The Foreign Relations of the United States series presents the official documentary historical record of major foreign policy decisions and significant diplomatic activity of the United States Government. This volume is part of a subseries of the Foreign Relations of the United States that documents the most issues in the foreign policy of Presidents Richard M. Nixon and Gerald R. Ford. The subseries presents in multiple volumes a comprehensive documentary record of major foreign policy decisions and actions of the administrations of Presidents Nixon and Ford. This specific volume documents U.S. policy towards three important countries in Southeast Asia: Thailand, the Philippines, and Indonesia, 1969-1972, a period when the future of Southeast Asia was a major concern of American foreign policy makers. This is the last print volume to document U.S. policy towards Southeast Asia, other han those print volumes that document the Vietnam War during the Nixon-Ford administrations. For the January 1973 to January 1977 period, U.S. policy towards Southeast Asia (nations other than Vietnam, Laos, and Cambodia is covered in an electronic-only volume. The decision to cover Thailand, the Philippines, and Indonesia for 1969-1975 in detail in this print volume was based on the fact that each country was a key ally - either formally or de facto - of the United States during the Vietnam war, and each played a specific role during the conflict. Thailand sent troops to fight in Vietnam, provided bases for U.S. airpower in Southeast Asia, and secretly provided training, troops, and arms to support U.S.-backed guerilla forces in Laos. The Philippines sent a 2,000-man civic action group to South Vietnam, and Filipinos made up many of the administrative contractors in South Vietnam. Indonesia provided key arms support to the Lon Nol government at a crucial time. In addition, Thailand, Philippines, and Indonesia were important countries in their own right, with key U.S. military and economic assistance programs, large embassies, and close relations with the United States. In each country, the United States had a considerable interest in their government's success. The chapter on Thailand, the largest in the volume, has the most obvious and closest associations with the Vietnam War. A principal theme of this chapter is U.S. efforts to assure the Thais that unilateral withdrawal of U.S. troops in South Vietnam and a projected settlement of the war did not mean a lesser U.S. commitment to Thailand. A second key theme of the volume is the covert military role that Thailand's military forces played in supporting the anti-communist forces in Laos and the potential role they could play in supporting the Lon Nol government in Cambodia. The second largest chapter in this volume documents U.S. policy towards the Philippines. The relationship between President Ferdinand Marcos and the Nixon administration is the dominant theme of this chapter. U.S. officials had to assure Marcos that they were neutral in the 1969 Philippines presidential elections and discourage his desire for a special channel to Washington. Corruption in the Marcos government, Marcos's desire to revise the constitution to his benefit, and his eventual declaration of martial law in September 1972 in the face of student riots caused U.S. officials in Manila and Washington to assess whether he was the best man to lead the Philippines from the U.S. point of view. Other themes that are documented in the chapter are the ones that predate the Vietnam War, such as preference for Philippines exports to the United States, U.S. benefits for Filipino veterans who served in the Second World War, and U.S. bases in the Philippines. The final chapter in the volume deals with Indonesia, officially a non-aligned nation, but under strongman General Suharto, a de factor ally of the United States. The principal themes of this chapter are the question of Indonesia's international debt left over from the Sukarno years and U.S. support for multilateral Indonesian debt relief among international lending organizations. A related theme is the amount of U.S. bilateral aid provided to Indonesia.

Includes new chapters to assist your care of specific populations such as those engaging in ecotourism or military travel, as well as the VIP traveler. A new chapter on pre-travel considerations for non-vaccine preventable travel infections has also been added. Provides new information on new influenza and shingles vaccines, microbiome and drug resistance, Zika and the pregnant or breastfeeding traveler, the Viagra effect and increase in STIs, refugees and immigrants, and much more. Covers new methods of prevention of dengue virus, Zika virus, chikungunya virus, Middle Eastern respiratory syndrome, sleeping sickness, and avian flu. New illustrations and numerous new tables and boxes provide visual guidance and make reference quick and easy. Helps you prepare for the travel medicine examination with convenient cross references to the ISTM "body of knowledge" in specific chapters and/or passages in the book. Keeps you updated on remote destinations and the unique perils they present.

A literary sensation and runaway bestseller, this brilliant debut novel tells with seamless authenticity and exquisite lyricism the true confessions of one of Japan’s most celebrated geisha. Nominated as one of America ’ s best-loved novels by PBS ’ s The Great American Read Speaking to us with the wisdom of age and in a voice at once haunting and startlingly immediate, Nitta Sayuri tells the story of her life as a geisha. It begins in a poor fishing village in 1929, when, as a nine-year-old girl with unusual blue-gray eyes, she is taken from her home and sold into slavery to a renowned geisha house. We witness her transformation as she learns the rigorous arts of the geisha: dance and music; wearing kimono, elaborate makeup, and hair; pouring sake to reveal just a touch of inner wrist; competing with a jealous rival for men's solicitude and the money that goes with it. In Memoirs of a Geisha, we enter a world where appearances are paramount; where a girl's virginity is auctioned to the highest bidder, where women are trained to beguile the most powerful men; and where love is scorned as illusion. It is a unique and triumphant work of fiction—at once romantic, erotic, suspenseful—and completely unforgettable.

My ten stories link the American scene and baseball. There are stories about the last African-American major league baseball player before Jackie Robinson, a fiendish umpire, the House of David baseball team, the Unibomber and little league baseball, the Womens All-American Baseball League, Rocky Colavito, Moe Berg and Charlie Finley, the miracle Mets of 1969, Billy Martin and Pope John Paul, and a boy born with the head of a Rooster. Sometimes funny and sometimes just plain strange, BILLYMARTIN MEETS THE PONTIFF will bring a smile to your face. *This collection of narratives from autistic adults is structured around their decades of experience of life, covering 20s, 30s, 40s, 50s, 60 and 70s+. These are varied and diverse, spanning different continents, genders, sexualities and ethnicities, yet the author highlights the common themes that unite them and skilfully draws out these threads. Each chapter is based on accounts from one age group and includes accounts from people of that age, giving an insight into the history of autism and signifying how gaining a diagnosis (or not) has changed people's lives over time. The book is about ageing with an autistic mind, and helping the reader find connections between neurotypical and neurodiverse people by acknowledging the challenges we all face in our past, present and futures.*

“Arguably the greatest living travel writer” (Outside magazine), Pico Iyer has called Japan home for more than three decades. But, as he is the first to admit, the country remains an enigma even to its long-term residents. In *A Beginner’s Guide to Japan*, Iyer draws on his years of experience—his travels, conversations, readings, and reflections—to craft a playful and profound book of surprising, brief, incisive glimpses into Japanese culture. He recounts his adventures and observations as he travels from a meditation hall to a love hotel, from West Point to Kyoto Station, and from dinner with Meryl Streep to an ill-fated call to the Apple service center in a series of provocations guaranteed to pique the interest and curiosity of those who don’t know Japan—and to remind those who do of its myriad fascinations.

A Career of Japan is the first study of one of the major photographers and personalities of nineteenth-century Japan. Baron Raimund von Stillfried was the most important foreign-born photographer of the Meiji era and one of the first globally active photographers of his generation. Based on extensive new primary sources and unpublished documents from archives around the world, this book examines von Stillfried’s significance as a cultural mediator between Japan and Central Europe. Awarded the 2nd Professor Josef Kreiner Hosei University Award for International Japanese Studies.

Information modelling and knowledge bases have become ever more essential in recent years because of the need to handle and process the vast amounts of data which now form part of everyday life. The machine to machine communication of the Internet of Things (IoT), in particular, can generate unexpectedly large amounts of raw data. This book presents the proceedings of the 27th International Conference on Information Modelling and Knowledge Bases (EJC2017), held in Krabi, Thailand, in June 2017. The EJC conferences originally began in 1982 as a co-operative initiative between Japan and Finland, but have since become a world-wide research forum bringing together researchers and practitioners in information modelling and knowledge bases for the exchange of scientific results and achievements. Of the 42 papers submitted, 29 were selected for publication here, and these cover a wide range of information-modelling topics, including the theory of concepts, semantic computing, data mining, context-based information retrieval, ontological technology, image databases, temporal and spatial databases, document data management, software engineering, cross-cultural computing, environmental analysis, social networks, and WWW information. The book will be of interest to all those whose work involves dealing with large amounts of data.
