

Just One Damned Thing After Another The Chronicles Of St Marys 1 Jodi Taylor

The tenth book in the bestselling Chronicles of St Mary's series which follows a group of tea-soaked disaster magnets as they hurtle their way around History. If you love Jasper Fforde, Ben Aaronovitch or Doctor Who, you won't be able to resist Jodi Taylor. 'Jodi Taylor does it again. A brilliant yomp through history' - Reader Review You can't change History. History doesn't like it. There are always consequences. Max is no stranger to taking matters into her own hands. Especially when she's had A Brilliant Idea. Yes, it will mean breaking a few rules, but - as Max always says - they're not her rules. Seconded to the Time Police to join in the hunt for the renegade Clive Ronan, Max is a long way from St Mary's. But life in the future does have its plus points - although not for long. A problem with the Time Map reveals chaos in the 16th century and the wrong Tudor queen on the throne. History has gone rogue, there's a St Mary's team right in the firing line and Max must step up. You know what they say. Hope for the best. But plan for the worst. Readers love Jodi Taylor: 'Once in a while, I discover an author who changes everything... Jodi Taylor and her protagonista Madeleine "Max" Maxwell have seduced me' 'A great mix of British proper-ness and humour with a large dollop of historical fun' 'Addictive. I wish St Mary's was real and I was a part of it' 'Jodi Taylor has an imagination that gets me completely hooked' 'A tour de force' A history of weather forecasting, and an animated portrait of the nineteenth-century pioneers who made it possible By the 1800s, a century of feverish discovery had launched the major branches of science. Physics, chemistry, biology, geology, and astronomy made the natural world explicable through experiment, observation, and categorization. And yet one scientific field remained in its infancy. Despite millennia of observation, mankind still had no understanding of the forces behind the weather. A century after the death of Newton, the laws that governed the heavens were entirely unknown, and weather forecasting was the stuff of folklore and superstition. Peter Moore's The Weather Experiment is the account of a group of naturalists, engineers, and artists who conquered the elements. It describes their travels and experiments, their breakthroughs and bankruptcies, with picaresque vigor. It takes readers from Irish bogs to a thunderstorm in Guanabara Bay to the basket of a hydrogen balloon 8,500 feet over Paris. And it captures the particular bent of mind—combining the Romantic love of Nature and the Enlightenment love of Reason—that allowed humanity to finally decipher the skies. An insightful biography of Florence's famous son Acclaimed biog rap her R.W.B. Lewis traces the life and complex development? emotional, artistic, philosophical?of this supreme poet-historian. Here we meet the boy who first encounters the mythic Beatrice, the lyric poet obsessed with love and death, the grand master of dramatic narrative and allegory, and his monumental search for ultimate truth in The Divine Comedy. It is in this masterpiece of self-discovery and redemption that Lewis finds Dante's own autobiography?and the sum of all his shifting passions and epiphanies. A totalitarian regime has ordered all books to be destroyed, but one of the book burners suddenly realizes their merit.

The sixth book in the bestselling Chronicles of St Mary's series which follows a group of tea-soaked disaster magnets as they hurtle their way around History. If you love Jasper Fforde or Ben Aaronovitch, you won't be able to resist Jodi Taylor. What if the course of history was on your shoulders? 'To do what I do - go where I go - see what I see - it's a wonderful, unique, never-to-be-taken-for-granted privilege.' With great privilege comes great responsibility, something Max knows only too well, and as newly appointed Chief Training Officer at the St Mary's Institute of Historical Research, it's up to her to drum this guiding principle into her five new recruits. With a training programme that includes Joan of Arc, an illegal mammoth, a duplicitous Father of History, a bombed rat, Stone Age hunters and Dick the Turd, the question everyone is asking themselves is - what could possibly go wrong? Readers love Jodi Taylor: 'Once in a while, I discover an author who changes everything... Jodi Taylor and her protagonista Madeleine "Max" Maxwell have seduced me' 'A great mix of British proper-ness and humour with a large dollop of historical fun' 'Addictive. I wish St Mary's was real and I was a part of it' 'Jodi Taylor has an imagination that gets me completely hooked' 'A tour de force' The ninth book in the bestselling Chronicles of St Mary's series which follows a group of tea-soaked disaster magnets as they hurtle their way around History. If you love Jasper Fforde or Ben Aaronovitch, you won't be able to resist Jodi Taylor. They say you shouldn't push your luck. Max gives her own luck a massive shove every day - and it's only a matter of time until luck pushes back... January 1536 - the day of Henry VIII's infamous jousting accident. Historians from St Mary's are there in force, recording and documenting. And, arguing - obviously. A chance meeting between Max and the Time Police leads to a plan of action. And, it's one that will have very serious consequences - especially for Max. Her private life is already more than a little rocky. But with Leon recovering and Matthew safe in the future there will never be a better opportunity to bring down Clive Ronan, once and for all. From Tudor England to the burning city of Persepolis - and from a medieval siege to a very nasty case of 19th century incarceration - Max is determined that this time, he will not escape. Readers love Jodi Taylor: 'Once in a while, I discover an author who changes everything... Jodi Taylor and her protagonista Madeleine "Max" Maxwell have seduced me' 'A great mix of British proper-ness and humour with a large dollop of historical fun' 'Addictive. I wish St Mary's was real and I was a part of it' 'Jodi Taylor has an imagination that gets me completely hooked' 'A tour de force' Whether he is comparing how students and historians interpret documentary evidence or analyzing children's drawings, Wineburg's essays offer rough maps of how ordinary people think about the past and use it to understand the present. These essays acknowledge the role of collective memory in filtering what we learn in school and shaping our historical thinking. Why does the West rule? In this magnum opus, eminent Stanford polymath Ian Morris answers this provocative question, drawing on 50,000 years of history, archeology, and the methods of social science, to make sense of when, how, and why the paths of development differed in the East and West — and what this portends for the 21st century. There are two broad schools of thought on why the West rules. Proponents of "Long-Term Lock-In" theories such as Jared Diamond suggest that from time immemorial, some critical factor — geography, climate, or culture perhaps — made East and West unalterably different, and determined that the industrial revolution would happen in the West and push it further ahead of the East. But the East led the West between 500 and 1600, so this development can't have been inevitable; and so proponents of "Short-Term Accident" theories argue that Western rule was a temporary aberration that is now coming to an end, with Japan, China, and India resuming their rightful places on the world stage. However, as the West led for 9,000 of the previous 10,000 years, it wasn't just a temporary aberration. So, if we want to know why the West rules, we need a whole new theory. Ian Morris, boldly entering the turf of Jared Diamond and Niall Ferguson, provides the broader approach that is necessary, combining the textual historian's focus on context, the anthropological archaeologist's awareness of the deep past, and the social scientist's comparative methods to make sense of the past, present, and future — in a way no one has ever done before.

Best Book of Fall (Esquire) and a Most Anticipated Book of 2021 (Lit Hub) What Has Happened to Fiction in the Age of Platform Capitalism? Since it was first launched in 1994, Amazon has changed the world of literature. The “Everything Store” has not just transformed how we buy books; it has affected what we buy, and even what we read. In Everything and Less, acclaimed critic Mark McGurl explores this new world where writing is no longer categorized as high or lowbrow, literature or popular fiction. Charting a course spanning from Henry James to E. L. James, McGurl shows that contemporary writing has less to do with writing per se than with the manner of its distribution. This consumerist logic—if you like this, you might also like ...—has reorganized the fiction universe so that literary prize-winners sit alongside fantasy, romance, fan fiction, and the infinite list of hybrid genres and self-published works. This is an innovation to be cautiously celebrated. Amazon’s platform is not just a retail juggernaut but an aesthetic experiment driven by an unseen algorithm rivaling in the depths of its effects any major cultural shift in history. Here all fiction is genre fiction, and the niches range from the categories of crime and science fiction to the more refined interests of Adult Baby Diaper Lover erotica. Everything and Less is a hilarious and insightful map of both the commanding heights and sordid depths of fiction, past and present, that opens up an arresting conversation about why it is we read and write fiction in the first place.

Here is a book as joyous and painful, as mysterious and memorable, as childhood itself. I Know Why the Caged Bird Sings captures the longing of lonely children, the brute insult of bigotry, and the wonder of words that can make the world right. Maya Angelou's debut memoir is a modern American classic beloved worldwide. Sent by their mother to live with their devout, self-sufficient grandmother in a small Southern town, Maya and her brother, Bailey, endure the ache of abandonment and the prejudice of the local “powhitetrash.” At eight years old and back at her mother’s side in St. Louis, Maya is attacked by a man many times her age—and has to live with the consequences for a lifetime. Years later, in San Francisco, Maya learns that love for herself, the kindness of others, her own strong spirit, and the ideas of great authors (“I met and fell in love with William Shakespeare”) will allow her to be free instead of imprisoned. Poetic and powerful, I Know Why the Caged Bird Sings will touch hearts and change minds for as long as people read. “I Know Why the Caged Bird Sings liberates the reader into life simply because Maya Angelou confronts her own life with such a moving wonder, such a luminous dignity.”—James Baldwin From the Paperback edition.

"Who Goes There?" is the novella that formed the basis of John Carpenter's film "The Thing." John W. Campbell's classic tells of an antarctic research base that discovers and thaws the ancient, frozen body of a crash-landed alien -- with terrifying results!

Much has been missed by social researchers in their attempt to understand the human experience as a series of rational, cognitive choices. What comes under the rubric of "lived experience" fits no researcher's model other than, in the words of one of the volume's contributors, "one damned thing after another." Human subjectivity in lived experience, both that of the subject and of the researcher, is the topic of Investigating Subjectivity, an important corrective to the cool, disdainful stance of most previous social research. The dozen contributors examine various aspects of subject--the emotions, the gendered nature of experiences, the body-mind relationship, perceptions of time, place and setting, understanding of the self--and how these elements provide a fuller understanding of the human condition, incorporating subjectivity into research requires a new set of methods--systematic introspection, self-ethnography, staged readings, poetry, stories--many of which are demonstrated in the book. It also requires a focus on mundane (minor ailments, media images, hobbies) and extraordinary (exotic trips, earthquakes, abortion experience), elements, which make up the bulk of lived experience, and how people react to these life events. Investigating Subjectivity stands out from any other books in the field because the emphasis is on research rather than theory or conceptualization. This outstanding volume is quality reading for academicians and undergraduate and graduate students in sociology, cultural studies, qualitative methods. and communication, especially those interested in emotions, narration, textual analysis, and symbolic interaction.

Just One Damned Thing After Another

In this sharp and funny urban fantasy novel, booze is magic, demons are real, and millennial Bailey Chen joins a band of monster-fighting Chicago bartenders instead of finding a “real” post-college job. Bailey Chen is fresh out of college with all the usual new-adult demons: no cash, no job offers, and an awkward relationship with Zane, the old friend she kinda-sorta hooked up with during high school. But when Zane introduces Bailey to his monster-fighting bartender friends, her demons become a lot more literal. It turns out that evil creatures stalk the city streets after hours, and they can be hunted only with the help of magically mixed cocktails: vodka grants super-strength, whiskey offers the power of telekinesis, and rum lets its drinker fire blasts of elemental energy. But will all these powers be enough for Bailey to halt a mysterious rash of gruesome deaths? And what will she do when the safety of a “real world” job beckons? This sharp and funny urban fantasy is perfect for fans of Buffy the Vampire Slayer, Scott Pilgrim Vs. The World, and grown-up readers of Harry Potter. Includes 14 recipes from a book of ancient cocktail lore.

A Chronicles of St Mary's short story that is sure to entertain. If you love Jasper Fforde or Ben Aaronovitch, you won't be able to resist Jodi Taylor. You don't have to travel through time to experience catastrophe on an epic scale, as the disaster-magnets from St Mary's are about to find out... For Max, what starts off as a perfectly normal week is about to degenerate into a quagmire of egotistical film producers, monumental pub crawls, unsigned contracts, exploding rocks, Professor Rapson and his megaphone, the world's biggest bacon butty - and Angus - the third component of the most notorious love triangle since Menelaus, Paris and Whatshername - the one with the face they launched ships off. A Perfect Storm of calamity, devastation and misfortune only ever encountered at St Mary's. Readers love Jodi Taylor: 'Once in a while, I discover an author who changes everything... Jodi Taylor and her protagonista Madeleine "Max" Maxwell have seduced me' 'A great mix of British proper-ness and humour with a large dollop of historical fun' 'Addictive. I wish St Mary's was real and I was a part of it' 'Jodi Taylor has an imagination that gets me completely hooked' 'A tour de force' Mavis Gallant is the modern master of what Henry James called the international story, the fine-grained evocation of the quandaries of people who must make their way in the world without any place to call their own. The irreducible complexity of the very idea of home is especially at issue in the stories Gallant has written about Montreal, where she was born, although she has lived in Paris for more than half a century. Varieties of Exile, Russell Banks's extensive new selection from Gallant's work, demonstrates anew the remarkable reach of this writer's singular art. Among its contents are three previously uncollected stories, as well as the celebrated semi-autobiographical sequence about Linnet Muir—stories that are wise, funny, and full of insight into the perils and promise of growing up and breaking loose.

In this new epic fantasy, three societal outcasts must work together to fulfill the orders of a dead king's ghost or risk their nation falling to a tyrant The king is dead, his queen is missing. On the amber coast, the usurper king is driving Zavonia to the brink of war. A dangerous magical power is rising up in Biela Miasto, and the only people who can set things right are a failed bodyguard, a Landstrider witch, and the assassin who set off the whole sorry chain of events. Valdas, Captain of the High Guard, has not only failed in his duty to protect the king, but he's been accused of the murder, and he's on the run. He's sworn to seek justice, but his king sets him another task from beyond the grave. Valdas doesn't believe in magic, which is unfortunate as it turns out. Mirza is the healer-witch of a Landstrider band, valued and feared in equal measure for her witchmark, her scolding tongue, and her ability to walk the spirit world. When she's given a task by Valdas' dead king, she believes that the journey she must take is one she can never return from. Lind is the clever assassin. Yes, someone paid him to kill the king, but who is to blame, the weapon or the power behind it? Lind must face his traumatic past if he's to have a future. Can these three discover the real villain, find the queen, and set the rightful king on the throne before the country is overcome?

A spirited history of the changes that transformed Europe during the 1,000-year span of the Middle Ages: “A dazzling race through a complex millennium.”—Publishers Weekly The millennium between the breakup of the western Roman Empire and the Reformation was a long and hugely transformative period—one not easily chronicled within the scope of a few hundred pages. Yet distinguished historian Chris Wickham has taken up the challenge in this landmark book, and he succeeds in producing the most riveting account of medieval Europe in a generation. Tracking the entire sweep of the Middle Ages across Europe, Wickham focuses on important changes century by century, including such pivotal crises and moments as the fall of the western Roman Empire, Charlemagne’s reforms, the feudal revolution, the challenge of heresy, the destruction of the Byzantine Empire, the rebuilding of late medieval states, and the appalling devastation of the Black Death. He provides illuminating vignettes that underscore how shifting social, economic, and political circumstances affected individual lives and international events—and offers both a new conception of Europe’s medieval period and a provocative revision of exactly how and why the Middle Ages matter. “Far-ranging, fluent, and thoughtful—of considerable interest to students of history writ large, and not just of Europe.”—Kirkus Reviews, (starred review) Includes maps and illustrations

The Helix was created to revolutionize the way we communicate. But even the purest of intentions can spawn terrible evil. This wasn't what Lithia had in mind when she decided to run away from home. Her ship was not meant to carry a fugitive wanted in two galaxies, or the stowaways running from a war that wasn't hers. She just wanted to live a quiet, peaceful life alongside her brother. But now she knows too much about The Helix, the secret hidden deep within it, and what it would mean for all humankind if she walked away.

Okonkwo is the greatest warrior alive, famous throughout West Africa. But when he accidentally kills a clansman, things begin to fall apart. Then Okonkwo returns from exile to find missionaries and colonial governors have arrived in the village. With his world thrown radically off-balance he can only hurtle towards tragedy. Chinua Achebe's stark novel reshaped both African and world literature. This arresting parable of a proud but powerless man witnessing the ruin of his people begins Achebe's landmark trilogy of works chronicling the fate of one African community, continued in Arrow of God and No Longer at Ease.

This book addresses three key areas of intellectual enquiry: literary criticism, cultural critique, and philosophical theology. Once closely related, especially in the Catholic tradition, they often appear to be separate and unconnected domains in the modern university. The work of Nicholas Boyle is one of the most significant recent attempts to reconnect them. Responding to that initiative, The Present Word challenges this fragmentation of knowledge. Several of the essays reflect a major change of emphasis in literary studies over the last two decades: the reconnection of an idea of literary criticism closely related to the experience of reading, and the wider societal and political concerns addressed by Cultural Studies. Contributors also debate, from both perspectives, whether theological concepts can illuminate the secular culture in which literature is written and read. Book jacket.

Life of Pi is a masterful and utterly original novel that is at once the story of a young castaway who faces immeasurable hardships on the high seas, and a meditation on religion, faith, art and life that is as witty as it is profound. Using the threads of all of our best stories, Yann Martel has woven a glorious spiritual adventure that makes us question what it means to be alive, and to believe.

NATIONAL BOOK AWARD WINNER • “Altogether gripping, shocking, and brilliantly told, not just a tour de force in its stylistic range, but a great American novel, as powerful a reading experience as nearly any in our literature.”—Michael Dirda, The New York Review of Books Killing Mister Watson, Lost Man’s River, and Bone by Bone—Peter Matthiessen’s great American epic about Everglades sugar planter and notorious outlaw E. J. Watson on the wild Florida frontier at the turn of the twentieth century—were originally conceived as one vast, mysterious novel. Now, in this bold new rendering, Matthiessen has marvelously distilled a monumental work while deepening the insights and motivations of his characters with brilliant rewriting throughout. Praise for Shadow Country “Magnificent . . . breathtaking . . . Finally now we have [this three-part saga] welded like a bell, and with Watson’s song the last sound, all the elements fuse and resonate.”—Los Angeles Times “Peter Matthiessen has done great things with the Watson trilogy. It’s the story of our continent, both land and people, and his writing does every justice to the blood fury of his themes.”—Don DeLillo “The fiction of Peter Matthiessen is the reason a lot of people in my generation decided to be writers. No doubt about it. Shadow Country lives up to anyone’s highest expectations for great writing.” —Richard Ford “Shadow Country, Matthiessen’s distillation of the earlier Watson saga, represents his original vision. It is the quintessence of his lifelong concerns, and a great legacy.”—W. S. Merwin “[An] epic masterpiece . . . a great American novel.”—The Miami Herald Jerry Fodor and Massimo Piatelli-Palmarini, a distinguished philosopher and scientist working in tandem, reveal major flaws at the heart of Darwinian evolutionary theory. They do not deny Darwin’s status as an outstanding scientist but question the inferences he drew from his observations. Combining the results of cutting-edge work in experimental biology with crystal-clear philosophical argument they mount a devastating critique of the central tenets of Darwin’s account of the origin of species. The logic underlying natural selection is the survival of the fittest under changing environmental pressure. This logic, they argue, is mistaken. They back up the claim with evidence of what actually happens in nature. This is a rare achievement - the short book that is likely to make a great deal of difference to a very large subject. What Darwin Got Wrong will be controversial. The authors’ arguments will reverberate through the scientific world. At the very least they will transform the debate about evolution.
