Whether navigating the uncharted course of being a first time mother or being a seasoned mother of 19 children, the "heart and soul" of motherhood is the same. Motherhood is one of life's most powerful and

Piecing it all Together: A Collection of Memoirs depicts various events in my life. The book symbolizes my lifelong story pieced into my imaginary quilt. God and his grace is the strong doubled threads that helped piece my quilted blocks together into a God-given masterpiece. Many years ago, God gave me a special gift - the art of quilt making. In my autobiography, I reveal how I have

pieced my sometimes-difficult life together. As a child, I always wanted answers to questions like, "Why do bad things happen to good people?" I was born in the Baby Boomer era, which was a time when children were seen and not heard. As an adult, I have become a voice of utterance through my deliverance in which God has set me free! Through the years I have faced many unpredictable and grievous encounters. I lost my mom at the age of six. When my son was killed by a drunk driver, I wanted to be angry with God, "Why God, why my son? There are so many bad people in this world, Lord." But He sent me a comforter, the Holy Spirit. I faced many difficult

times during my life. Times when I was hungry, the time when I almost drowned, multiple times I was overcome by carbon monoxide, received beatings so much that it broke my spirit, and other occurrences that young children or adults should not have to suffer for the sake of pleasing others. As a young bride I encountered numerous marital problems. Eventually prayer and perseverance made our marital union grow stronger. My faith in God helped me to rise above my difficult dilemmas. He was always there beside me and guiding my footsteps. Today, I enjoy the pleasures and satisfaction of events that life brings. I chose joy! Being a child of

Astronomical concepts can be truly hard to comprehend, especially those of planetary sizes and distances from Earth and from each other. These concepts are made more comprehensible by the group of illustrations in this book, which put scale extraterrestrial objects side by side with objects on Earth we can more easily relate to. For example, study the pictures of Earth floating above Jupiter's Great Red Spot and the asteroid Itokawa resting beside Toronto's CN Tower. These mind-bending images bring things better into perspective and will help

Astronomer/painter Lucien Rudaux's masterpieces of Mars dust storms anticipated Viking and Mars rover images by nearly a century. Space artist Ludek Pesek envisioned astronauts setting up camp on the lunar surface in scenes hauntingly similar to photos taken by Apollo astronauts decades later. But the real benefit of this work is in better grasping the nature of our universe -- how big it is, now large it is, and how we

Autism is a rising epidemic that affects 1 in 68 children. When Jennifer Noonan's son was diagnosed in 2009, she refused to accept the conventional wisdom that autism was largely permanent, instead launching a relentless investigation into the very latest dietary, immunological, and metabolic research available. "I certainly had no reason to believe at that time that autism was treatable," she writes, "but somehow I

decided, in my classically pigheaded way, that it would be." This spirited audacity gave her not only courage -- and ultimately success -- in the face of such a devastating diagnosis, but also a self-aware and darkly funny perspective on her own faults and struggles over the next six years. With equal parts defiance, tenacity, and wry humor, *No Map to This Country* details one family's journey through the modern autism epidemic, and the lengths to which a mother will go to heal her family. Neither a medical manual nor a heartwarming tale of growth, Noonan's groundbreaking yet profoundly relatable
