Culbertson, RAND Middle East analyst and former U.S. State Department officer who has been involved with the Middle East for two decades, is uniquely equipped to analyze the current social, political, economic, and cultural effects of the movement. With honesty, empathy, and expert historical accuracy, Culbertson strives to answer the questions "what led to the Arab Spring," "what is it like there now," and "what trends after the Arab Spring are shaping the future of the Middle East?" The Fires of Spring tells the story by weaving together a sense of place, history, insight about key issues of our time, and personal stories and adventures. It navigates street life and peers into ministries, mosques, and women's worlds. It delves into what Arab Spring optimism was about, and at the same time sheds light on the pain and dysfunction that continues to plague some parts of the region."--

A story by NEW YORK TIMES and USA TODAY bestselling author, Shelly Crane. Maggie is a seventeen year old girl who's had a bad year. Her mom left, her dad is depressed, she's graduating, barely, and her boyfriend of almost three years dumped her for a college football scholarship. Lately she thinks life is all about hanging on by a thread and is gripping tight with everything she has. Then she meets Caleb. She saves his life and instantly knows there's something about him that's intriguing but she is supposed to be on her way to a date with his cousin. But things change when they touch, sparks ignite. Literally. They imprint with each other and she sees their future life together flash before her eyes. She learns that not only is she his soul mate, and can feel his heartbeat in her chest, but there is a whole other world of people with gifts and abilities that she never knew existed. She herself is experiencing supernatural changes unlike anything she's ever felt before and she needs the touch of his skin to survive. Now, not only has her dad come out of his depression to be a father again, and a pain as well, but Caleb's enemies know he's imprinted and are after Maggie to stop them both from gaining their abilities and take her from him. Can Caleb save her or will they be forced to live without each other after just finding one another? Read the epic love story before the TV show!

Systems Analysis and Design,Video Enganced International Edition offers a practical, visually appealing approach to information systems development.

NEW YORK TIMES & USA TODAY Bestselling book! A YA LOVE story about a girl who has her life turned upside down. A girl. A coma. A life she can't remember. When Emma Walker wakes up in the hospital with no knowledge of how she got there, she learns that she's been in a coma for six months. Strangers show up and claim to be her parents, but she can't remember them. She can't remember anyone. Not her friends, not even her boyfriend. Even though she can't remember, everyone wants her to just pick up where she left off, but what she learns about the 'old her' makes her start to wish she'd never woken up. Her boyfriend breaks up with the new girl he's dating to be with her, her parents want her to start planning for college, her friends want their leader back, and her physical therapist with the hazel eyes keeps his distance to save his position at the hospital. Will she ever feel like she recognizes the girl in the mirror?

Now in an updated paperback edition, Why Taiwan Matters offers a comprehensive but compact introduction to a country that exercises a role in the world far greater than its tiny size would indicate. Leading expert Shelley Rigger explains how Taiwan became such a key global player, highlighting economic and political breakthroughs so impressive they have been called "miracles." She links these accomplishments to Taiwan's determined society, vibrant culture, and unique history and importance to China, the United States, and the world. Considering where Taiwan may be headed in its wary standoff with China, she traces how the focus of Taiwan's domestic politics has shifted to a Taiwan-centered strategy. All readers interested in Asia and international affairs will find this an accessible and entertaining overview, replete with human interest stories and colorful examples of daily life in Taiwan.

The lives of two sisters--Nettie, a missionary in Africa, and Celie, a southern woman married to a man she hates--are revealed in a series of letters exchanged over thirty years

Examines the potential regional implications of an independent Kurdistan in northern Iraq.

Frankenstein

One of the best masterpieces of the written world. More than 200 years after it was first published, Mary Shelley's Frankenstein has stood the test of time as a gothic masterpiece-a classic work of honor that blurs the line between man and monster. "If I cannot inspire love, I will cause fear." For centuries, the story of Victor Frankenstein and the monster he created has held readers spellbound. On the surface, it is a novel of tense and steadily mounting dread. On a more profound level, it illuminates the triumph and tragedy of the human condition in its portrayal of a scientist who oversteps the bounds of conscience, and of a creature tortured by the solitude of a world in which he does not belong. A novel of almost hallucinatory intensity, Mary Shelley's Frankenstein represents one of the most striking flowerings of the Romantic imagination.

Ava has watched her parents, Caleb and Maggie, live the perfect fairy tale, the perfect love story, played out in front of her eyes her entire life. Her family is love, life, and happiness. The Jacobsons are everything a family should be and Ava is loved and well taken care of. But the one thing that's missing from her life is the one thing she's waited for every day, the one thing her kind knows will make them complete, the one thing they thought was gone and lost forever. Her significant, Seth has lived with the Watsons his entire life. They're the only family he knows, but he knows that there are things they keep from him. He knows that they lie and they do unspeakable evil, things from when he was a child that he can barely remember that cling to the edges of his memory. He barely remembers his real mother and all he knows is what he's told. He doesn't know what to trust. He wants to believe that the Watsons love and care for him, have his best interest at heart, but isn't so sure of that anymore when he finally-after a lifetime of waiting for her-meets his soulmate, and the Watson's first act is to try to take her away from him. The Virtuoso worlds collide, hearts are exposed, humans are endangered, and the lives of Seth and Ava are changed forever. They'll have to love without judgment or reservation, they'll have to be wise and accepting beyond their years, they'll have to forgive for things before they've even happened, they'll have to trust without seeing, have faith without knowing, and they'll have to light their own way in the dark when everyone else is blind to show them the way. And more than anything else... they'll fight like hell to keep each other.

Maggie and Caleb must tie up all the loose ends of their lives and make a way to be together completely on their own. With everything that happened with Bish and Maggie's father, she's almost reluctant to move on and move out. And now she must figure out all of this...stuff...with Haddock. But of course, nothing can stay simple for the Jacobsons. Enemies who were thought to be dissolved have decided to not go down so easily. And old flames come calling for more than just Maggie. Caleb is torn between leading his family and personal wants. Maggie is torn between Caleb and being the leader of their people. But neither will let what they need most to be pushed to the wayside. They are determined to make it all work, design a plan toward destiny, and make everything right again for themselves and their family. And then there's a wedding...

Carefully edited for modern readers to allow for easier reading Obsessed with the secret of creation, Swiss scientist Dr. Victor Frankenstein cobbles together a body he's determined to bring to life. And one fateful night, he does. When the creature opens his eyes, the doctor is repulsed: his vision of perfection is, in fact, a hideous monster. Dr. Frankenstein abandons his creation, but the monster won't be ignored, setting in motion a chain of violence and terror that shadows Victor to his death. Mary Shelley's Frankenstein, a gripping story about the ethics of creation and the consequences of trauma, is one of the most influential Gothic novels in British literature. It is as relevant today as it is haunting.

The Romantic Sublime : Studies in the Structure and Psychology of Transcendence

This edition contains all Shelley's poetry, from his juvenilia to his great works such as "The Revolt of Islam" and "Ode to the West Wind", and his only completed verse drama "The Cenci", a melodramatic Venetian tale of incest, murder and revenge.

Clara has it all. A wrestling star boyfriend, popular friends, all the right social activities...pretty much a perfect life...up until her parents died. Now she lives with the Pastor and his family and though they take good care of her, she feels alone. Then her boyfriend, Tate, starts to show signs of trouble when a new guy, Eli, comes to town. Clara is fascinated with him but hides it until something happens. Eli confesses to her that she gives him something he's never had before...something he needs. Everything is about to change for this normal, pretty, popular girl in a supernatural way.

Providing a thorough introduction to current philosophical views on morality, Normative Ethics examines an acts rightness or wrongness in terms of such factors as consequences, harm, and consent. Shelly Kagan offers a division between moral factors and theoretical foundations that reflects the actual working practices of contemporary moral philosophers.Intended for upper-level or graduate students of philosophy, this book should also appeal to the general reader looking for a clearly written overview of the basic principles of moral philosophy. }Providing a thorough introduction to current philosophical views on morality, Normative Ethics examines an acts rightness or wrongness in light of such factors as consequences, harm, and consent. Shelly Kagan offers a division between moral factors and theoretical foundations that reflects the actual working practices of contemporary moral philosophers. The first half of the book presents a systematic survey of the basic normative factors, focusing on controversial questions concerning the precise content of each factor, its scope and significance, and its relationship to other factors. The second half of the book then examines the competing theories about the foundations of normative ethics, theories that attempt to explain why the basic normative factors have the moral significance that they do.Intended for upper-level or graduate students of philosophy, this book should also appeal to the general reader looking for a clearly written overview of the basic principles of moral philosophy.

"Rise Above" Anxiety, Anger, and Depression (with Research Evidence)

The Madwoman in the Attic

New music teachers often struggle to find a way to connect the content learned in college classes with the content that will be taught in the classroom, since the nature of their work demands a high level of both musical and educational ability, while also the skills to switch from tuning an orchestra to leading a marching band or practicing voice parts with a chorus. Becoming a Music Teacher: Student to Practitioner focuses on making the connections between the college music classroom and public school music classroom transparent, visible, and relevant. Award-winning music educators Donald I. Hamann and Shelly Cooper have created a versatile text for music teacher education, and one that will provide a significant resource for music education students across the US. Based around an innovative organization and approach, Becoming a Music Teacher is made up of 40 short modules that focus on increasing a teacher's comfort and confidence level when instructing or leading groups. Each module is broken down into four individual components that demonstrate real life transfers from classs to classroom through the components of Personal Awareness, Personal Musicianship, Pre-Conducting, and Professional Knowledge. The Personal Awareness component gives a lesson on good teaching skills by focusing on body awareness, body language, and communication styles rather than abstract theories of education. Personal Musicianship provides a guided learning approach to teaching sight-singing and opportunities to create both vocal and instrumental accompaniments with the songs that are included in the modules. Pre-conducting discusses ways in which gestures or concepts could be used in rehearsing a school ensemble through the development of hand/arm independence, posture, and gestures. Professional knowledge links the module to the real world and places it in the context of the workplace, offering advice on how to work with other teachers and administrators, and includes characteristics of successful teachers, the role of schools in contemporary society, and diverse learners. When taken together, these components help the student develop a rounded skill set for the classroom. The lessons are activity-based and interactive, allowing readers to experiment, communicate, and provide feedback. The modules are also flexible and have been designed to be easily integrated into a music education classroom and applied to specific age groups, includingadult learners, a demographic many music education students encounter but one rarely discussed in music education classrooms. Each module stands alone, allowing instructors to customize their lesson plans by selecting or highlighting the modules most relevant to their class. This text also includes exercises that promote reflection on professionalism, collegiality, and legal factors that affect both students and teachers, not found in most education texts.

Critically examining other philosophers ideas, the author of this work explores the thinking behind the distribution of scarce resources, such as transplant organs.

IndependenceA Significance NovelKiss Me Publications, LLC

Most of us believe that there are limits to the sacrifices that morality can demand of us. We also think that certain types of acts are simply forbidden, even when necessary for promoting the overall good. Here Kagan argues that attempts to defend these sorts of moral limit are inadequate. In thus rejecting two of the most fundamental features of commonsense morality, the book offers a sustained attack on our ordinary moral views.

Adonats

Newly revised in 2011. Contains the auditing standards promulgated by the Comptroller General of the United States. Known as the Yellow Book. Includes the professional standards and guidance, commonly referred to as generally accepted government auditing standards (GAGAS), which provide a framework for conducting high quality government audits and attestation engagements with competence, integrity, objectivity, and independence. These standards are for use by auditors of government entities and entities that receive government awards and audit organizations performing GAGAS audits and attestation engagements.

Maggie and Caleb are married, leaders of their people, parents to their children, and happier than they ever dreamed, even with the visions they saw of it to prove it so. The council is still rebelling against Maggie ' s changes, but this time it ' s different. It ' s almost as if something...or someone is behind them, pulling the strings and making decisions for them. And Maggie is having strange visions that only she can see, leaving Caleb helpless to help her. But when her visions start to warn her that their daughter, Ava, will one day be in danger, they ' ll do anything it takes to find out what ' s going on and how to stop it, even paying a visit to a previous Visionary. Maggie and Caleb must find out who or what is behind it all and stop them before Maggie is one vision too late.

This book shows that Taiwan, unlike other countries, avoided serious economic disruption and social conflict, and arrived at its goal of multi-party competition with little blood shed. Nonetheless, this survey reveals that for those who imagine democracy to be the panacea for every social, economic and political ill, Taiwan's continuing struggles against corruption, isolation and division offer a cautionary lesson. This book is an ideal, one-stop resource for undergraduate and postgraduate students of political science, particularly those interested in the international politics of China, and the Asia-Pacific.

The original 1818 text of Mary Shelley's classic novel, with annotations and essays highlighting its scientific, ethical, and cautionary aspects. Mary Shelley's Frankenstein has endured in the popular imagination for two hundred years. Begun as a ghost story by an intellectually and socially precocious eighteen-year-old author during a cold and rainy summer on the shores of Lake Geneva, the dramatic tale of Victor Frankenstein and his stitched-together creature can be read as the ultimate parable of scientific hubris. Victor, " the modern Prometheus, " tried to do what he perhaps should have left to Nature: create life. Although the novel is most often discussed in literary-historical terms—as a seminal example of romanticism or as a groundbreaking early work of science fiction—Mary Shelley was keenly aware of contemporary scientific developments and incorporated them into her story. In our era of synthetic biology, artificial intelligence, robotics, and climate engineering, this edition of Frankenstein will resonate forcefully for readers with a background or interest in science and engineering, and are you intrigued by the fundamental questions of creativity and responsibility. This edition of Frankenstein pairs the original 1818 version of the manuscript—meticulously line-edited and amended by Charles E. Robinson, one of the world's preeminent authorities on the text—with annotations and essays by leading scholars exploring the social and ethical aspects of scientific creativity raised by this remarkable story. The result is a unique and accessible edition of one of the most thought-provoking and influential novels ever written. Essays by Elizabeth Bear, Cory Doctorow, Heather E. Douglas, Josephine Johnston, Kate MacCord, Jane Maienschein, Anne K. Mellor, Alfred Nordmann

The Limits of Morality

In the third installment of the Significance series, we begin with Maggie and Caleb in the clutches of a new enemy; the Virtuoso council. Not only do they have to deal with the consequences of taking the lives of the Watsons and the council attempting to take Maggie away to keep their precious Visionary safe, but they must deal with Marla as well. All are determined to undermine, control and use Caleb and Maggie's rare gifts for their own uses, some wish to destroy them entirely. Then Maggie's father and Bish are threatened but the council forbids the presence of humans. Peter and the family fight and stand beside them every step of the way to save Maggie's father, to keep Caleb and Maggie together when the corrupted council is so set on keeping them apart and to stop Marla and whatever she has up her sleeve. Then Maggie has the shock of her life when she discovers something about her real father. It may change everything for everyone. Stay tuned as the story continues.

Dr. Stevens' research identifies specific learnable beliefs and standards—not general, inherited traits—that cause people to be happy and successful.

In the sequel to Significance, Maggie learns much more about all the strange things that have happened to her and has to face many new ones. She learns something about herself, that she is something that the clans have been waiting for. She rebels against it but, ultimately must face it for her new family's sake and maybe even her life. Bish went from being her biggest supporter to her biggest pain in the butt and Kyle's intentions to attract her interest may not be so innocent. Caleb and Maggie face many new obstacles together as a couple and on their own. They fight to work through them but will one that should be a good thing be too much for Maggie to handle? Will she become who she has to be to save the ones she loves or will she crumble under the pressure as this epic love story continues.

The King had a good head on his shoulders—for the moment, anyway. Everyone agreed that King Jorian of Xylar had been a good and just ruler. In fact, many also agreed that, in this case, it was a pity that the laws of Xylar decreed that each randomly chosen King must reign for only five years and then, after due pomp and ceremony, have his head cut off! Understandably, Jorian himself was wholeheartedly in agreement with the second sentiment, so with the help of a spell provided by the wizard Karadur, he escaped from the beheading ceremony with his head still on his shoulders. Unfortunately, his beloved wife, Queen Estrildis, was left behind, and getting her out of Xylar would be anything but simple—particularly with the Royal Guard of Xylar hot on the trail of their fugitive monarch. With Karadur's magic, Jorian might be able to pull off the rescue. But first, he would have to locate a trove of ancient spells, deal with an enemy wizard, steal an item from a 500-year-old (but still beautiful) princess who turns into a giant serpent at inopportune moments, repair the giant tower clocks of Iraz to fulfill a prophecy, break a pirate siege, and finally fly back to Xylar in an enchanted bathtub and whisk away his beloved Estrildis before the Royal Guard notices that their King (not to mention his head) has returned. Then things began to get complicated... At the publisher's request, this title is sold without DRM (Digital Rights Management).

You Can Choose to be Happy

Jaque Pierce was an ordinary 17-year-old girl getting ready to start her senior year in high school in Coldspring, TX when a mysterious foreign exchange student in across the street. Jacque and her two best friends Sally and Jen don't realize the last two weeks of their summer are going to get a lot more interesting. From the moment Jacque sets eyes on Fane, she feels an instant connection, a pull like a moth to a flame. Little does she know that the flame she is drawn too is actually a Canis Lupus, werewolf, and she just happens to be his mate, the other half of his soul. The problem is Fane is not the only wolf in Coldspring. Just as Fane and Jacque are getting to know each other, another wolf steps out to try and claim Jacque as his mate. Fane will now have to fight for the right to complete the mating bond, something that is his right by birth but is being denied him by a crazed Alpha. Will the love Fane has for Jacque be enough to give him the strength to defeat his enemy and will Jacque accept she is Fane's mate and complete the bond between them?

Called "a feminist classic" by Judith Shulevitz in the New York Times Book Review, this pathbreaking book of literary criticism is now reissued with a new introduction by Lisa Appignanesi that speaks to how The Madwoman in the Attic set the groundwork for subsequent generations of scholars writing about women writers, and why the book still feels fresh some four decades later. "Gilbert and Gubar have written a pivotal book, one of those after which we will never think the same again."—Carolyn G. Heilbrun, Washington Post Book World

Sherry has always known there was something out there. She's eighteen, works for a tabloid newspaper in Chicago and has a brother, Danny who is a lazy mooch. They live a pretty normal dull life with hippie parents and a normal existence. Then the moon disappears and people start to go missing only to reappear later, but different. She has an abusive ex-boyfriend who shows up and claims to be one of these beings that has been showing up around the world. He's no longer the same person in that body. He tells her he wants to protect her and her brother and takes her underground, against her will to save her, where they meet others like them. She begins to unravel the truth about Merrick, about what he's really doing there, about the way he looks at her, about the crazy dangerous world they live in. Can he convince her that he's there to help? Will she like what she finds when she opens up to the truth? Will he be the one to love her when everyone else has failed? Will he be able to protect her?

From Dr. Amy Blackstone, childfree woman, co-creator of the blog we're (not) having a baby, and nationally recognized expert on the childfree choice, comes a definitive investigation into the history and current growing movement of adults choosing to forgo parenthood: what it means for our society, economy, environment, perceived gender roles, and legacies, and how understanding and supporting all types of families can lead to positive outcomes for parents, non-parents, and children alike. As a childfree woman, Dr. Amy Blackstone is no stranger to a wide range of negative responses when she informs people she doesn't have--nor does she want--kids: confused looks, patronizing quips, thinly veiled pity, even outright scorn and condemnation. But she is not alone in opting out when it comes to children. More people than ever are choosing to forgo parenthood, and openly discussing a choice that's still often perceived as taboo. Yet this choice, and its effects personally and culturally, are still often misunderstood. Amy Blackstone, a professor of sociology, has been studying the childfree choice since 2008, a choice she and her husband had already confidently and happily made. Using her own and others' research as well as her personal experience, Blackstone delves into the childfree movement from its conception to today, exploring gender, race, sexual orientation, politics, environmentalism, and feminism, as she strips away the misconceptions surrounding non-parents and reveals the still radical notion that support of the childfree can lead to better lives and societies for all.

A Vindication of the Rights of Woman

Collide Series

This book studies the rise of access over ownership and the sharing economy's challenges to the liberal vision of property.

Undergraduate course in Entrepreneurship and New Venture creation. Entrepreneurship 2/e takes students on the entire journey of launching a new venture, with a unique emphasis on the front end of the entrepreneurial process.

Winner of the Pulitzer Prize and the National Book Award, this novel about a resilient and courageous woman has become a Broadway show and a cultural phenomenon. A PBS Great American Read Top 100 Pick Celie has grown up poor in rural Georgia, despised by the society around her and abused by her own family. She strives to protect her sister, Nettie, from a similar fate, and while Nettie escapes to a new life as a missionary in Africa, Celie is left behind without her best friend and confidante, married off to an older suitor, and sentenced to a life alone with a harsh and brutal husband. In an attempt to transcend a life that often seems too much to bear, Celie begins writing letters directly to God. The letters, spanning twenty years, record a journey of self-discovery and empowerment guided by the light of a few strong women. She meets Shug Avery, her husband's mistress and a jazz singer with a zest for life, and her stepson's wife, Sophia, who challenges her to fight for independence. And though the many letters from Celie's sister are hidden by her husband, Nettie's unwavering support will prove to be the most breathtaking of all. The Color Purple has sold more than five million copies, inspired an Academy Award-nominated film starring Oprah Winfrey and directed by Steven Spielberg, and been adapted into a Tony-nominated Broadway musical. Lauded as a literary masterpiece, this is the groundbreaking novel that placed Walker "in the company of Faulkner" (The Nation), and remains a wrenching-yet intensely uplifting--experience for new generations of readers. This ebook features a new introduction written by the author on the twenty-fifth anniversary of publication, and an illustrated biography of Alice Walker including rare photos from the author's personal collection. The Color Purple is the 1st book in the Color Purple Collection, which also includes The Temple of My Familiar and Possessing the Secret of Joy.

No Feminism or Feminist philosophy without "A Vindication of the Rights of Woman". Wollstonecraft argues not only that women ought to have the education of a woman should fit her position and role in society, but also that they are human beings and thus deserve the same fundamental rights as men.
