Traveling US 25 through the Carolinas today is a much more pleasant experience than it was in the 1700s. Then, the road from the Tennessee Cherokee Towns to Augusta, Georgia, was a Cherokee trading path that followed a bison trace to the navigable port on the Savannah River. Drovers came from as far as Kentucky herding hogs, turkeys and mules.

Lowcountry South Carolinians traveled by stagecoach and wagon to the foothills and mountains, staying for months. The Augusta Road, Saluda Gap and Buncombe Turnpike became the Dixie Highway Carolina Division and then US Route 25 by 1931. Authors Anne Peden and Jim Scott travel the trading path and concrete highway to explore this fascinating history.

The Poll for a Knight of the Shire to Represent the Western Division of the County of Kent, in the Sixth Parliament of the Reign of Queen Victoria ... Taken on Thursday, the Nineteenth of February, 1857. The Oxford Handbook of American Political Parties and Interest Groups

John Locke (1632-1704) was a leading seventeenth-century philosopher and widely considered to be the first of the British Empiricists. One of the most influential Enlightenment thinkers, his major works and central ideas have had a significant impact on the development of key areas in political philosophy and epistemology. The Bloomsbury Companion to Locke is a comprehensive and accessible resource to Locke's life and work, his contemporaries and critics, his key concepts and enduring influence. Including more than 80 specially commissioned entries, written by a team of leading experts, topics range from absolutism to toleration, from education to socinianism. The Companion features a series of indispensable research tools including a chronology of Locke's life, an A-Z of his key concepts and synopses of his principal writings. This is an essential resource for anyone working in the fields of Locke Studies and Seventeenth-Century Philosophy.

The Continuum Companion to Locke

"Play fool, to catch wise."--proverb of Jamaican slaves Confrontations between the powerless and powerful are laden with deception--the powerless feign deference and the powerful subtly assert their mastery. Peasants, serfs, untouchables, slaves, laborers, and prisoners are not free to speak their minds in the presence of power. These subordinate groups instead create a secret discourse that represents a critique of power spoken behind the backs of the dominant. At the same time, the powerful also develop a private dialogue about practices and goals of their rule that cannot be openly avowed. In this book, renowned social scientist James C. Scott offers a penetrating discussion both of the public roles played by the powerful and powerless and the mocking, vengeful tone they display off stage--what he terms their public and hidden transcripts. Using examples from the literature, history, and politics of cultures around the world, Scott examines the many guises this interaction has taken throughout history and the tensions and contradictions it reflects. Scott describes the ideological resistance of subordinate groups--their gossip, folktales, songs, jokes, and theater--their use of anonymity and ambiguity. He also analyzes how ruling elites attempt to convey an impression of hegemony through such devices as parades, state ceremony, and rituals of subordination and apology. Finally, he identifies--with quotations that range from the recollections of American slaves to those of Russian citizens during the beginnings of Gorbachev's glasnost campaign--the political electricity generated among oppressed groups when, for the first time, the hidden transcript is spoken directly and publicly in the face of power. His landmark work will revise our understanding of subordination, resistance, hegemony, folk culture, and the ideas behind revolt.
