Allied health education has long lacked a common literature, as the activities of all these diverse disciplines have been reported only in the specialty journals of each. This review provides a locus for articles of a broad and general nature which the entire spectrum of allied health educators and students will find of vital interest. Some of the topics included in this first review include dental education, clinical laboratory work, radiologic technology, the physician's assistant, occupational therapy, and preventive health care. Additional reviews to be published on a regular basis will be devoted to other health disciplines and general health topics. Essays by Ruth M. French, Joseph Hamburg, John W. **management course at Master's level, this book introduces the field to students who may have little prior knowledge of management. Willman interprets 'management' broadly to embrace the sub-disciplines of strategy, finance, accounting, marketing, organisational behaviour and operations management. The text aims to show how they arose and how they relate, thus engaging the reader in a little history. The book is integrative, in that it seeks to find common concerns in disparate literatures. It is also critical in that it seeks to comparatively evaluate contributions to the management field both in terms of theoretical contribution and practical impact. It is intended to be accessible to a range of readers, presenting technical materials in an informal way. Finally, it is introductory in that it assumes no previous knowledge of the academic management field.**

that began with an in-depth look at how God views details, communicates with this world, and decides what process to use. Of course this series of books looked at aspects recorded in scripture about the Tabernacle. How the materials were collected, specific design details, who did the work, and how the Tabernacle was constructed. Much of that information is found in dozens, maybe hundreds of other books about the Tabernacle. But there are details setting this book apart from every other book written about the Tabernacle. This book takes a verse by verse, story by story, chapter by chapter look at the Tabernacle. In other words, this book presents a picture of the Tabernacle from God's point of view. Which the beginning of this series pointed out, is much different than any human perspective. Marcus Aemilius Lepidus was a significant force in Roman political, religious and military affairs during the late Republic. However, in most accounts he is dismissed quickly, made sport of, or bitterly attacked. Through a careful examination of Lepidus's

career, Richard Weigel has shown why many of the sources are hostile and how these have created an inaccurate assessment of Lepidus's role in history. Weigel shows that Lepidus was a competent administrator and that he was consistent in serving the Republic's needs as he understood them. The Tarnished Triumvir

the phenomenon and its spread before going on to explore one case study the Queensland Shakespeare Ensemble's (Australia) Shakespeare Prison Project in detail. The book then analyses the phenomenon from a number of perspectives, and evaluates a number of claims made about the outcomes of such programs, particularly as they relate to offender health and behaviour. Unlike previous works on the topic, which are largely individual case studies, this book focuses not only on Prison Shakespeare's impact on the prisoners who directly participate, but also on prison culture and on broader social attitudes towards both prisoners and Shakespeare.
