

Journal Of Marketing Theory And Practice Impact Factor

This exciting new Handbook brings together the latest in debates concerning the development of marketing theory, featuring original contributions from a selection of leading international authors. The collection aims to give greater conceptual cohesion to the field, by drawing together the many disparate perspectives and presenting them in one volume. The contributors are all leading international scholars, chosen to represent the intellectual diversity within marketing theory. Marketing Theory presents a comprehensive scholarly overview of the development of marketing theory. Drawing on a variety of international sources, the three editors bring together key contributions to the field that reflect both historical and contemporary debates and influences. This major work draws together the many disparate perspectives that have contributed to the development of marketing theory to provide scholars with a substantive reference base from which to further develop the area.

`This book, written by a group of outstanding UK researchers, pinpoints the essence and scope of relationship marketing and vividly demonstrates its

applicability in different industries. Relationship marketing is the marketing of the next millennium. Don't argue. Just read the book!' - Evert Gummesson, Stockholm University By examining the relationship between theory and practice, Relationship Marketing appears at an important stage in the development of relationship marketing. The opening chapter examines relationship marketing (RM) theory, reviews a number of RM definitions and reports on the economic arguments in favour of RM. It describes the nature and scope of marketing relationships, picking out characteristics such as concern for the welfare of customers, trust and commitment between partners, and the importance of customer service. Finally, it identifies a number of requirements for successful RM. The next 12 chapters describe, analyze and critique RM practice in a number of organizational settings (supply-chain relationships, principal-agent relationships, business-to-business relationships, intra-organizational relationships) and industries (hospitality, air travel, retail banking, corporate banking, credit cards, financial advisory services, advertising agencies, not-for-profit organizations). The final chapter reflects on the relationships between theory and practice.

Journal of Social Marketing

One of the true classics in Marketing is now thoroughly revised and updated. "Marketing Theory" is both evolutionary and revolutionary. As in earlier editions, Shelby Hunt focuses on the marketing discipline's multiple stakeholders. He articulates a philosophy of science-based 'tool kit' for developing and analyzing theories, law-like generalizations, and explanations in marketing science. Hunt adds a new dimension to the book, however, by developing arguments for the position that Resource-Advantage Theory provides the foundation for a general theory of marketing and a theoretical foundation for business and marketing strategy. Also new to this edition are four chapters adapted and updated from Hunt's "Controversy in Marketing Theory" that analyze the 'philosophy debates' within the field, including controversies with respect to scientific realism, qualitative methods, truth, and objectivity.

Expanding disciplinary Space: On the Potential of Critical Marketing provides an introduction to the major perspectives in critical marketing studies. It contains theoretical reflections on critical

marketing whilst building on the key concepts and ideas, which are vital to the subject, through detailed empirical studies. An international collection of marketing experts discuss the eclectic character and potential of the critical turn within marketing theory and practice. Chapters explore topics such as marketing academia, consumer research, political marketing, marketing ethics, postcolonial epistemic ideology in marketing, marketing theory, and marketing for community development. The text is essential reading for all those interested in contemporary developments in marketing theory and practice irrespective of the discipline from which they originate. This book was originally published as a special issue of the Journal of Marketing Management.

Marketing Research, 5e equips students with the knowledge and skills required to successfully undertake marketing research. Combining a solid theoretical foundation with a practical, step-by-step approach, the marketing research process is explored through a learning model that is constantly reinforced throughout the text. Using local and international examples, data sets and case studies to explain traditional marketing research methods, Marketing Research also examines new theories and techniques. To reflect emerging industry practices, each stage of research reporting is detailed, as well as a range of presentation methodologies. For analysing data, the text

Transnational Marketing and Transnational Consumers are becoming increasingly common in today's globalizing and fast moving world of business. This book presents a fresh perspective focusing on the transnational character of organizations and firms while underlining the importance of the transnationality of marketing strategies for success. At the same time, it introduces the novel concepts of Transnational Consumers and Transnational Mobile Consumers which take into account the increasing human mobility and its implications for marketing success.

This book gives flesh to the ever popular shorthand "glocal" referring to strategies thinking globally but acting locally. This is the reality of current business environment where the norm is fast mobility of goods, services, finance, and consumers.? Transnational Mobility of Consumers is of increasing importance for understanding transnational marketing. Prof. Ibrahim Sirkeci's new book, Transnational Marketing and Transnational Consumers, deals with this important issue in an excellent way. The book is highly recommendable for both academics and practitioners in International Marketing. Svend Hollensen University of Southern Denmark Author of 'Global Marketing' (Pearson)

This special issue of Review of Marketing Research is unique in that it contains chapters by marketing legends in their own words. Bagozzi, Hunt, Kotler, Kumar, Malhotra, Monroe, Sheth, Wind and Zaltman summarize not only their research but also the salient aspects of their academic life journeys.

Gendering Theory in Marketing and Consumer Research showcases state-of-the-art scholarship on gender in the field of marketing and consumer research. The book presents seven original contributions by a group of internationally renowned academics, who take up the task of theorising

gender and gendering theory in new ways, accommodating recent intersectional, material-discursive, and practice-oriented theorisations. Connecting the study of marketing and consumer behaviour to different theoretical perspectives on gender, the contributors explore and critically examine the gendered nature and dimensions of contemporary marketplace activity. Through innovative conceptual development and insightful empirical analyses, the book offers important scholarly contributions to the literature on gender, marketing, and consumer research, and advances our understanding of gender as lived experience and socially regulated performance. It also frequently employ an intersectionalist perspective, theorising gender as only a part of one's subject position, which is constituted by mutually reinforcing categories. The book will be essential reading for students, scholars, and practitioners who are interested in the implications and contemporary manifestations of gender as a cultural category in the marketplace. Towards Critical Marketing Accountings

Marketing is still widely perceived as simply the creator of wants and needs through selling and advertising and marketing theory has been criticized for not taking a more critical approach to the subject. This is because most conventional marketing thinking takes a broadly managerial perspective without reflecting on the wider societal

implications of the effects of marketing activities. In response this important new book is the first text designed to raise awareness of the critical, ethical, social and methodological issues facing contemporary marketing. Uniquely it provides: · The latest knowledge based on a series of major seminars in the field · The insights of a leading team of international contributors with an interdisciplinary perspective · A clear map of the domain of critical marketing · A rigorous analysis of the implications for future thinking and research. For faculty and upper level students and practitioners in Marketing, and those in the related areas of cultural studies and media Critical Marketing will be a major addition to the literature and the development of the subject.

‘This is an important text. It brings together critical reflections on the discipline’s contribution in terms of theory, practice and pedagogy and as such is equally as insightful and challenging as some of its recent predecessors (eg Brown et al 1996; Brown and Turley 1997; Brown 1998). The book represents a useful point of departure for those setting off on their own critical journeys and, thus, it should be included on the reading lists of all those carrying out masters or doctoral research in marketing’ - Journal of Marketing Management This book provides a challenging and stimulating coverage of a broad range of key issues in contemporary marketing - such as marketing philosophy, marketing ethics, the mar

Summary of key features: - A marketing theory text written specifically for students - Provides an introduction and overview of the role of theory in marketing - Contributors are leading, well-established authorities in their fields - Explains key concepts for students in a clear, readable and concise manner. - Provides full, in-depth coverage of all topics, with recommended further readings

This book focuses on marketing graphics, figures, and visual artifacts discussed in marketing theory in order to explain and discuss the marketing concepts visually and open a door to future predictions of

the evolution of such marketing concepts. Marketing concepts are, by nature, abstract and there is a need for approaches that provide a clear picture of such concepts and concrete and hands-on knowledge tools to students, scholars, and practitioners. Furthermore, the recent rising importance and popularity of marketing metrics make visualization of such important marketing phenomena possible. Visualizing or concretizing of marketing data is more important than ever as the usage and presentation of such enormous amounts of data requires visual representation. Thus, the book provides collection of such marketing visualization examples that can help marketing scholars and students to make sense of marketing concepts and their data, so that they can develop clearer and winning marketing strategies.

Shelby Hunt's revision of "Foundations of Marketing Theory" continues the tradition of the previous three by providing a clear framework for advancing marketing thought and research.

Marketing Performativity

The Advanced Dictionary of Marketing

Foundations of Marketing Theory

Marketing Performativity: Theories, practices and devices addresses concerns about the theory-practice gap so often discussed by marketing scholars, and indeed reframes this 'gap' by asking 'how is marketing theory performative?' How does marketing theory shape action? Who uses it in practice and to what effects? The individual contributions in this book look at how marketing theories are used in practice and what this means for our understanding of the practicing–theorising landscape of marketing. The book begins by considering what performativity is and how this concept is used in the marketing literature. It then considers three themes concerning the performativity of marketing that emerge from the contributions, before presenting ten empirical studies that ask how, why, and to what effect marketing theories are used and 'performed' in marketing practice. The book also summarises the implications of three themes and sketches research areas for further developing our understanding of the performativity of marketing. This book was originally published as a special issue of the Journal of Marketing Management.

Rethinking Marketing

Cross-cultural marketing is an important element of the contemporary business environment. Many conventional accounts of the topic have conflated cross-cultural and cross-national marketing, but in this groundbreaking, new book, Burton argues that these generalizations have little meaning given the extent of multi-culturalism in many societies. Given the importance of new emerging markets in the Far East, Middle East, Asia and Latin America, this book raises important questions about the applicability of existing marketing theory and practice, which was originally developed using the model of Western society. An extensive range of cross-cultural marketing issues is addressed, including: Cross-cultural consumer behaviour Cross-cultural management practice Promotional strategies Product development Distribution Marketing research methods Cross-cultural Marketing offers a new, more complex and sophisticated approach to the important challenges for existing marketing theory and practice and their continued relevance for stakeholders. As such, it is an invaluable text for students of international and cross-cultural marketing, as well as for practitioners who wish to assess new developments in the field.

Shelby Hunt analyses the major controversies in the philosophical debates currently raging in marketing theory. Using an historical approach, he argues against relativism

and for scientific realism as a philosophy for guiding marketing research and theory. Combining academic rigour and practical application, E-Marketing brings together a theoretical framework from academic peer reviewed literature with contemporary developments in internet technology. Considering marketing theory and practice, the text demonstrates how conceptual frameworks can be applied to the e-marketing environment.
