Moving to a new Amish settlement in small-town Colorado was a brave new start for independent-minded quiltmaker Esther Kiem. But helping her reckless relative will really put her special matchmaking skills to the test . . . Mischievous and rebellious, young Ben Kiem is making the wrong kind of name for himself throughout the town of Byler. And even though his sister-in-law, Esther, somehow coaxes him into keeping company with sensible Linda Eicher, Ben can ' t see anything they have in common. Or that he could ever be good enough for someone like her. But Linda ' s down-to-earth nature and unexpected understanding have Ben trying his best to be better, no matter how challenging . . . Linda couldn ' t be more surprised when Ben turns out to be caring and helpful, despite his rowdy pranks and bad-news friends. And falling in love with him suddenly seems just right. But when a heartbreaking misunderstanding comes between them, both she and Ben must risk enough to trust, stitch the pieces back together—and dare a forever precious happiness. Plus--first hand accounts of biking adventures worldwide.

A motorcycle ' s electrical system can be daunting to even the most adept home mechanic. And yet, the more complex these systems become–and the more important to a motorcycle ' s function–the more useful, even critical, it will be to know something about them. That ' s where this book comes in with a user-friendly guide to understanding, diagnosing, and fixing the electrical systems and components that make a bike run . . . or falter. Veteran technician Tracy Martin explains the principles behind motorcycle electrical systems and how they work. He details the various tools, such as multimeters and test lights, that can be used to evaluate and troubleshoot any vehicle's electrical problem. And in several hands-on projects, he takes readers on a guided tour of their vehicle ' s electrical system, along the way giving clear, step-by-step instructions for diagnosing specific problems.

Practical guide for anyone planning a long-distance motorcycling trip. Choosing, preparing and equipping a motorbike, documentation and shipping, life on the road, trans-continental route outlines: Asia, Africa & Latin America. Updated and now in full colour, this best-seller has been in print for almost 30 years.

Riding motorcycles is fun, but author Ken Condon maintains that there is a state of consciousness to be achieved beyond the simple pleasure of riding down the road. Riding in the Zone helps riders find that state of being. It's the experience of being physically and mentally present in the moment, where every sense is sharply attuned to the ride. Your mind becomes silent to the chatter of daily life, and everyday problems seem to dissolve. You feel a deeper appreciation for life. Your body responds to this state of being with precise, fluid movements, you feel in balance, your muscles are relaxed, and it seems as though every input you make is an expression of mastery. This is "the Zone." Condon identifies all of the factors that affect entering the Zone and addresses each one individually, from the development of awareness and mental skills to mastering physical control of the motorcycle. At the end of each chapter are drills designed to transform the book's ideas into solid, practical riding skills. Riding in the Zone takes riders to the next level in their skill set.

The first time Flynn Long sees her, she's lying on a bed in lingerie. The picture is soft, just like her curves, and instantly he's obsessed. Cali Carr is at the end of her full-figure modeling career when she's hired for a new campaign. But when the owner of the company steps out of the shadows and starts calling the shots, a job is the last thing it feels like. Love at first sight isn't supposed to be real. One touch isn't supposed to ignite so much. A single picture isn't supposed to drive a man insane. But luckily for us it's happening in Curvy! Warning: Over the top isn't strong enough for what this short story is. It's velvety sweetness coated in insta-love cheese, and it's waiting for you to take a bite.

Suspension is probably the most misunderstood aspect of motorcycle performance. This book, by America's premier suspension specialist, makes the art and science of suspension tuning accessible to professional and backyard motorcycle mechanics alike. Based on Paul Thede's wildly popular Race Tech Suspension Seminars, this step-by-step guide shows anyone how to make their bike, or their kid's, handle like a pro's. Thede gives a clear account of the three forces of suspension that you must understand to make accurate assessments of your suspension's condition. He outlines testing procedures that will help you gauge how well you're improving your suspension, along with your riding. And, if you're inclined to perfect your bike's handling, he even explains the black art of chassis geometry. Finally, step-by-step photos of suspension disassembly and assembly help you rebuild your forks and shocks for optimum performance. The book even provides detailed troubleshooting guides for dirt, street, and supermoto--promising a solution to virtually any handling problem.

An Amazon Charts, Washington Post, and Wall Street Journal bestselling series. In this pulse-racing thriller by the New York Times bestselling author of The Last Agent, an American sleeper cell in Russia goes silent--and it's one man's duty to find them. After a harrowing escape from Russian agents on his last mission, Charles Jenkins thinks he's finally done with the spy game. But then the final two of the Seven Sisters--American assets who have been deep undercover in Russia for decades--cut off all communication with their handlers. Are they in hiding after detecting surveillance? Or have they turned and become double agents? It's Jenkins's duty to find out, but he's been added to a Russian kill list. It will require all of Jenkins's knowledge of spycraft--and an array of disguises--to return to the country undetected. But plans go awry his first night in Moscow when Jenkins gets involved in an altercation that ends in the death of the son of one of Russia's most powerful organized crime leaders. Pursued by mafia henchmen, Russian agents, and a particularly dogged Moscow police detective, Jenkins is determined to track down the final two Sisters and get them to America--or die trying. As various forces close in, Jenkins fears this time he might've pushed his luck too far.

We love The American Farmer. We trust them to grow our food, to be part of children's nursery rhymes, to provide the economic backbone of rural communities, and to embody a version of the American dream. At the same time, we know that "corporate farms" are disrupting the agrarian way of life that we so admire, and that we've got to do something to stop it. So what's our plan for saving the farms we lo Other F Words), Sarah K Mock dismantles misconceptions about American farms and discovers what makes small family farms work, or why they don't. While exploring the intersection of farming and wealth, Mock offers an alternative perspective on American agricultural history, and outlines a path to a more equitable food system moving forward. Calling for change, Farm (and Other F Words) tackles ques farmers really get paid not to farm? Are "big corporate farms" the future? How much good has the food movement done for small family farmers? Ultimately, Mock suggests a solution without putting the onus for change on struggling consumers and reminds us that, "the future of American agriculture is not yet decided."

In this adventure motorsports memoir, the first Canadian motorcycle racer to complete the infamous Paris-Dakar Rally recounts his incredible journey. The Paris-Dakar Rally is is without question the most arduous and notorious off-road motorsports event on the planet. Since its inception in 1979, it has attracted more than three thousand adventurers from all walks of life. The men and women who have taken up the "Dakar challenge" have at least one thing in common: a desire to measure themselves against the desolate sands of the Sahara. In 2001, Canadian adventure racer Lawrence Hacking entered what would be the last rally on the iconic route from Paris to Dakar. In To Dakar and Back, Hacking, in collaboration with motorsport journalist Wil De Clercq, recounts the three weeks of blood, sweat, and tears that took him on that ten thousand kilometer journey in the heat of competition from the glitzy streets of the French capital through the hinterland of North Western Africa and the triumph of self-realization.
