It is always different when you have experienced the hard grind and difficulty of going through an NBA season, and then you try to preach it to players that are also trying to carve out their NBA careers. For twenty-five years, Kony and his Lord's Resistance Army had killed over a hundred thousand people, displaced millions, and abducted tens of thousands of children, forcing them to become child soldiers. After Sedgwick Davis met with survivors and community leaders, aid workers and lawmakers, it was clear that the current international systems were failing to protect the most vulnerable. Guided by the strength of her beliefs and convictions, Sedgwick Davis knew she had to help other parents to have the same right she had—to go to sleep each night knowing that their children were safe. time NBA champion, an All-Star, and a Sixth Man of the Year awardee. Isaiah Thomas, who was drafted dead last back in 2011, became an All-Star by staying confident in his game.

Draymond Green went from being a second-round draft pick in 2012 to the league's most unique defensive force and an all-around NBA All-Star by working hard on his conditioning and acclimating himself within a great system in the Golden State Warriors. And on a lesser note, swingman Jonathan Simmons had to pay for a tryout in the NBA D-League but is now a celebrated role player within the San Antonio Spurs' system. Even several NBA coaches and staff have had to work their way up from the bottom to one of the top spots in some of the

league's teams. The Boston Celtics' Brad Stevens never even played in a Division I school and even had to take a low-paying job at Butler University before he became the school's most celebrated coach and now one of the brightest young minds in the league. For all his success as an NBA coach, Gregg Popovich was just an assistant that Larry Brown took with him to the NBA before he became one of the best coaches in league history. And the Oklahoma City Thunder's general manager, Sam Presti, was just an intern with the San Antonio Spurs before he was given a job in OKC in his early 30's. He has since been given credit for drafting the likes of Kevin Durant, Russell Westbrook, Serge Ibaka, and James Harden. Tags: Erik

King in the Fourth Personal Life Thomas'  
Impact and Legacy An excerpt from the  
book: The world loves an underdog.

People always cheer for the man who fights against all the odds and those that defy the usual standards. Underdogs are never more beloved than in the world of sports, where guys that defy physical standards always get the adoration of the masses. Basketball is one of the sports that is never short of an underdog. In the game of basketball and a professional league such as the NBA, physical gifts have always made superstars out of the athletes. You talk about Shaquille O'Neal, who stood over 7 feet tall and weighed over 320 pounds of mass. Then there is LeBron James, who is 260 pounds of muscle but runs like a gazelle on the hard floor. Russell Westbrook may not be the tallest guard on the floor, but he is lightning quick and jumps out of the building. The

best superstars have always been some of the most physically gifted athletes in the history of the game. The NBA has always been like that. It assesses the players' potential first and foremost based on what his physical attributes could accomplish. His height and wingspan are measured. They look at how physically ready his body is for a tough grind in the league. They assess how fast he could run and how high he could leap. After all, basketball has always been one of the sports that rely chiefly on an athlete's physical gifts. Legacy and Future J An excerpt from this Nikola Jokic biography: The influx of international talent into the NBA has contributed to the way the game has rapidly evolved. From a game that relied on size and athleticism, the NBA now has a lot of players that have become stars in their own right thanks to their rare combination of skills. It is now imperative that you come into the league with a complete skillset if you want to be a star in the NBA. But this trend is nothing new. We saw the
