Memoir Dari Guli ke Golf: Laluan Berbelok ke Puncak merupakan memoir liku-liku hidup penulis sejak kecil hinggalah bersara. GULI ialah simbol permainan tradisi kanak-kakak desa yang turut menjadi permainan waktu senggang penulis ketika kecilnya, manakala GOLF ialah simbol permainan orang kenamaan yang ketika ini menjadi permainan yang "dinikmati" oleh penulis. Kedua-dua permainan ini mempunyai nilai sentimental yang tersendiri buat diri penulis lantaran beliau pernah melalui pasang surut dan badai kehidupan terutamanya ketika zaman kanak-kanaknya. Namun demikian, Allah SWT jua yang Maha Pemurah lagi Maha Pengasih; kehidupan yang dahulunya sering dilanda badai, kini diwarnai pelangi. Penulis menzahirkan pengalaman hidupnya dalam tiga fasa: Fasa I - Zaman membesar; bergelumang di sawah dan di kebun getah membantu ibu di kampung. Fasa II - Zaman persekolahan hingga ke menara gading dan seterusnya berkerjaya. Fasa III - Zaman kehidupan selepas persaraan. Setiap fasa yang dilalui penulis mungkin pernah dilalui oleh kebanyakan orang, namun pastinya dengan pengalaman yang berbeza. Kelainan itulah yang ingin dikongsikan penulis dengan khalayak sebagai panduan hidup sesama hambanya.

It also gives a realistic view of what daily life is like as a vet - the challenges and triumphs. Dear Mr. Kilmer

Developing and Leading Emergence Teams

Developing and Leading Emergence Teams describes a future business landscape that seems to be complicated, complex and chaotic, in almost equal measures. The variety and diversity of the environments within which large organizations will be seeking to operate, require a similar variety of systems,

process and structures if they are to respond successfully to emerging opportunities. The established models of teamworking (matrix, cross-functional or transdisciplinary) can all adapt to this new environment but will only do so if the culture, leadership and management style of the business enables this. The authors describe a model of emergence teams; high-trust teams that exhibit exceptional affinity for knowledge sharing, sense making, and consensus building. They then explore the specifics of leading such a team, how the team leader should: design the team; interact and facilitate the team's development; understand the personal nature of each of the team members and the overall emotional regime that will affect trust, commitment and motivation. Peter Smith and Tom Cockburn draw on research and detailed case examples to provide techniques your organization can adopt in order to build and support the various teams capable of addressing complexity.
