***Spanish is a fun, social activity! What makes "Spanish with Amigos" different from the many other Spanish books out there is that instead of studying Spanish by yourself, this book was designed for you to practice your Spanish conversation skills right from the start with a friend (an intercambio), a conversation group (grupo de conversación), or even a beginning Spanish conversation class (clase de conversación). "Spanish with Amigos" has been intentionally designed to be very simplistic - with little grammar included. Each of the 22 topics start with a manageable vocabulary list of 12-20 words/phrases, including a phonetic pronunciation guide, such: Good morning. / Buenos días. / BWAY-nose DEE-ahs. The topic is immediately followed by role-play ideas and conversational exercises so that you can practice the vocabulary with your co-workers, family, and friends - making Spanish a fun, social activity!***

*high school Spanish. The focus in Spanish 3 is to get students speaking Spanish more conversationally, so each lesson includes a daily guided conversation topic (question) for partners and/or groups to discuss. Another goal in level 3 is to get students started doing more expository Spanish writing, so 3A contains 6 "journal prompts" on topics such as school plans and friendships, and 3B has 4 journal prompts on topics such as art and the environment. At this level, students start preparing more explicitly for the speaking and writing demands of AP Spanish Language and Culture should they choose to go that far in their Spanish program. Spanish 3A and B lessons teach sets of vocab strings with skits just like levels 1 and 2 do, and include a pretty heavy load of grammar topics. 3A reviews pronouns, present tense, ser and estar, preterit and imperfect, and present progressive; it introduces present subjunctive, future, and conditional, past progressive, and present perfect. 3B introduces past perfect, reviews and digs a little deeper into preterit and*

*imperfect as well as the present subjunctive, then reviews future and conditional, and if you and your students are up for it, ends with past subjunctive. (It's okay if you don't get that far in the grammar lessons in 3B.) The lessons include a complete vocab list by semester for students, a grammar topics list by semester for students, daily warm-up quizzes, skit scripts, page-long Spanish readings recycling the vocab/grammar content of the skit, daily conversation topics and sentence-starters for responses, writing activities, grammar topics (you use your own textbook materials or grammar workbooks and worksheets to go with the topic) and grammar homework assignments, two "mini" tests per semester plus midterm and final exam (plus practice tests for each.) The lessons are designed so that once you have your copies made, you can just flip the pages and teach. All masters are included and ready to copy, including sub plans. A tour de force from acclaimed author Alan Gratz (*Prisoner B-3087*), this timely -- and timeless -- novel tells the powerful story of three different children seeking refuge. A New York Times bestseller!**JOSEF** is a Jewish boy living in 1930s Nazi Germany. With the threat of concentration camps looming, he and his family board a ship bound for the other side of the world . . . **ISABEL** is a Cuban girl in 1994. With riots and unrest plaguing her country, she and her family set out on a raft, hoping to find safety in America . . . **MAHMOUD** is a Syrian boy in 2015. With his homeland torn apart by violence and destruction, he and his family begin a long trek toward Europe . . . All three kids go on harrowing journeys in search of refuge. All will face unimaginable dangers -- from drownings to bombings to betrayals. But there is always the hope of tomorrow. And although Josef, Isabel, and Mahmoud are separated by continents and decades, shocking connections will tie their stories together in the end. This action-packed novel tackles topics both timely and timeless: courage, survival, and the quest for home. This book represents the most comprehensive account to date of foreign language writing. The field of TESOL encompasses English teachers who teach English as an additional language in English-dominant countries and those teachers who teach English as a foreign language in countries where a language other than English is the official language. This range of educators teaches English to children, adolescents, and adults in primary, secondary, post-secondary, popular education, and language academies or tutoring centers. The diversity of learners and contexts within the TESOL field presents a unique opportunity for educators to address varied educational and societal needs. This opportunity calls for TESOL educators who can support the whole learner in a range of contexts for the greater social good. There is an urgent need for readily reproducible and step-by-step research-based practices and current standards in TESOL that bridge the gap between critical scholarship and equitable teaching practices.

*contend not only that these intersections exist, but that they are the site of issues and realities that require the attention of language educators and point to avenues of growth for the language teaching profession. The essays included seek to indicate the possibilities of a neglected area of inquiry, not only in terms of theory but also in terms of the practices of language education. Given this aim of opening up fresh questions, the book is arranged so as to show the relevance of the nexus of spirituality and social justice to teacher education (chapters 3 and 4), language classroom practices (chapters 5 and 6), and the theoretical sources that inform scholarly discussion of language education (chapters 7 and 8). The opening chapters place these explorations in a larger context by showing how they fit into existing social contexts and academic discussions.*

And there's grace in being willing to know and hear others. This, for me, is how we become.' - Michelle Obama In publishing *Becoming*, a work of deep reflection and mesmerizing storytelling, Michelle Obama shared her own extraordinary journey to help create space for others to tell their stories, to give people the courage to discover the power of their own voice, and to widen the pathway for who belongs and why. This multigenerational guided journal is designed to be filled out by individuals versus a couple. Couples should get 2 copies, both have their own perspectives and had a life before being a couple, and should be remembered and honored. What a treasured gift this will be to your future generations, especially in your own handwriting. In cases where the person either can't write, or their writing is not legible, have someone 'interview' them with the questions then write their responses into the journal on their behalf. What if you had the privilege of reading the memories and history of long past ancestors? Wouldn't that be an amazing thing? Give that gift to your future generations to remember you, and the life you lived.

With passion, clarity, and rich examples, *Reclaiming Writing* is dedicated to reawakening the journeys that writers take as they make sense of, think about, speak back to their worlds in this era of high-stakes testing and mandated curriculum. Thematically based sections present the pillars of the volume's critical transactive theory: learning, teaching, curriculum, language, and sociocultural contexts. Each chapter is complemented by an extension that offers application possibilities for teachers in various settings. *Reclaiming Writing* emphasizes literacy as a vehicle for exploring, interrogating, challenging, finding self, talking back to power, creating a space in the world, reflecting upon the past, and thinking forward to a more joyful and democratic future.
