Isaiah is different from others, instead of shunning his differences he embraces them as unique. Growing up in a poverty stricken community, Isaiah is taught by his mother to value the importance of receiving an education. In Isaiah's pursuit of higher learning he'll encounter many people. Some who will make a impact for the better, while others will not have his best interest at heart. Through it all Isaiah and his crew of friends are on their on Quest to fulfil the last objective of The New Wave. Using unconventional means the trio are launched into an adventure that will take them across three continents. Several entities stand in the way of them achieving their goal, and ultimately prices will be paid. As Isaiah nears the breaking point, he begins to question the means, and only God knows how far things will go before it all falls apart. Inside this book you'll find motivation from the characters involved. Their energy and desire to achieve more, will undoubtedly motivate you to take a different look on life. Although this is a work of fiction the indept dialogue and complex issues, involved will ring bells in your mind, striking a chord, that will touch the centerpiece of your soul!

Comprehensive and authoritative, yet reader-friendly, Clarkson/Miller/Cross' BUSINESS LAW: TEXT AND CASES, 15E blends classic black letter law with cutting-edge coverage of contemporary issues and cases. This market-leading book offers a strong reader focus designed to make the law accessible, interesting, and relevant. Updated content and features highlight today's latest developments in business law, while cases range from precedent-setting landmarks to some of today's most important recent decisions. The authors prioritize ethics with a unique ethical decision-making framework. This edition also integrates global, e-commerce, digital, and corporate themes with insightful features, such as Digital Updates that demonstrate how digital progress is affecting the law. Numerous examples, Case in Points and Concept Summaries further help you apply the law to today's real issues. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Legumes are very important plants playing a central role in biological research. They are a key component of sustainable agricultural systems because of symbiotic nitrogen fixation and other beneficial symbiosis with mycorrhizal fungi. Studies on most of the major leguminous crops are hampered by large genome sizes and other disadvantages which have hindered the isolation and characterisation of genes with important roles in legume biology and agriculture. For this reason Lotus japonicus was chosen as a model species for legume research some ten years ago. Since then, many groups around the world have adopted Lotus as a model and have developed numerous resources and protocols to facilitate basic and applied research on this species. This handbook represents the first effort to compile basic descriptions and methods for research in Lotus, including symbiotic processes, cell and molecular biology protocols, functional genomics, mutants, gene tagging and genetic analysis, transformation and reverse genetic analysis, primary and secondary metabolism, and an exhaustive update of the scientific literature available on this plant.

This book focuses on the engineering aspects of phosphorus (P) recovery and recycling, presenting recent research advances and applications of technologies in this important and challenging area of engineering. It highlights full-scale applications to illustrate the performance and effectiveness of the new technologies. As an essential element for all living organisms, P cannot be replaced by any other element in biochemical processes, humans ultimately rely its availability. Today, P is mostly obtained from mined rock phosphate (Pi). However, natural reserves of high-grade rock Pi are limited and dwindling on a global scale. As such, there have been increased efforts to recycle P from secondary sources, including sewage sludge, animal manure, food waste, and steelmaking slag, and so close the anthropogenic P cycle. In addition to various aspects of phosphorus covered by other literature, including chemistry, biochemistry, ecology, soil-plant systems and sustainable management, this book is a valuable and comprehensive source of information on the rapidly evolving field of P recovery and recycling engineering for students, researchers, and professionals responsible for sustainable use of phosphorus.

Based on the longtime market-leader BUSINESS LAW: TEXT AND CASES by Clarkson/Miller/Cross, this paperback text offers an affordable solution for those looking for a concise one-semester text that offers in-depth treatment of today’s business law topics. Designed for the contemporary one-semester course, BUSINESS LAW: TEXT AND CASES--AN ACCELERATED COURSE provides the rigor and seriousness of a classic black-letter law text with a brief nineteen-chapter table of contents. The text combines the benefits of a black-letter law approach with a strong student orientation, making the law accessible, interesting, and relevant for readers. An excellent assortment of included cases range from precedent-setting landmarks to important recent decisions, and ethical, global, e-commerce, digital, and corporate themes are integrated throughout this edition. In addition, numerous critical-thinking exercises challenge students to apply what they have learned to real-world issues. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

The King in Black invades Earth-65! Bonded to a synthetic symbiote from another reality, Ghost-Spider, A.K.A. Gwen Stacy, is unique among the web-slingers of the Multiverse! But when Knull descends on her adopted home, his gravity well of dark psychic energy unleashes unforeseen consequences on Gwen! And her bandmate Mary Jane Watson is about to be pulled into this ordeal with a symbiote of her own. The ensuing madness can only be described as Gwenom vs. Carnage! They've been at each other's throats in the Mary Janes for years, but this battle of the bands will really shred! Plus: Andi Benton returns, but does Scream have what it takes to put a dent in Knull's armor? And what does this latest symbiotic nightmare mean for Spider-Man?! Collects KING IN BLACK: GWENOM VS. CARNAGE #1-3, KING IN BLACK: SCREAM and KING IN BLACK: SPIDER-MAN.

"Falling in love with Ben Kiem, despite his rowdy pranks and bad-news friends, sensible Linda Eicher must make a difficult decision when a heartbreaking misunderstanding comes between them"--

Irishness and Womanhood in Nineteenth-century British Writing

Using Lady Morgan's The Wild Irish Girl as his point of departure, Thomas J. Tracy argues that nineteenth-century debates over what constitutes British national identity often revolved around representations of Irishness, especially Irish womanhood. He maps the genealogy of this development in fiction, political discourse, and the popular press, from Edgeworth's Castle Rackrent through Trollope's Irish novels, focusing on the pivotal period from 1806 through the 1870s.
