Follow two abolitionists who fought one of the most shockingly persistent evils of the world: human trafficking and sexual exploitation of slaves. Told in alternating chapters from perspectives spanning more than a century apart, read the riveting 19th century first-hand account of Harriet Jacobs and the modern-day eyewitness account of Timothy Ballard. Harriet Jacobs was an African-American, born into slavery in North Carolina in 1813. She thwarted the sexual advances of her master for years until she escaped and hid in the attic crawl space of her grandmother's house for seven years before escaping north to freedom. She published an autobiography of her life, *Incidents in the Life of a Slave Girl*, which was one of the first open discussions about sexual abuse endured by slave women. She was an active abolitionist, associated with Frederick Douglass, and, during the Civil War, used her celebrity to raise money for black refugees. After the war, she worked to improve the conditions of newly-freed slaves. As a former Special Agent for the Department of Homeland Security who has seen the horrors and carnage of war, Timothy Ballard founded a modern-day "underground railroad" which has rescued hundreds of children from being fully enslaved, abused, or trafficked in third-world countries. His story includes the rescue and his eventual adoption of two young siblings--Mia and Marky, who were born in Haiti. Section 2 features the lives of five abolitionists, a mix of heroes from past to present, who call us to action and teach us life lessons based on their own experiences: Harriet Tubman--The "Conductor"; Abraham Lincoln--the "Great Emancipator"; Little Mia--the sister who saved her little brother; Guesno Mardy--the Haitian father who lost his son to slave traders; and Harriet

Jacobs--a teacher for us all.

Sonia Riccardi, impetuous and sensual, is a woman no man could resist. And Larry Astell, heir to a champagne fortune, knows their passion is the most important part of his life. Until war places in jeopardy all they held dear - love, family and country. From the Left Bank of the 1930s to Nazi-occupied Paris, A FAREWELL TO FRANCE is a magnificent epic, played out against the tumultuous background of the time: a decadent French government, the life of a foreign correspondent, the grandeur of the champagne regions and the glory of the French Resistance.

Everybody's heard of Cleopatra - she's the most horribly famous of all of Egypt's queens. Everybody knows that she had a fling with Julius Caesar - and - Mark Antony and that she had a nasty accident with a snake. But in this book readers can discover everything they didn't know and never imagined, such as how Cleopatra married both her brothers and had her younger sister killed. Even though she's dead, Cleo's still full of surprises!

When Napoleon invaded Egypt in 1798, his troops were astonished to discover ancient temples, tombs and statues, all covered with hieroglyphs - the last remnants of an unreadable script and a language lost in time. On their return, Egyptomania spread rapidly and the quest to decipher hieroglyphs began in earnest: fame and fortune awaited the scholar who succeeded.

True Accounts of Slave Rescues: Then and Now

More than a Game covers the years that follow the one featured in the ESPN

documentary series "The Last Dance." After leaving the Bulls at the end of the 1997-1998 season—the year featured in the new ESPN documentary series "The Last Dance"—Phil Jackson had one year off and started to write this book—together with his old friend, fellow player and coach, the basketball novelist Charley Rosen. Then Phil took the LA Lakers coaching job, Rosen followed him there, and by the time they finished writing this book it was 2000 and Phil had won yet another NBA championship, the first of five he would win with his new team. In *More than a Game*, Jackson and Rosen look backward to their origins as players and coaches, forward to the future of the game of basketball, and linger in the moving target of the present—lavishing page after page on the Triangle Offense and all the ways it reveals the essence of the game of basketball they both love so much. This is Jackson in his prime, transitioning from the Bulls to the Lakers, a master of the art of winning, who would go on to claim more NBA championships, eleven, than any other coach in NBA history. As he writes in *More than a Game* of his newest championship team: "We won because our fundamentals were sound, because Shaq was so dominant and Kobe was so creative, but we also won because we developed a certain confidence in our ability to win."

The Pulitzer Prize-winning journalist looks at the life and times of the Chicago Bulls superstar— “The best Jordan book so far” (The Washington Post). One of sport’s biggest superstars, Michael Jordan is more than an internationally renowned athlete. As illuminated through David Halberstam’s trademark balance of impeccable research and fascinating storytelling, Jordan symbolizes the apex of the National Basketball Association’s coming of age. Long before multimillion-dollar signings and lucrative endorsements, NBA players worked in relative obscurity, with most games woefully unattended and rarely broadcast on television. Then came Larry Bird and Magic Johnson, Jordan’s two great predecessors, and the game’s status changed. The new era capitalized on Jordan’s talent, will power, and unrivaled competitiveness. In *Playing for Keeps*, Halberstam is at his investigative best, delving into Jordan’s expansive world of teammates and coaches. The result is a gripping story of the athlete and media powerhouse who changed a game forever. This ebook features an extended biography of David Halberstam.

Bestselling author Torey Hayden's novel is a fascinating study of a fractured family, a troubled child, and a psychiatrist's attempts to rescue them.

Stranger at the Window

A vivid and compelling memoir recounting the real lives, loves and friendship of 1940s Soho and its working girls. Barbara Tate was 17 when she heard the whispered word that would change her life: Soho. It would take four years for Barbara to escape her loveless home but when she finally made it to the forbidden streets of Soho - just as London was recovering from the trauma of the second world war - things would never be the same again. There the naive Barbara meets the beautiful and capricious Mae. When she takes a job as Mae's maid, Barbara imagines she'll be housekeeping. But down a shabby backstreet, Barbara discovers the secret lives of Soho's working girls. An astonishing world full of fierce friendships and bitter rivalries, dangerous men and desperate measures, Barbara soon learns that taking the money from a staggering supply of punters and making copious amounts of tea are only the bare essentials. She will need to be nursemaid, protector and confidante to impossible, adorable, self-destructive

Mae.

been stronger. Off the court, Iguodala has earned respect, too—for his successful tech investments, his philanthropy, and increasingly for his contributions to the conversation about race in America. It is no surprise, then, that in his first book, *Andre*, with his cowriter Carvell Wallace, has pushed himself to go further than he ever has before about his life, not only as an athlete but about what makes him who he is at his core. *The Sixth Man* traces Andre's journey from childhood in his Illinois hometown to his Bay Area home court today. Basketball has always been there. But this is the story, too, of his experience of the conflict and racial tension always at hand in a professional league made up largely of African American men; of whether and why the athlete owes the total sacrifice of his body; of the relationship between competition and brotherhood among the players of one of history's most glorious championship teams. And of what motivates an athlete to keep striving for more once they've already achieved the highest level of play they could have dreamed. On drive, on leadership, on pain,

We all know the stories of Cinderella, Snow White, and Rapunzel. But have you ever heard of Alice Bingley-Beckerman, Reena Paruchuri, or Molly Miller? Of course you haven't. Not yet. What these girls have in common with their fairy tale sisters is this: they are the stepdaughters of three very evil stepmothers. And they're not happy about it. They think they are alone in their unhappiness until they arrive at Putnam Mount McKinsey, a posh boarding school located in lovely rural

Massachusetts. Here is where they will plot their revenge. But first they have to meet. In her first novel, Lily Archer tells a knowing, wickedly funny story about how friendship just may turn out to be more happily-ever-after than family.

“An awe-inspiring tour of nature” from a Pulitzer Prize–winning science writer (San Francisco Examiner). Natalie Angier has taken great pains to learn her science from the molecule up. She knows all that scientists know—and sometimes more—about the power of symmetry in sexual relations, about the brutal courting habits of dolphins, about the grand deceit of orchids, and about the impact of female and male preferences on evolution. The Beauty of the Beastly takes the pulse of everything from the supple structure of DNA to the erotic ways of barn swallows, queen bees, and the endangered, otherworldly primate called the aye-aye. Few writers have ever covered so many facets of biology so evocatively in one book. Timothy Ferris, author of the acclaimed Coming of Age in the Milky Way, says Angier is “one of the strongest and wittiest science writers in the world today.” “Like Alan Lightman or Lewis Thomas,” writes Nobel laureate David Baltimore, “she draws from science a meaning that few scientists see, and her writing takes on an unusual dimension of artistry.” And Sherwin Nuland, author of How We Die, believes that “Natalie Angier is in the tradition of the great nature writers.” “A gold mine.” —The New York Times “From cockroaches to cheetahs,

DNA to elephant dung, Angier gives us intimate and dramatic portraits of nature that readers will find rewarding.” —Publishers Weekly

Superb. - Publishers Weekly How can we know about the lives of our ancestors who lived 30,000, or 300,000, or 3 million years ago? In *The Extraordinary Story of Human Origins*, Piero and Alberto Angela address the many difficulties and challenges that scientists face in assembling the record of human evolution. To piece together the intriguing puzzle of human origins it is necessary to study all clues that are made available by multidisciplinary research, including paleontology, biochemistry, geology, genetics, physics, and climatology. Like so many Sherlock Holmeses, researchers seek all possible clues and analyze them meticulously in hopes of being able to reconstruct the past. These pieces are few and fragmentary,
