The humid highlands in sub-Saharan Africa (SSA) are characterized by high population densities and require intensification. The Consortium for Improving Agriculture-based Livelihoods in Central Africa (CIALCA) has set up a research for development platform in various mandate areas in DR Congo, Burundi, and Rwanda, aiming to identify improved production, market, and nutrition options and facilitating the access for development partners to these options. This platform is supported by capacity building, multi-stakeholder dialogue, and monitoring and evaluation efforts. The conference, facilitated by CIALCA, aimed to (i) take stock of the state-of-the art in agricultural intensification in the highlands of SSA and (ii) chart the way forward for agricultural research for development in the humid highlands of SSA, and more specifically in the recently launched Humidtropics Consortium Research Programme, through keynote, oral and poster presentations, and strategic panel discussions.

Brian and his friends are not part of the cool crowd. They're the misfits and the troublemakers—the ones who jump their high school's fence to skip class regularly. So when a deadly virus breaks out, they're the only ones with a chance of surviving. The virus turns Brian's classmates and teachers into bloodthirsty attackers who don't die easily. The whole school goes on lockdown, but Brian and his best friend, Chad, are safe (and stuck) in the theater department—far from Brian's sister, Kenzie, and his ex-girlfriend with a panic attack problem, Laura. Brian and Chad, along with some of the theater kids Brian had never given the time of day before, decide to find the girls and bring them to the safety of the theater. But it won't be easy, and it will test everything they thought they knew about themselves and their classmates. Praise for SICK "The gore and action will leave enthralled readers thrilled and then sated with each kill on either side." —Booklist "Between the pacing and the heroes' salty, blue language (full of lovingly creative, genital-inspired insults), reluctant readers who love zombies will devour it, right up to the abrupt end." —Kirkus Reviews "Sick is well written, with great detail, even if it is a little gory." —VOYA Magazine Awards 2014 Quick Picks for Reluctant Young Readers list from YALSA

Naturally aspirated Mopar Wedge big-blocks are quite capable of producing between 600 to 900 horsepower. This book covers how to build Mopar's 383-, 400-, 413-ci, 440-ci engines to these power levels. Discussed is how to select a stock or aftermarket block for the desired performance level. The reciprocating assembly is examined in detail, so you select the right design and material for durability and performance requirements. Cylinder heads and valve train configurations are crucial for generating maximum horsepower and torque and this volume provides special treatment in this area. Camshafts and lifters are compared and contrasted using hydraulic flat tappet, hydraulic roller and solid flat tappet cams. Also, detailed engine builds at 600, 700, 800, and 900 horsepower levels provide insight and reveal what can be done with real-world component packages.

An expert communicator, Jack McAfghan writes the memoirs of his four-legged life as a mixed-breed Afghan Hound. From obedience and agility training to hospice work, Jack and his master learn their lessons side by side, inevitably applying what they have learned as their own lives unfold. It is a love story that can be used as an informal study guide for those who are in the process of training a dog, learning to love, or grieving over the loss of a friend. Jack presents with a wise, open and informed mind. He speaks firsthand about the psychological aspects of canine behavior as he opens the reader's mind to the possibilities that exist in life and after death. He reminds us that the way we think can change the course of our lives. This story will touch everyone who has ever loved. It matters not if they have four legs or two. Jack leads us to a higher love as he expands our tolerance and compassion for all of humanity. He extends himself to every creature of the earth, every human on the planet, every spirit in the universe and most of all, to the bona fide Master over all.

Focuses on English-language comics with special emphasis on the new graphic novel format that emerged in the 1970s. A New York Review Books Original Hav is like no place on earth. Rumored to be the site of Troy, captured during the crusades, recaptured by Saladin, visited by Tolstoy, Hitler, Grace Kelly, and Princess Diana, this Mediterranean city-state is home to several architectural marvels and an annual rooftop race that is a feat of athleticism and insanity. As Jan Morris guides us through the streets and quarters of Hav, we hear the mingling of Italian, Russian, and Arabic in its markets, delight in its famous snow raspberries, and the denizens of its casinos and cafés. When Morris published *Last Letters from Hav* in 1985, it was short-listed for the Booker Prize. It is joined by *Hav of the Myrmidons*, a sequel that brings the story up-to-date. Twenty-first-century Hav is nearly unrecognizable and monetized, it is ruled by a group of fanatics who have rewritten its history to reflect their own blinkered view of the past. This novel is dazzlingly sui-generis, part erudite travel memoir, part speculative fiction, part cautionary political tale. It transports us to an extraordinary place that never was, but could well be.

Germany, 1941: "We live together, or we die together." A novel that will stay with you forever, *The Girl Who Survived* tells the inspiring true story of Ilse Stein, a German Jew who was imprisoned in a ghetto--and who fell in love with the man she was supposed to loathe. For Ilse life is unrecognizable. A year ago, she wasn't forced to wear a star on her clothes. A year ago, her parents were alive, not yet killed by their own countrymen. A year ago, she had her freedom. Now, at the break of dawn, she steps off the cattle train into a Minsk ghetto. This is Ilse's new home: trapped by barbed wire, surrounded by SS guards she is forbidden to look in the eye, with no choice but to trade the last of her belongings for scraps of food. Sentenced for the crime of simply existing, she doesn't expect to live past the summer. Yet the prisoners in the ghetto refuse to give up--the underground resistance is plotting their escape. Ilse's first act of defiance is smuggling from the munitions factory, slipping bullets into the lining of her pockets. But this is just the beginning... When Ilse meets Wilhem, a local SS administrative officer, she never dreams that her greatest rebellion will be falling for him. Wilhem promises that she will survive, even if the cost is his life. But in a world of such danger, daring to love is the most dangerous risk of all... Fans of *The Tattooist of Auschwitz*, *The Choice*, and *The Orphan Train* will be completely gripped by this heartbreaking tale. Based on a true story, this powerful novel shows that love is stronger than terror, and that when life takes everything from you, death is not to be feared... This book was previously published as *No Woman's Land*. Readers love Ellie Midwood: "AMAZING read! I loved this so much!... Sensational... One of the most inspiring love stories of all time... “Dunhuang Manuscript Culture” explores the world of Chinese manuscripts from ninth-tenth century Dunhuang, an oasis city along the network of pre-modern routes known today collectively as the Silk Roads. The manuscripts have been discovered in 1900 in a sealed-off side-chamber of a Buddhist cave temple, where they had lain undisturbed for for almost nine hundred years. The discovery comprised tens of thousands of texts, written in over twenty different languages and scripts, including Chinese, Tibetan, Old Uighur, Khotanese, Sogdian and Sanskrit. This study centres around four groups of manuscripts from the mid-ninth to the late tenth centuries, a period when the region was an independent kingdom ruled by local families. The central argument is that the manuscripts attest to the unique cultural diversity of the region during this period, exhibiting—alongside obvious Chinese elements—the heavy influence of Central Asian cultures. As a result, it was much less ‘Chinese’ than commonly portrayed in modern scholarship. The book makes a contribution to the study of cultural and linguistic interaction along the Silk Roads.

CHAPTER I. The Pre-mauryan Per1od. Both Brahminical and Buddhistic texts are thus replete with references to the sea-borne trade of India that directly and indirectly demonstrate the existence and development of a national shipping and shipbuilding. It is now necessary to narrate the facts of that trade, and for this we shall have to draw upon all sorts of evidence, literary, inscriptional, and numismatic, and both Indian and foreign. For India alone has not the monopoly of these evidences; and if she really had commercial connection with the outside world it is natural, and in fact necessary, that they be also supplied by those countries with which she carried on her intercourse, thus confirming those conclusions that are reached by-a study of the purely Indian evidences. And so do we find, as a matter of fact, in various foreign works abundant allusions to India's commerce, arts, and manufactures, indicating the glorious position she once occupied and for long maintained as the Queen of the Eastern Seas. Indeed, all the evidences available will clearly show that for full thirty centuries India stood out as the very heart of the commercial world, cultivating trade relations successively with the Phoenicians, Jews, Assyrians, Greeks, Egyptians, and Romans in ancient times, and Turks, Venetians, Portuguese, Dutch, and English in modern times. A genial climate and a fertile soil, coupled with the

industry and frugality of the Indian people, rendered them virtually independent of foreign nations in respect of the necessities of life, while their secondary wants were few. Of the latter, tin, lead, glass, amber, steel for arms, and perhaps coral and to a small extent medicinal drugs, were all that India had need to import...

Auto Repair For Dummies

Auto Repair For Dummies, 2nd Edition (9781119543619) was previously published as Auto Repair For Dummies, 2nd Edition (9780764599026). While this version features a new Dummies cover and design, the content is the same as the prior release and should not be considered a new or updated product. The top-selling auto repair guide--400,000 copies sold--now extensively reorganized and updated Forty-eight percent of U.S. households perform at least some automobile maintenance on their own, with women now accounting for one third of this \$34 billion automotive do-it-yourself market. For new or would-be do-it-yourself mechanics, this illustrated how-to guide has long been a must and now it's even better. A complete reorganization now puts relevant repair and maintenance information directly after each automotive system overview, making it much easier to find hands-on fix-it instructions. Author Deanna Sclar has updated systems and repair information throughout, eliminating discussions of carburetors and adding coverage of hybrid and alternative fuel vehicles. She's also revised schedules for tune-ups and oil changes, included driving tips that can save on maintenance and repair costs, and added new advice on troubleshooting problems and determining when to call in a professional mechanic. For anyone who wants to save money on car repairs and maintenance, this book is the place to start. Deanna Sclar (Long Beach, CA), an acclaimed auto repair expert and consumer advocate, has contributed to the Los Angeles Times and has been interviewed on the Today show, NBC Nightly News, and other television programs. The X-Men are back in the cinema. Wolverine, Professor X, Cyclops, Jean Grey and the rest of the team return in X2, facing a new threat so dangerous that former enemy Magneto must join their ranks to defeat it.
