"In some ways, *The All Consuming Nation* is an autobiography of the babyboom generation since it highlights the consumer culture and rising environmental consciousness that has been central to that generation's lived experience. That should appeal to a wide audience of regular readers. Those who are sensitive to such current issues as wealth inequality, climate change, and the environmental consequences of mass consumerism will also find the book as a way to see how we reached our contemporary crisis points and possible ways to curb current excesses. The book alternates chapters on the evolving consumer economy with chapters on environmental critiques of mass consumerism. It considers the technologies that have fuelled consumption, strategies such as planned obsolescence that sustain consumption, and the shift in retailing from brick and mortar to on-line shopping. Environmental critics have viewed every shift in patterns of increasing consumption as ultimately unsustainable. Finally, the book should serve as text for post World War II surveys in American History, Environmental History, as well as business and marketing courses"--

The myths of the Norse god Thor were preserved in the Icelandic Eddas, set down in the early Middle Ages. The bane of giants and trolls, Thor was worshipped as the last line of defence against all that threatened early Nordic society. Thor's significance persisted long after the Christian conversion and, in the mid-eighteenth century, Thor resumed a symbolic prominence among northern countries. Admired and adopted in Scandinavia and Germany, he became central to the rhetoric of national romanticism and to more belligerent assertions of nationalism. Resurrected in the latter part of the twentieth century in *Marvel Magazine*, Thor was further transformed into an articulation both of an anxious male sexuality and of a parallel nervousness regarding American foreign policy. Martin Arnold explores the extraordinary regard in which Thor has been held since medieval times and considers why and how his myth has been adopted, adapted and transformed.

Many film fans consider Humphrey Bogart the ultimate star of Hollywood's golden era. He rose from supporting roles in the early 1930s to become a superstar by the end of the decade. Bogart appeared in more classic films than just about any other actor in American cinema. In addition to The Maltese Falcon, Casablanca, The Big Sleep, The Treasure of Sierra Madre, and The African Queen, Bogart starred in dozens of other highly regarded films until his death in 1956. In The Essential Humphrey Bogart, Constantine Santas looks at the most important films of this Hollywood legend's career. Along with the established classics, this book discusses other films that showcase Bogart's superb acting talents, such as

High Sierra, To Have and Have Not, Key Largo, In a Lonely Place, Beat the Devil, The Caine Mutiny, Sabrina, and The Desperate Hours. Presented in chronological order, these films chart the actor's ascent from stereotypical roles as gangsters in The Petrified Forest and Dead End to iconic roles like that of Sam Spade, Rick Blaine, and Philip Marlowe. In all of these performances Bogart showed his versatility, playing a variety of characters from tough detectives and war heroes to a lawyer, writer, gold prospector, river rat, and even a priest. Containing a brief biographical sketch of the actor, this volume then looks at each of Bogart's most significant films. Each entry states why the particular movie was included and is followed by a plot analysis, critical views from film historians, and DVD/Blu-ray availability. A key to the ranking system helps the reader select what film to view at his or her leisure. Highlighting more than thirty-five films, The Essential Humphrey Bogart is a must-have companion for every fan of this actor's work and will no doubt introduce viewers to other films to put on their must-see list.

A few examples include the one on the rotating mercury reflector, a pursuit curve, cooling tea, and the curious fountain problem whose diagram is pictured on the cover.
