This monograph deals with variable tag questions. These are utterances with a variable interrogative tag, like It's peculiar writing, isn't it, and the semi-variable tag inquit, such as Nice,

innit. The aim is to provide a corpus-based, comprehensive semantic-pragmatic typology of British English tag questions.

Compared to existing descriptions, the proposed typology

is novel in three ways. Firstly, whereas almost all existing typologies are single-layered classifications, the functions of tag questions are categorized into two parallel dimensions of

clusters of
