

## International Paper Grant Application

*Over the last five years, the number of women-owned businesses has grown at twice the rate of all U.S. firms; in the next few years, the number is expected to surpass the six million mark. Kitchen Table Entrepreneurs tells the inspirational stories of eleven low-income women who have marshaled the creative energy, confidence, and capital necessary to start their own small businesses. These women, who have used their entrepreneurial skills as a route out of poverty, give an American face to an economic empowerment tool that has enjoyed great success in developing countries. By becoming their own bosses, they not only provide for their children but also inspire them. Though each of their businesses is unique, all eleven of these women have discovered previously unknown strengths as they've struggled to overcome personal and bureaucratic obstacles. All received important assistance from nonprofit organizations supported by the Ms. Foundation for Women, the pioneer funding entity of microenterprise programs in the United States. Updated with a new epilogue.*

"Interdisciplinarity" is perhaps the most used keyword in describing changes in current patterns of Federal funding. However, it is not a new idea - the interdisciplinary theme has been tried for over forty years. Yet, until now, involved or the performance has been. This book is the report on the "Interdisciplinarity Revisited: Materials Research as a Case Study" Conference, convened on August 31-September 1, 1999 at the Pennsylvania State University. The contributors included the world's leading practitioners in the field of

interdisciplinary thrusts in other areas, from Science, Technology and Society to medicine, were represented by senior practitioners. The key findings include the following: - The entire research enterprise demands and is moving increasingly toward "interactive research." (Interactive includes inter-disciplinary, inter-institutional, and inter-sector research.)-The university world has, by and large, failed to organize itself to respond to this new reality. -Specific hindrances to I3R are the traditional peer review process and academic intellectual property practices. - New directions proposed include: funding based largely on past performance and matching fund strategies." is perhaps the most used keyword in describing changes in current patterns of Federal funding.
