From the author of the New York Times bestselling *Oh My Dog* comes the true story of Yoda, a very special cat—and adorable Instagram sensation—rescued by Beth and Howard Stern. When Beth first met Yoda at the animal shelter, he was skinny and his fur was matted. He hid in the back of his cage and wanted nothing to do with anyone. But Beth chose Yoda. She took him home, cleaned him up, and gave him love. Beth fosters kittens, too, and before long Yoda discovered them—and his life purpose. Now he's happy, and fluffy, and very, very busy. He makes sure the orphan kittens eat, he keeps them safe, and he even cleans up after them. Yoda acts like a father and mother to the foster kittens that fill his home, and taking care of others has helped him too: even though Yoda has a serious heart condition, he's made a miraculous turnaround, and is healthier than doctors thought he could be. To further the important work that Beth does on behalf of animals, all of her proceeds from this book will be donated to North Shore Animal League America's Bianca's Furry Friends campaign.

solve a problem that strength and muscle cannot.

This zoological and photographic odyssey documents the cutest, cuddliest, and silliest animals of all time, to brighten up the days of humans across the world. As its name subtly suggests, this book features eighty pictures of excessively cute animals. That's literally it. Among other gems, you can expect some cats flaunting some fabulous wigs, sloths dangling casually, otters holding hands (an actual thing that occurs in nature) and piglets wearing little rain boots for some adorable reason. Beyond a shadow of a doubt, this book is a landmark moment in the history of photojournalism. While turning these puppy-peppered pages, your mood will literally become one of delight and tenderness. And therein lies the powerful magic of pictures of cute animals. Just simply peering into those big eyes carries with it all the gravitas of a David Attenborough nature documentary, but without having to actually watch a documentary. The resilience of the animal kingdom is endlessly inspiring. Cast your mind to this iconic image: a kitten dangling from a tree branch, while sagely encouraging us humans to just "hang in there." And hang in there we did--in order to own this book. This is literally exactly what our turbulent world needs right now. With its unique meow factor, this is the book that you deserve after a ruff day at work. (It should be said that, mercifully, no animal puns are included in this book.)

In this tender board book, a kitten practices the basics of feline behavior over the course of a day. A single word of text per spread teaches readers "how to be a cat"--how to stretch, clean, pounce, feast--while the striking paper cuts illustrate the kitten's attempts to imitate an adult cat's mastery of each skill. At times, the kitten triumphantly succeeds, and at other times the kitten struggles, in vignettes that range from whimsical to profound. A celebration of all things feline, *How to Be a Cat* also tells a universal story of mastering life skills, and of the loving relationship between parent and child.

Do you sometimes find it difficult to engage your loved one with dementia? To help them stay calm in the midst of an emotional reaction? To find activities you can share with them that encourage peaceful interaction? This book can help. Thumbing through this beautiful picture book with your loved one is an activity that will capture their attention, engage their mind, and encourage them to relax. Seeing these adorable photos of kittens may also inspire them to talk about their current pets or reminiscence about pets they once had. You'll find a lot of other picture books out there, mostly for kids. But it's demeaning for seniors to give them books meant for children. Adult photography books are usually large and heavy, and they often include long, frustrating paragraphs of text. At Sunny Street Books, we design books specifically for seniors with dementia. They're lightweight yet high-quality, adult in nature, with nothing to distract your loved one from their enjoyment of the photos themselves. Families, caregivers, and assisted living staff can share this book with the people they care for. It is also an excellent activity for seniors with Parkinson's disease or recovering from a stroke. Seniors with eyesight or strength challenges who find it difficult to hold a heavy book or read long paragraphs of text will also enjoy this book. **FEATURES** * Beautiful Content This book is filled with

This book can be given to your loved one without fear that they might feel embarrassed or offended. NOTES FOR CAREGIVERS * Sit beside your loved one in a quiet place that is free of distractions. * Allow them to hold the book if possible, and also turn the pages, which will enable them to become more engaged in the book. * Put a pillow in their lap to support the book as you thumb through it together. * Start by asking questions that are easy to answer. "Which kitten do you think is cuter? The orange tabby or the Siamese?"
