Long an icon of American musical and political life, Pete Seeger has written eloquently in a diverse array of publications but nowhere is his life story more personally chronicled than in these, his private writings, documents and letters stored for decades in his family barn. Pete Seeger: His Life in His Own Words, collects Seeger's letters, notes, published articles, rough drafts, stories and poetry - creating the most intimate picture yet available of Seeger as a musician, an activist and a family man. The book covers the passions, personalities and experiences of a lifetime of struggle - from the pre-WWII labour movement and the Communist Party, to Woody Guthrie, the Civil Rights movement and the struggle against the war in Vietnam. The portrait that emerges is not of a saint, but a flesh-and-blood man, struggling to understand his time and his place.

The #1 New York Times bestseller from David McCullough, two-time winner of the Pulitzer Prize—the dramatic story-behind-the-story about the courageous brothers who taught the world how to fly—Wilbur and Orville Wright. On a winter day in 1903, in the Outer Banks of North Carolina, two brothers—bicycle mechanics from Dayton, Ohio—changed history. But it would take the world some time to believe that the age of flight had begun, with the first powered machine carrying a pilot. Orville and Wilbur Wright were men of exceptional courage and determination, and of far-ranging intellectual interests and ceaseless curiosity. When they worked together, no problem seemed to be insurmountable. Wilbur was unquestionably a genius. Orville had such mechanical ingenuity as few had ever seen. That they had no more than a public high school education and little money never stopped them in their mission to take to the air. Nothing did, not even the self-evident reality that every time they took off, they risked being killed. In this “enjoyable, fast-paced tale” (The Economist), master historian David McCullough “shows as never before how two Ohio boys from a remarkable family taught the world to fly” (The Washington Post) and “captures the marvel of what the Wrights accomplished” (The Wall Street Journal). He draws on the extensive Wright family papers to profile not only the brothers but their sister, Katharine, without whom things might well have gone differently for them. Essential reading, this is “a story of timeless importance, told with uncommon empathy and fluency...about what might be the most astonishing feat mankind has ever accomplished...The Wright Brothers soars” (The New York Times Book Review).

The Early Childhood Educator for Certificate III, Revised Second Edition

The Woman Who Challenged Big Business - and Won!

Supporting Education □ The Teaching Assistant□s Handbook

Penguin Cha-Cha

Follows the life of Ida Tarbell, the nineteenth-century author/journalist whose articles on the corrupt practices of John D. Rockeller and Standard Oil Company resulted in legislation against trusts.

Available again in time for election season, Eleanor Roosevelt's most important book—a battle cry for civil rights As relevant and influential now as it was when first published in 1963, Tomorrow Is Now is Eleanor Roosevelt's manifesto and her final effort to move America toward the community she hoped it would become. In bold, blunt prose, one of the greatest First Ladies of American history traces her country's struggle to embrace democracy and presents her declaration against fear, timidity, complacency, and national arrogance. An open, unrestrained look into her mind and heart as well as a clarion call to action, Tomorrow Is Now is the work Eleanor Roosevelt willed herself to stay alive to finish writing. For this edition, former U.S. President Bill Clinton contributes a new foreword and Roosevelt historian Allida Black provides an authoritative introduction focusing on Eleanor Roosevelt's diplomatic career. For more than sixty-five years, Penguin has been the leading publisher of classic literature in the English-speaking world. With more than 1,500 titles, Penguin Classics represents a global bookshelf of the best works throughout history and across genres and disciplines. Readers trust the series to provide authoritative texts enhanced by introductions and notes by distinguished scholars and contemporary authors, as well as up-to-date translations by award-winning translators.

Stanley Lambchop is an ordinary boy. At least he was, until the night his bulletin board fell off the wall and flattened him. At only half an inch thick, Stanley can slide under doors, mail himself across the country in an envelope, and fly like a kite! And that's only the start of Stanley's adventures. In these four tales, Stanley also becomes invisible and helps nab some bank robbers, journeys to outer space to rescue aliens, and, after being rounded out, turns flat—again! One thing is for sure: There's nothing Stanley Lambchop can't do!

A Financial Times "Best Book of 2017: Economics" 800-CEO-Read "Best Business Book of 2017: Current Events & Public Affairs" Economics is the mother tongue of public policy. It dominates our decision-making for the future, guides multi-billion-dollar investments, and shapes our responses to climate change, inequality, and other environmental and social challenges that define our times. Pity then, or more like disaster, that its fundamental ideas are centuries out of date yet are still taught in college courses worldwide and still used to address critical issues in government and business alike. That’s why it is time, says renegade economist Kate Raworth, to revise our economic thinking for the 21st century. In Doughnut Economics, she sets out seven key ways to fundamentally reframe our understanding of what economics is and does. Along the way, she points out how we can break our addiction to growth; redesign money, finance, and business to be in service to people; and create economies that are regenerative and distributive by design. Named after the now-iconic “doughnut” image that Raworth first drew to depict a sweet spot of human prosperity (an image that appealed to the Occupy Movement, the United Nations, eco-activists, and business leaders alike), Doughnut Economics offers a radically new compass for guiding global development, government policy, and corporate strategy, and sets new standards for what economic success looks like. Raworth handpicks the best emergent ideas—from ecological, behavioral, feminist, and institutional economics to complexity thinking and Earth-systems science—to address this question: How can we turn economies that need to grow, whether or not they make us thrive, into economies that make us thrive, whether or not they grow? Simple, playful, and eloquent, Doughnut Economics offers game-changing analysis and inspiration for a new generation of economic thinkers.

The Kearns team has been hard at work developing a new assessments pack, which will be available exclusively from Cengage when the CHC20 training package is released later this year. Available for both the Certificate III and Diploma of Early Childhood Education and Care, the Kearns Assessments is a collection of assessment tasks that are designed to be used alongside the Kearns texts, and are mapped against the units of competency for the new CHC20 training package.

"Wish you could find giggle-inducing tween books for girls?" "Tired of young teen fiction that drags you down? Then try..." The Day I Washed My Face in the Toilet A laugh-out-loud novel that's perfect for girls and young teens! All 14-year-old Monica Bloomfield wants is to spend August at a science camp far away from her idiot sister and her wedding party of her crabby old great aunt who lives in England-and if she wants to earn that science camp, she has to keep her siblings in line for the entire trip, plus convince her crazy Grandma to move into a nursing home pronto. Monica's determined to succeed, but things start out badly-and go downhill fast. First, her hyperactive brother moves to England. Then a botched wine-tasting party ends so badly that even a policeman is left speechless (and in need of a new uniform). Getting into science camp isn't going to be easy-especially with a rampaging bull, drunk parrot and the most gorgeous guy in the universe standing in her way. "The Day I Washed My Face In The Toilet" is a fast-paced, funny world and see social injustices corrected-with hilarious results, and one badly-mangled bridesmaid's dress. A Personal Note From The Author: Unfortunately, I came up with the title of this book-and a pretty big chunk of the plot-line-the day I washed my face in a toilet. In my defense, we were living in the middle of nowhere, and a brutal storm hit. The water for almost a week. I was cold and grimy, and by the fifth day I snapped. I pulled the top off the toilet tank and peered in. The water had been sitting there for days, so it smelled really funky. Also, every chain and bobbley thing in there was covered with a thick layer of (and here, I'm using the scientific term) bleck. Still, I was desperate for the fastest sponge bath on record. Sadly, the curry incident happened to me, too. Shortly before I boarded an eight-hour flight from England to Canada, a friend took me out for a huge curry feast. I'd never had curry, and my intestines weren't sure what to do with the stuff, so they promptly rejected it. I developed a massive case of explosive diarrhea, hoping that would hide the smell. It didn't. Toxic gasses trickled out through the neck of the coat, assaulting me and all of the passengers who were stuck sitting around me. Ironically, the coat made the problem worse, because it made me sweat-I was leaking curry vapors out of every pore of my body. This book is a labor of love-but it's also a warning to you on the look-out for great books for girls or young teens-and you don't need vampires or zombies to make you happy-then this one's for you!" From award-winning author Karen Kearns, The Big Picture, 5e is written to support training delivery in CHC30113 Certificate III in Early Childhood Education and Care. It provides students with a practical introduction to working in a children’s service environment, while helping to bridge the gap between theory and best practice. It is designed to address the relevant units of competency in a holistic and integrated way while covering the skills and knowledge students need to be deemed competent in this qualification. The text also examines the personal and professional skills needed to be an effective early childhood educator. Students are introduced to the Early Childhood Australia Code of Ethics and the challenges faced by educators when working with families and children. In addition, Kearns emphasises the importance of knowing the traditional domains of early education and development, and links them to the Early Years Learning Framework (EYLF) and the National Quality Standards (NQS). This text has been substantially revised to include a broader range of knowledge and practice necessary for the challenging role of leading and managing children’s education and care services. The provision of quality early childhood education and care requires knowledgeable leaders and managers who possess a range of twenty-first-century workplace skills necessary to guide the organisation through a process of continuous improvement to meet the increasing demands of service delivery. To address learning needs this text now includes knowledge related not only to the Children’s Services training package but also to the Business Services training package. In particular, knowledge content related to a number of competencies from the Diploma of Leadership and Management has been added. In practical terms The Business of Child Care can be used as a textbook for students completing their initial children’s services diploma training and for experienced educators seeking to develop leadership and management skills by undertaking a Diploma of Leadership and Management. Additional content includes emotional intelligence, risk management as a continuous improvement tool; workplace wellbeing, the need for which became very evident with the stress of the pandemic; critical thinking skills - essential for evaluating service delivery and engaging in self-reflection. Communication has been closely examined so that having difficult conversations, influencing and persuading others, supporting conflict resolution, and guiding meetings to ensure that all team members are supported to have a voice in the organisation, are addressed. With a new foreword: The New York Times–bestselling biography of President Lyndon Johnson from the Pulitzer Prize–winning author of Team of Rivals. Featuring a 2018 foreword by the Pulitzer Prize–winning political historian that celebrates a reappraisal of Lyndon Johnson’s legacy five decades after his presidency, from the vantage point of our current, profoundly altered political culture and climate, Doris Kearns Goodwin’s extraordinary and insightful biography draws from meticulous research in addition to the author’s time spent working at the White House from 1967 to 1969. After Johnson’s term ended, Goodwin remained his confidante and assisted in the preparation of his memoir. In Lyndon Johnson and the American Dream, she traces the 36th president’s life from childhood to his early days in politics, and from his leadership of the Senate to his presidency, analyzing his dramatic years in the White House, including both his historic domestic triumphs and his failures in Vietnam. Drawing on personal anecdotes and candid conversation with Johnson, Goodwin paints a rich and complicated portrait of one of our nation’s most compelling politicians in “the most penetrating, fascinating political biography I have ever read” (The New York Times).

One of the greatest examples of a truly successful life we have in Scripture is Joshua. Throughout Exodus, Numbers, and Deuteronomy, Joshua is described as Moses' minister. He was always following the example and leadership of Moses, the man God appointed to lead the children of Israel out of Egypt and into Canaan. Joshua was then chosen to succeed Moses as the new leader of Israel and bring them into the Promised Land. Joshua was not chosen because of a royal lineage or his status in nobility. He had neither of these. He was chosen, I believe because of some very key character qualities that he had. And these characteristics brought God's blessing and success in his life - and in the lives of those around him. As we look at his life, there is an awesome statement said about him in the middle of the book of Joshua. This statement is the basis of this book: "As the Lord commanded Moses his servant, so did Moses command Joshua, and so did Joshua; he left nothing undone of all that the Lord commanded Moses." (Joshua 11:15) Notice that part I put in bold: "he left nothing undone." This was not his assessment. Neither was it the assessment of his peers. This is the observation that God made and recorded for us. Joshua's testimony was that of accomplishing everything that he was supposed to do. As we look at this thought of "leaving nothing undone," I am not suggesting that you can do everything that you want to do or everything that others want you to do. I am saying that when you find what God wants you to do, develop the right character, and work in God's strength; you can do everything that God wants you to do.

"In a genre overdue for a shakeup, Alexis Coe takes a closer look at our first--and finds he's not quite the man we remember Young George Washington was raised by a struggling single mother, demanded military promotions, chased rich young women, caused an international incident, and never backed down--even when his dysentery got so bad he had to ride with a cushion on his saddle. But after he married Martha, everything changed. Washington became the kind of man who named his dog Sweetlips and hated to leave home. He took up arms against the British only when there was no other way, though he lost more battles than he won. Coe focuses on his activities off the battlefield--like espionage and propaganda. After an unlikely victory in the Revolutionary War, Washington once again shocked the world by giving up power, only to learn his compatriots wouldn't allow it. The founders pressured him into the presidency--twice. He established enduring norms but left office heartbroken over the partisan nightmare his backstabbing cabinet had created. Back on his plantation, the man who fought for liberty finally confronted his greatest hypocrisy--what to do with the hundreds of men, women, and children he owned--before succumbing to a brutal death. Alexis Coe combines rigorous research and unsentimental storytelling, finally separating the man from the legend."--

 Whoever said happy endings were easy was a fool or a liar. Cursed nearly a century ago by a demon he was hunting, Quinn Byrnes has waited impatiently to feel the sense of his mate in his head. After watching his brother settle down with a mate, a spark of hope ignites in Quinn when he finally feels the connection to his own woman. Following the instincts of his inner dragon, Quinn lands in London only to discover the woman destined to break his curse is working for his enemies. Lily Delaney would do anything to guarantee her sister’s safety—including working as a bounty hunter for a powerful demon. When her latest hunt ends in failure, Lily finds herself face to face with a shifter who dumps equal amounts of desire and anger in her veins. Quinn is tall, tattooed, and his dazzling green eyes challenge her to take him as a mate even as he sets her life on fire. Quinn’s presence unleashes unwanted demonic attention in the form of an ancient enemy that’s now turned his sights on Lily. But with her target in the wind and her sister on the chopping block as punishment, time is running out for Lily to launch a daring rescue. As their foes circle, Quinn and Lily orbit around a truth neither wants to admit: happy endings come with a price.

Effective knowing and learning for vocational purposes must take account of the wide range of variables that impact on knowledge formation and that promote learning. In light of those many variables, the formal sector of technical and vocational education and training (TVET) must constantly ask itself what it could and should do to better provide vocational learning for those people likely to pursue learning via the informal sector. This book addresses that question. Vocational Learning: Innovative Theory and Practice discusses four theoretical aspects of vocational learning that support understanding of vocational learning processes and practices: the situations of vocational learning; the power and roles of social networks and identity in vocational learning; knowing and knowledge management processes; and the implications for pedagogic practices in both informal and formal TVET systems. The book provides an overview of a series of international examples of innovative approaches to vocational educational theory and practice, and it draws on empirical research to analyze the effects of those approaches. It includes unique insights into aspects of TVET for Indigenous peoples. With a discussion of policy implications for Europe, North America and Australia, this book is an instrumental tool to understand the underlying factors that generate effective educational and workforce outcomes through effective formal and informal learning.
