eighty-six villages are set to completely submerge due to a government-sanctioned dam across the Krishna river. Nilgi, one such village on the banks of the mighty River Krishna, has so far escaped unscathed from the illegal iron-ore mining and floods that have ravaged the rest of the district for decades. The village believes itself to be indestructible and incorruptible despite warnings of impending doom. With whole mountains disappearing from the mining around Nilgi over time, the threat

The authors have very well tried their level best to provide a historical and conceptual clarity on various aspects of Indian villages. The authors have discussed about the types and characteristics of Indian villages with focus on theoretical concepts like—Sanskritisation, Westernisation, Globalisation, Tribe-Caste-Continuum. Focus has also been made on the practice of Jajmani System within the Indian villages. Above all the well-defined and chronological sequence of Indian village studies has been explained in this book.

be central to ongoing sociological concerns. As a result, the period saw a marginalization of rural life and agrarian economy in the national imagination. However, in the 21st century as India transforms, so does its rural life. This book revisits the realities of contemporary rural India, exploring the trajectories of change across regions such as those in rural economies, the relationship of villages to the outside world, and the dynamics of caste inequalities. The volume puts together 14 papers based on empirical studies carried out by sociologists, social anthropologists, and economists over the past 15 years to begin a holistic conversation on contemporary rural India which continues to be an important site of

social, political, and economic activities. India's Villages in the 21st Century stresses diversity as a fundamental structure of Indian economy and society and illustrates the point by focusing on the economies, patterns of settlements, and organization of social and political life in India's villages. Indian Village is widely considered a "classic." Since its publication, over six decades ago, the book has received immense acclaim, attaining extraordinary success, especially as the first book on a single village in post—Second World War South Asia. Indeed, the work represents a key statement of the wider shift from tribe to village in Indian anthropology, part of the movement away from studies of "isolated" groups toward writings

Written in an accessible, intimate manner, Indian Village needs to be understood today as a flagship endeavour of the social sciences in a young, independent India—a study that continues to be generously cited, including as a model monograph, in the disciplines at large.

How do videos, movies and documentaries dedicated to indigenous communities transform the media landscape of South Asia? Based on extensive original research, this book examines how in South Asia popular music videos, activist political clips, movies and documentaries about, by and for indigenous communities take on radically new significances. Media, Indigeneity and Nation in South Asia shows how in the portrayal of indigenous groups by both 'insiders' and 'outsiders' imaginations of indigeneity and nation become increasingly interlinked. Indigenous groups, typically marginal to the nation, are at the same time part of mainstream politics and cultures. Drawing on

author of *The Persistence of Caste*. B.R. Ambedkar's *Annihilation of Caste* is one of the most important, yet neglected, works of political writing from India. Written in 1936, it is an audacious denunciation of Hinduism and its caste system. Ambedkar – a figure like W.E.B. Du Bois – offers a scholarly critique of Hindu scriptures, scriptures that sanction a rigidly hierarchical and iniquitous social system. by the state of Washington to work on the Port Angeles waterfront discovered what a larger world would soon learn. The place chosen to dig a massive dry dock was atop one of the largest and oldest Indian village sites ever found in the region. Yet the state continued its project, disturbing hundreds of burials and unearthing more than 10,000 artifacts at Tse-whit-zen village, the heart of the long-buried homeland of the Klallam people. Excitement at the archaeological find of a generation gave way to anguish as tribal members working alongside state construction workers encountered more and more human remains, including many intact burials.

Finally, tribal members said the words that stopped the project: "Enough is enough." Soon after, Lower Elwha Klallam Tribe chairwoman Frances Charles asked the state to walk away from more than \$70 million in public money already spent on the project and find a new site. The state, in an unprecedented and controversial decision that reverberated around the nation, agreed. In search of the story behind the story, Seattle Times reporter Lynda V. Mapes spent more than a year interviewing tribal members, archaeologists, historians, city and state officials, and local residents and business leaders. Her account begins with

the history of Tse-whit-zen village, and the nineteenth- and twentieth-century impacts of contact, forced assimilation, and industrialization. She then engages all the voices involved in the dry dock controversy to explore how the site was chosen, and how the decisions were made first to proceed and then to abandon the project, as well as the aftermath and implications of those controversial choices. This beautifully crafted and compassionate account, illustrated with nearly 100 photographs, illuminates the collective amnesia that led to the choice of the Port Angeles construction site. "You have to know your past in order to

India, Miglani writes, is “the capital of chaos”: over a billion people living on one-third the space of the United States. And it was there that he learned to let go. The secret is to stop trying to control the chaos and focus on what you can control—your own actions, words, and thoughts. Move forward, make mistakes, trust your intuition, find your purpose. In this inspiring book, Miglani shares the experiences and encounters that helped him finally get it. What happens when you find yourself in an Indian village with no money and a plane to catch?
